The heavens declare the glory of God; and the firmament shows His handiwork. Day unto day utters speech, and night unto night reveals knowledge. There is no speech nor language where their voice is not heard. Their line has gone out through all the earth, and their words to the end of the world. **In them He has set a tabernacle for the sun.** Psalm 19:1-4.

Where were you when I laid the foundations of the earth? Tell Me, if you have understanding. Who determined **its measurements**? Surely you know! Or who stretched the line upon it? To what were its foundations fastened? Or who laid **its cornerstone**, when the morning stars sang together, and all the sons of God shouted for joy?...Where is the way to **the dwelling of light**? And darkness, where is **its place**, that you may take it to **its territory**, that you may know **the paths to its house**?...**By what way is light divided**, or the east wind scattered over the earth? Job 38:4-7, 19, 20, 24.

Then I said, I shall die in my nest, and multiply my days **as the Phoenix**. Job 29:18.

Have you never read in the Scriptures: **The stone** which the builders rejected **has become the chief cornerstone. This was the Lord's doing, and it is marvelous in our eyes?** Psalm 118:22, Matthew 21:42, Mark 12:11, Luke 20:17.

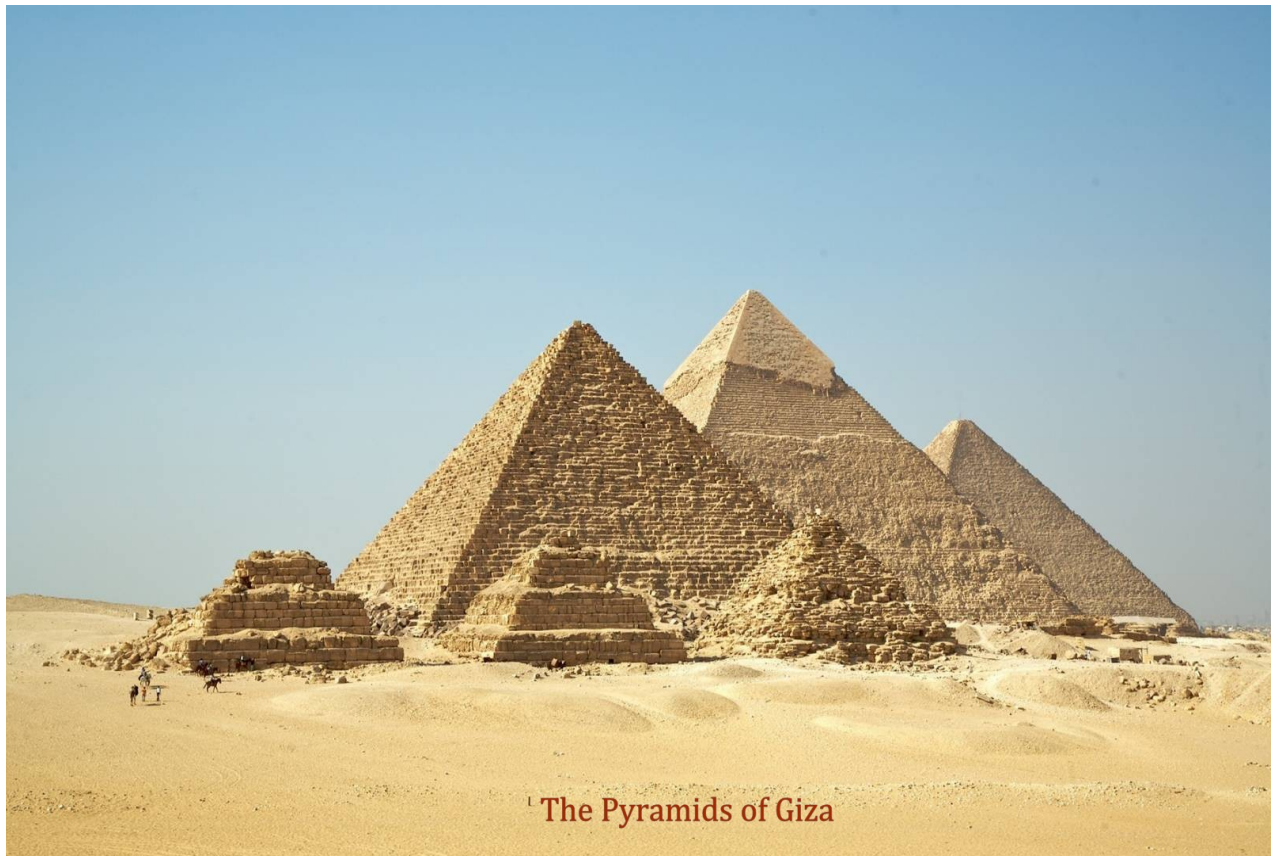

(Adonai Yahweh) you have set **signs and wonders in the land of Egypt, to this day**. Jeremiah 32:20.

In that day there will be **an altar to the Lord in the midst of the land of Egypt**, and **a pillar to the Lord** at its border. And it will be **for a sign and for a witness** to the Lord of hosts **in the land of Egypt**. Isaiah 19:19, 20.

Don't you know that **Egypt is an image of the heavens**? Or, to put it more properly: That in Egypt all workings of the forces ruling the heavens have been transferred to the earth below? (Hermetic Texts of Thoth).

FOREWORD

At the western banks of the Nile, with its 6671 kilometres the longest river on earth, directly opposite Cairo the world's most famous buildings are situated – the three Pyramids of Giza. Here is the boundary between Upper- and Lower Egypt, the place where the mighty water stream once split itself into numerous branches and thus as a fan formed the fertile estuary of the Nile delta. Everyone is familiar with these buildings as ‘tombs of pharaoh’s’, despite the fact that the two largest of them were never built as such. And if not, then what is the real purpose and hidden meaning of the very existence of these marvelous constructions? During years of study on the origins of the Pyramids of Giza in relation to Egyptology, astronomy, geometry and, especially, biblical theology and numerology, the author was led to the conclusion that these ancient monuments – particularly the Great Pyramid - are of Divine origin and contain a concealed Divine biblical, Messianic message, which, though not considered as ‘scientific’ by the academic establishment, the ancient Egyptians themselves firmly believed in. They were frequently visited by God-fearing people of the Adamic civilisation who had designed the pyramids of Giza, as well as the world's most ancient Zodiac - the Zodiac of Denderah, and originally had written what by Egyptologists is called the 'Book of the Dead'. We had noted down our findings in a book, self-published in Dutch in Holland in 2001, of which this exposition is a concise, renewed and updated version in 12 chapters, including an appendix, meant for interested laymen as well as bible students. Especially biblical eschatology is dealt with in relation to occult secret societies who already for centuries are secretly planning the coming of the New World Order of the end-time, and to whom the Great Pyramid is one of their most important occult symbols.

The Zodiac of Denderah. The red circle is the ecliptic.

1. THE GREAT PYRAMID

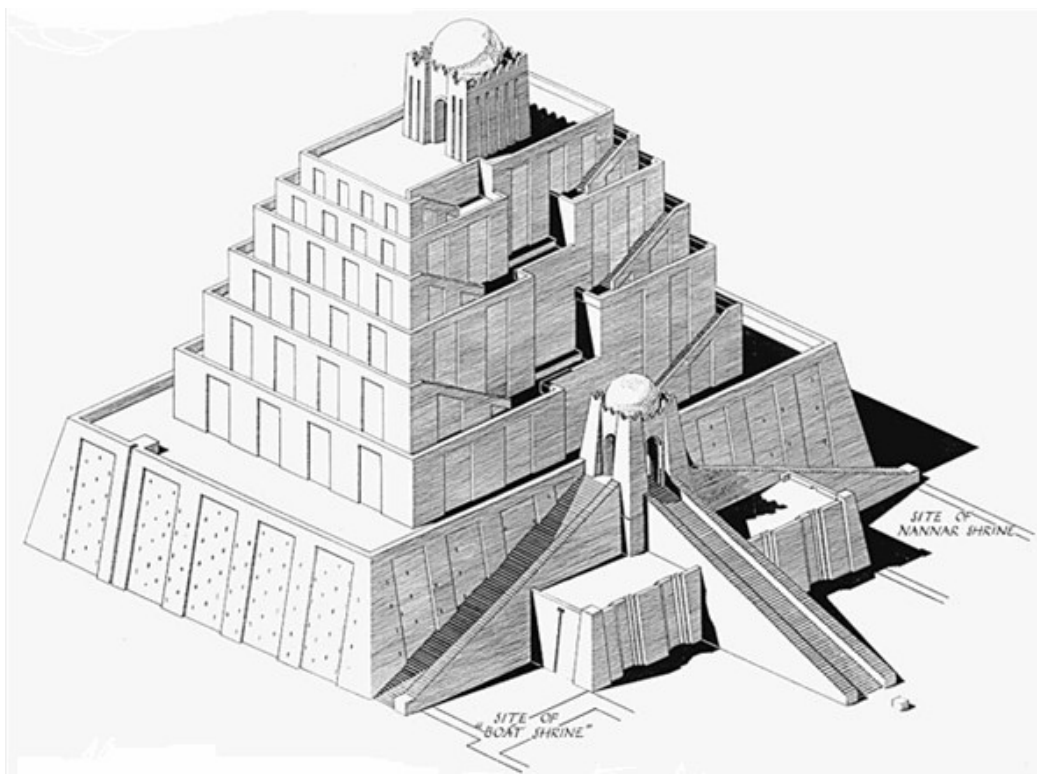

In classic academic circles it is more or less well known that the peoples of Antiquity knew much more about the significance of the Zodiac than we do. Because we, modern people of our time, have forgotten the real meaning of it, many are engrossed in astrology, which on the basis of the phase of planets and stars tries to 'tell fortunes', while also a more spiritual, even biblical form of astrology is in existence which could be described as 'astronomical prophecy', 'sacred astronomy' or 'Messianic astronomy'. Great names in the Bible for instance like Adam, Seth, Enoch, Noah, Job, Abraham, Joseph (viceroy of Egypt) and Moses (as educated by the priest-astronomers of Heliopolis) as well as the Sumerians, Babylonians and Egyptians, they all knew that the signs of the Zodiac contain a prophetic, read *Messianic message*, as these are God's revelation in the heavens, particularly in times

when His written revelation, the Bible, still was not in existence. Romans 1:19, 20 reads – “That which may be known of God is manifest in them (the ancients); for God hath showed it unto them. For the invisible things of Him from the creation of the world are clearly seen, being understood by the things that are made, even His eternal power and Godhead”. Psalm 19:1-4 says – “The heavens declare the glory of God; and the firmament shows His handiwork. Day unto day utters speech and night unto night shows knowledge. There is no speech nor language, where their voice is not heard. Their line is gone out through all the earth, and their words to the end of the world”. And Psalm 148:6 tells us – “He has established them (the stars) for ever and ever: He has made them a decree which (they) shall not pass”, i.e. God’s ordinances in the heavens.

The Zodiac of Denderah - Some 120 years ago, the Swiss-British theologian Dr. Ethelbert W. Bullinger published a book about this subject – “The Witness of the Stars”, in which he based himself on the representation of the Zodiac on the ceiling of the ancient Hathor temple at Denderah in Upper Egypt, as pictured above. The remarkable thing he discovered about this Zodiac is that the meaning of the images and names in hieroglyphs is in complete accordance with biblical exegesis and prophecy. But how is it possible that an ancient Egyptian Zodiac is in such compliance with the Bible? Because it is a faithful depiction of the world's most ancient Zodiac, dating from before the biblical Flood, thus originating from the *Adamic civilization*, as first compiled by devout patriarchs/astronomers like Seth, Enoch and Noah, who had a keen understanding of the meaning of God's revelations in the heavens. An indication of its great antiquity are the 8 sitting/kneeling persons visible in the circular enclosure at the 1 o'clock position of this Zodiac, it symbolically depicting Noah and his family of 4 men and 4 women, saved in the Ark during the Flood. A further indication is that they are located just beneath the signs of Aquarius and Capricorn. Aquarius here as Yahweh Elohim in His judgment of pouring out the waters of the Flood, and Capricorn, the 'Fish-Goat', depicting Noah himself as a resting antelope with the tail of a fish, thus signifying the pre- and post-Flood phases of his life. In Judaic star-lore the 12 antediluvian patriarchs were identified with the 12 constellations of the Zodiac. We know that from an inscription found in an ancient synagogue in Engedi, not far from Masada and Qumran near the Dead Sea. Other indications of the great antiquity of the Zodiac are that the carvings of the figures are very weathered by wind, sand and water, much more than the rest of the temple (indicating it originally was housed in a much older building), while it depicts the starry sky during the lifetimes of Adam and Eve, that is, when the Sun rose above the horizon at the Spring equinox due east in the sign of Taurus, as represented by their son, the patriarch Seth.

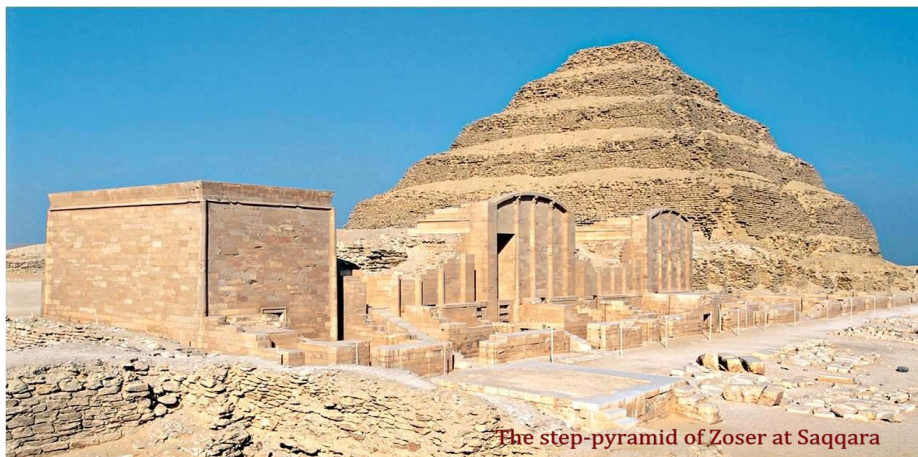

Flavius Josephus - Now Judaic traditions have led to the idea that the great knowledge of antediluvian patriarchs like Seth, Enoch and Noah of astronomy and its Messianic significance - as described by the classic Jewish historian Flavius Josephus (first century AD) - was concentrated by them in the “divinely inspired blueprint” of one particular and single building on earth - *the Great Pyramid of Giza*. Josephus writes that in order to prevent that Adam’s prophecy concerning the “two coming judgments of water and fire would get lost”, the descendants of Seth erected two ‘pillars’ in which they had ‘engraved’ the whole of their astronomical knowledge. One ‘pillar’ or ‘monument’ would be made of brick stone, the other of natural stone. Should the brick stone monument “be destroyed by the judgment of God, then *the monument of natural stone would preserve the revelation*” (Jewish Antiquities, book I, chapter II). It is clear that the brick stone monument must be identified with the *ziggurat* or terrace temple, the oldest known example being the *ziggurat* of Urnammu of the 3d dynasty of Ur (ca.2800

BC), this design culminating in the ‘Tower of Babel’, the ziggurat of the wicked king Nimrod, ‘the mighty one’ (Gen.10:8, 11:1-9, ca. 2000 BC) (1). *This unfinished building indeed was left behind, so ruined by God’s judgment of the ‘confusion of tongues’* (Gen.11:1-9). To our firm perception the monument made of natural stone then has to be identified with no other building than the Great Pyramid - known by the ancients as the ‘Pillar of Enoch’ - also because in Mesopotamia the building of large monuments of natural stone was not usual due to the lack of quarries.

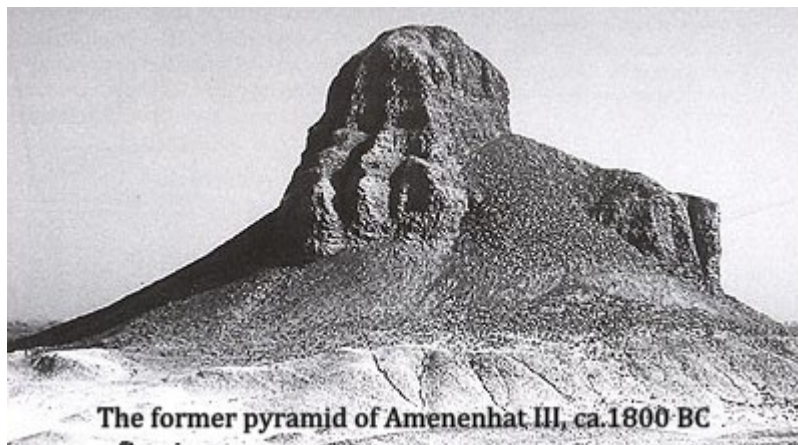

Noah the Builder - Though not being Egyptians, and no ‘Jews’ or ‘Arabians’ either - these descending from Abraham who was born some 600 years after the Pyramid-building and in his turn descended from Noah - these patriarchs were convinced that their blueprint of the ‘pillar of natural stone’ had to be materialised in Egypt, on the Giza Plateau, as only there the ancients believed the ‘Proto-Hill of Creation’ was situated, right “in the midst of the Earth” as the prophet Isaiah says in Is.19:24. And indeed, archaeologists have discovered already long ago that the Great Pyramid has been built right on top of this hillock. So one of those patriarchs, most probably the devout Noah, who “was just and perfect and walked with God” (Genesis 6:9) and his companions – because of existing chronological information that the Pyramids of Giza were built in his lifetime, 300 years before the biblical Flood (see later) – by order of God The Most High went for Egypt to actually build the Great Pyramid. He would do so in consultation with the then reigning pharaoh’s Snefru and Khufu respectively; these kings mobilising tens of thousands of labourers and expert stonemasons, as well as priest-astronomers from nearby Heliopolis (in the Bible called ‘On’ from the Egyptian word ‘Innu’, meaning ‘pillar’) for the project. Under Snefru as a try-out and to build up experience, at first three ‘experimental’ pyramids were built at Meidum and Dahshur, of which only the third, the ‘Red Pyramid’, also called ‘the first real pyramid’ with straight, sloping sides, was a success (this then may be the reason why Snefru built no less than three pyramids, so clearly not as his ‘tomb’). Their design was probably based on the step-pyramid of pharaoh Zoser of the third dynasty at Saqqara, as designed by the king’s brilliant architect Imhotep and

the oldest pyramid in Egypt. The step-pyramid itself was developed from the mastaba tomb and essentially a building of six stacked and huge mastaba's, thus much resembling the ziggurats of Mesopotamia. Following the success of the Red Pyramid, they were ready for the real test – the building of the Great Pyramid, the oldest and last remaining of the 'seven wonders of the ancient world'. Next Giza's two other large pyramids were built, most probably also under the supervision of Noah and his assis-

tants. After their completion he and his companions according to Judaic and Arabian traditions left for Canaan to found the city of Salem, the city of the priest-king *Melchizedek* (Hebr. the 'Just King', Genesis 14:18), the later Jerusalem, who lived in Abram's time, and who according to the apocryphal 'Book of Jasher' (Hebr. 'The Upright', Joshua 10:13, 2Sam.1:18) and various Midrashim and Targumim was none other than Noah's devout eldest son *Shem*, who lived 600 years to even see his eleventh generation descendant *Jacob* (2). The reign of Snefru marked the transition from the third to the fourth dynasty, during which the Pyramids of Giza were built. From the fifth and sixth dynasties, up to the twelfth also many smaller pyramids were built, which completely lacked the supreme quality of the Giza pyramids, even the much lesser quality of those of the third dynasty, so could not withstand the ravages of time and nowadays are not much more than heaps of rubble or even have totally disappeared. In other words, with Noah and his companions their expertise also left Egypt. While the Egyptians were supreme builders of temples, it seems they simply were not able to build supreme qua-

lity pyramids, *except those of Giza. That's extremely curious!* This has led the British author Graham Hancock to state that the pyramids of the third dynasty were like T-Fords, those of the fourth dynasty like Porches and those of the fifth and next dynasties like bicycles... This statement supports the idea that the Great Pyramid as a geometrical construction is not of Egyptian but of Adamic origin and with that of divine origin. When Noah was almost 600 years old (Gen.7:6,11) and after having supervised the construction of the largest buildings the world had ever seen, he built the Ark, the largest ship the world had ever seen. He became 950 (Gen.9:29); no mortal on earth by far ever since reached the lifetimes of the Adamic patriarchs. Their extreme longevity must have been the positive after-effect of the powerful genes of Adam and Eve feeding from the 'Tree of Life' (Gen.2:9) when still in their state of innocence. Therefore these patriarchs may be considered as "demigods" in the positive sense of the word, possibly with a higher God-given intelligence than ordinary mortals as later also king Solomon and the prophet Daniel, 1Kings 4:29, Daniel 1:17. Because of their longevity, they as astronomers were able to observe the 48 constellations of the Zodiac (3) - called by Enoch "the Heavenly Tablets" (First Book of Enoch) - literally for centuries in a row and thus gathered an enormous cumulative amount of astronomical knowledge, among which the most important phenomenon: that of the 'precession of the equinoxes' (see chapter 2). Thus they at one point were divinely led to purposely design and construct the world's most advanced, incredible and amazing astronomical building – the Great Pyramid – as containing a Messianic message. So should the Bible refrain from speaking of it? Certainly not!

Therefore it is of the utmost importance to perceive that, contrary to scholarly thinking, the Bible at many places, both in the Old- and New Testament, speaks about the Great Pyramid as of divine origin with the words 'corner stone', 'test stone', 'great mountain', 'dwelling', 'house', 'tabernacle', 'temple', 'altar', 'sanctuary', 'sign' and 'pillar'. But only in a concealed way, as God shall never "cast His pearls before the swine", Matt.7:6, so that "only the wise (Hebr. 'maskilim', Greek: μάγοι – 'magoi') shall understand", Daniel 12:10, Matth.2:2, and it is "the glory of God to conceal a matter", Proverbs 25:2.

It is regrettable that many scholars in their books and articles almost completely neglect this, either by believing the Bible has nothing to do with it, or is regarded as 'historically unreliable', though we shall demonstrate the opposite. Because when perceiving this, many enigmas about the Great Pyramid would cease to persist as indeed one may come to the conclusion that the Bible gives the ultimate answers.

(1) The image shows how the 'Tower of Babel', or 'E-temen-an-ki' - 'House of the Foundation of Heaven and Earth' - might have looked like if it could have been finished. Of this tower Gen.11:4 reads – “whose top may reach unto heaven” or “whose top (is) in the heavens”. The Hebrew here has “and its top with the heavens”. This simply means that its summit would have had a representation of the Zodiac (like those at Denderah and Esnah in Egypt), as depicted by the celestial sphere visible in this picture. It doesn't mean the Tower of Babel would have become as high as the New York skyscrapers or the 'Burj Khalifa' in Dubai (828.9 m), the modern 'towers of Babel'.

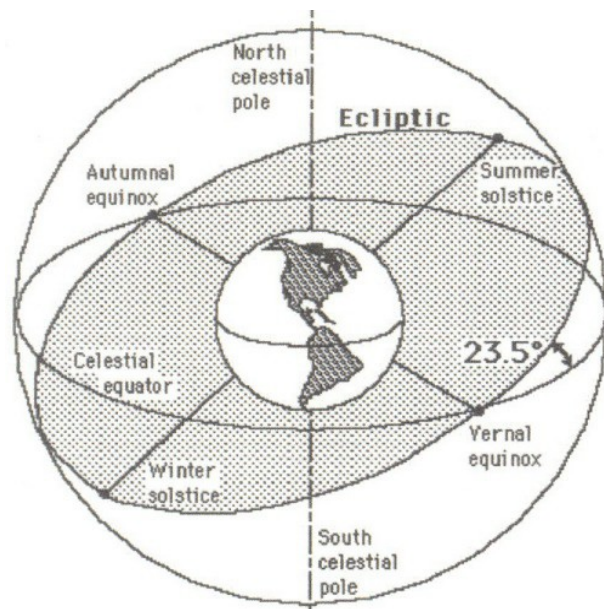

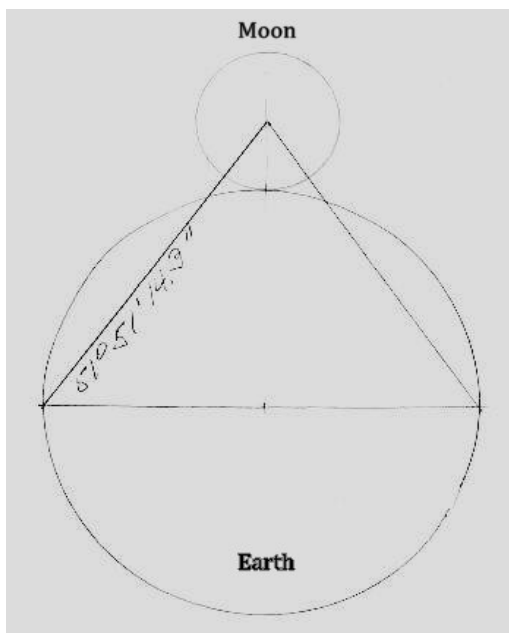

(2) The Book of Jasher states that Abram as a young boy was living in the house of Noah and Shem, they daily teaching him about the things of God, including sacred astronomy, while his father Terah was an adviser at the court of Nimrod. This wicked king seeking the death of Abram after Nimrod's astrologers had told him, they from frightening signs in the sky in the night that Abram was born, had concluded he would become a devout and powerful man of God, and as such would be a threat to Nimrod. This book also tells that it has been Esau who from an ambush had killed Nimrod by decapitating him with his sword...Nimrod was a grandson of Canaan, who was cursed by his grandfather Noah because of what we read in Gen.9:20-27. From this and later in the O.T. we know that also Canaan's descendants (like the Canaanites) were cursed people, including Nimrod, and he must surely have known that; one of the reasons he was such a hater of God. Moreover, in Gen.12:3 we read Yahweh speaking to Abram - "...I will curse him who curses you", God obviously having in mind Nimrod, as he by seeking his death had cursed Abram. More about Nimrod in chapters 3 and 10.

(3) Each of the 12 main constellations in the Zodiac has 3 sub-constellations or 'decans', making 48 in total, as follows - 1. VIRGO, The Virgin - Coma, The Desired Son; Centaurus, The Centaur; Bo-otes,

The Coming One. 2. LIBRA, The Scales - Crux, The Cross; Victima, The Victim; Corona, The Crown. 3. SCORPIO, The Scorpion - Serpens, The Serpent; Ophiuchus, The Serpent Holder; Hercules, The Mighty One. 4. SAGITTARIUS, The Archer - Lyra, The Harp; Ara, The Altar; Draco, The Dragon (cast down). 5. CAPRICORNUS, The Goat - Sagitta, The Arrow; Aquila, The Eagle; Delphinus, The Dolphin. 6. AQUARIUS, The Waterbearer - Piscis Australis, The Southern Fish; Pegasus, The Winged Horse; Cygnus, The Swan. 7. PISCES, The Fishes - The Band; Andromeda, The Chained Woman; Cepheus, The Crowned King. 8. ARIES, The Ram - Cassiopeia, The Enthroned Woman; Cetus, The Sea Monster; Perseus, The Breaker. 9. TAURUS, The Bull - Orion, The Glorious One; Eridanus, The River; Auriga, The Sheperd. 10. GEMINI, The Twins - Lepus, The Enemy; Canis Major, The Dog (Sirius); Canis Minor, The Second Dog (Procyon). 11. CANCER, The Crab - Ursa Minor, The Little Bear (= The Little Sheepfold); Ursa Major, The Great Bear (= The Great Sheepfold); Argo, The Ship. 12. LEO, The Lion - Hydra, The Sea Serpent; Crater, The Cup; Corvus, The Raven.

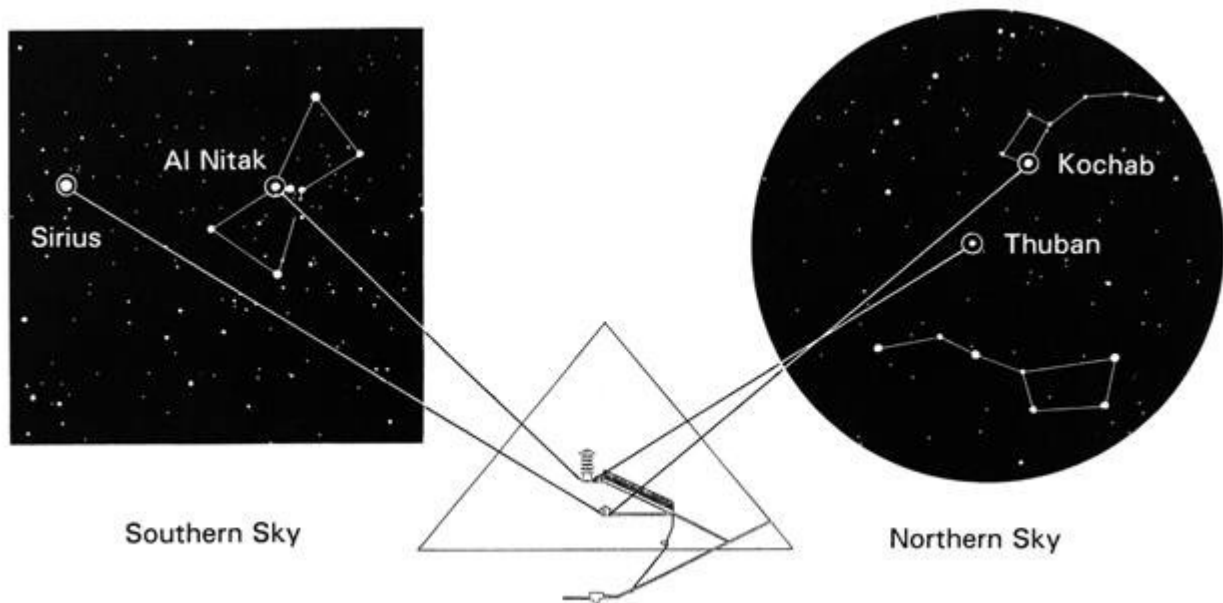

2. GIZA AND THE COSMOS

In the course of some 200 years mostly British and French scientists gradually discovered that the Great Pyramid, among others, appeared to be the scale model of the exact measurements of the Earth at a scale of 1:43,200. This led us to hit on the idea that this monument is also ‘*the corner stone of the Earth*’ as described in chapter 38, verse 6 of the Book of Job, just as a pyramid’s capstone is the scale model of that pyramid. As known it has been built according to the immeasurable number of Pi = 3.14159..., being the proportion to the circumference of a circle and its diameter. When multiplying the original height and base perimeter of the Great Pyramid with 43,200, we find the exact measurements of the Earth – her circumference at the Equator and half the length of her polar axis (is 2Pi) in ‘*sacred Hebrew cubits*’ (see later in chapt.3 and 5). So the ancient Adamic patriarchs, who apart from being astronomers, architects and physicians, as priest-kings and prophets of God The Most High, as well as the godly patriarch Job, were acquainted with higher mathematics and the exact measurements of the Earth, unlike other civilisations, including the Egyptians. Many scholars have stated that the Egyptians - at least before building the Great Pyramid - did not know the number of Pi, while more than 2000 years later Archimedes did, but less exact ($22/7$ or 3.14285..) than the Pyramid-Pi. Also, when drawing with a compass a circle, with its diameter depicting the Earth equator, and from its ends drawing two lines with angles of 51 degrees, 51’ and 14.3” (the angles of the Pyramid’s slopes) intersecting each other above the circle, you get a triangle in the exact shape of the Great Pyramid. Next, when drawing from its apex a small circle touching the big circle, then this small circle exactly depicts the size of the Moon in proportion to the Earth...This tallies only with the angles mentioned. How did the architect know this and how could he accomplish this? Therefore, through the millennia this knowledge has only been preserved in the Great Pyramid, as ‘outside’ this monument it was not known, or had got lost and had to be re-invented. An additional example of this knowledge is the fact that its design is wholly based on what astronomers call the ‘precession of the equinoxes’. This requires further explanation –

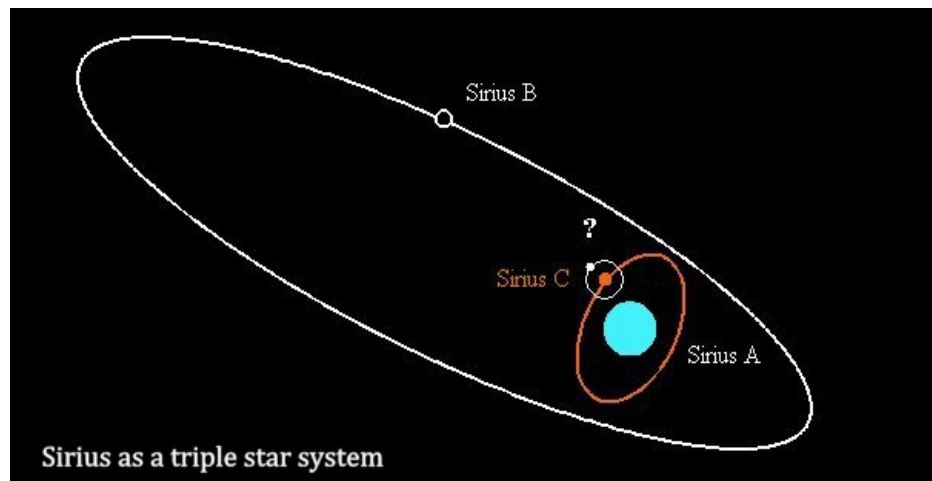

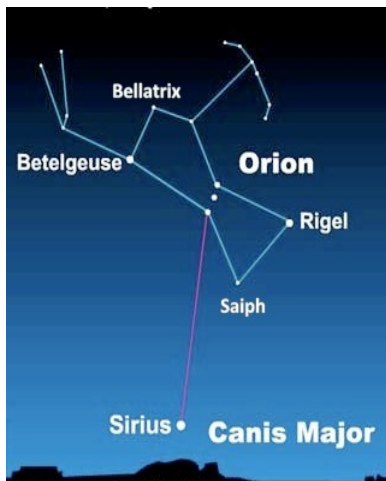

ending line or a descending line. During almost 13,000 years – half a precession-cycle or half a ‘great cosmic year’ - they have been in an ascending path and since the end-date of the Mayan calendar of 21 December 2012 they have arrived at their highest positions in the sky since 26,000 years – the so-called ‘upper culmination points’. This is comparable to the sun’s highest position, its zenith, midsummer (the summer solstice) due south at noon. So it appears that in ‘Messianic astronomy’ also, ‘midsummer’ for the first time in almost 26,000 years is imminent. As the described phenomena are God’s ordinances in the heavens (Psalm 19 and Psalm 148:3-6), the Messiah has said that then “*the summer is nigh*”, namely the ‘summer’ of His Messianic Kingdom on earth, Matth.24:32-34, Mark 13:28-31, Luke 21:29-32. Then it also turns out that the ‘astronomical summer’ of the ‘great cosmic year’ coincides with the astronomical era of Aquarius, as well as what the Bible calls the ‘Day of the Lord’, with which God’s judgments of mankind at the end of this age (world order), including the next age of His Messianic Kingdom on earth is meant, Psalm 2 (1). Moreover, it turns out that this era also coincides with the seventh month – or ‘*sabbatical month*’ - of 2160 years of the ‘great cosmic year’ of 12×2160 years = 25,920 or almost 26,000 years (see below). So the time-span of the precession-cycle that started in 10,960 BC, as the constellations then were in their ‘lower (lowest) culmination points’, or the ‘midwinter time’ of that cosmic year. It then happens that the astronomical ‘summer’ of the great cosmic year will coincide in time with both the Age of Aquarius and the ‘Day of the Lord’, the Messianic Kingdom, as a ‘trinity of Time’. In mankind’s most ancient religious writings – the Egyptian Pyramid Texts - the prehistoric era of about 11,000 BC is called ‘the glorious time of *Zep Tepi*’ or ‘*The First Time*’ of Osiris, Seth, Horus, Isis and Nephthys, the first anthropomorphic godheads of the Egyptian pantheon, who were believed to have ruled over Egypt in that era.

Celestial Kingdoms - We can count down that seventh or ‘sabbatical month’ along the signs of the Zodiac - *Zep Tepi* was the age of the constellation of Leo, which means that in that era – as Robert

Bauval and Graham Hancock have explained in ‘Keeper of Genesis’ - the sun at the vernal (spring) equinox due East was rising above the horizon in the constellation of Leo. This is the very reason why the Great Sphinx has the body of a lioness (it is not a male but a female, or at least a hybrid, see later in chapt.11), because while always looking due East, she saw her male cosmic counterpart rising above

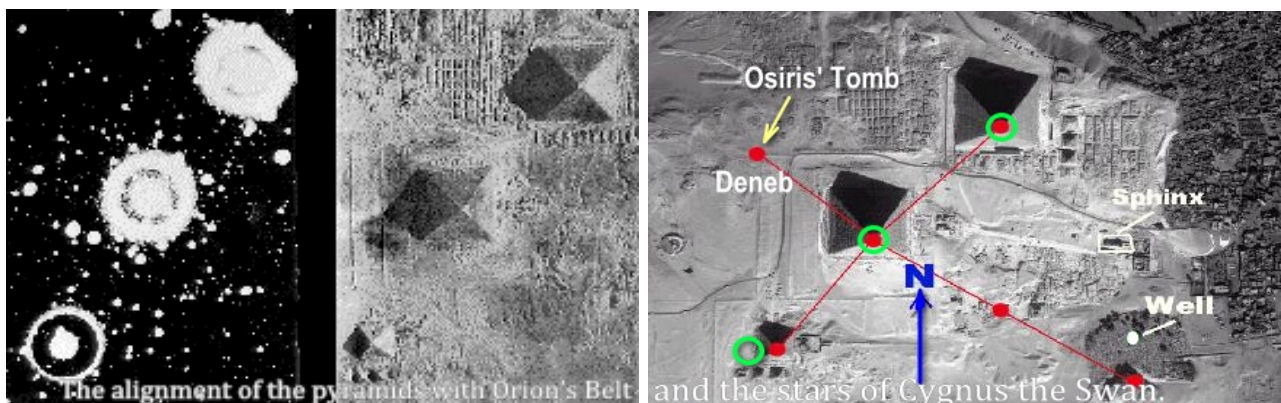

the horizon in that era (yes, she by several scholars is considered *that* old!). In other words, she as the goddess Isis at dawn was directly sighting her divine husband Ra-Osiris, the Sun-in-Leo, 'resurrecting' from his nocturnal sleep of 'death'... Following the age of Leo was the era of Cancer, then Gemini, then Taurus (the era of the Adamic patriarchs and the Old Kingdom, in which also the Pyramid era), then Aries (the times of the people of Israel), then Pisces (the era of Christendom) and since recently Aquarius. In years: 10,960 BC – 8800 BC – 6640 BC – 4480 BC – 2320 BC – 160 BC – 2001 AD. Thus each period encompasses a precessional 'month' of 2160 years. So Aquarius is the era we now have arrived at, the seventh or 'sabbatical month' of the great cosmic year. It means that, God permit, in the forthcoming 2160 years the sun at the vernal equinox will rise above the horizon in the constellation of Aquarius. Therefore nowadays, almost 13000 years later, we are living in the '*The Last Time*', that what the Bible calls "*the time of the end*" (Daniel 11:35,40; 12:4,9), also because the constellations for the first time in 26,000 years are in their upper culmination points. During this ascending cycle of the stars, the Great Pyramid in the Pyramid era via her two southern star shafts for about 200 years was exactly aligned with Orion and Sirius, the brightest constellation and the brightest star in the sky (2). For the Egyptians, Sirius and Orion's Belt were the most important stars of '*the celestial Duat*', the cosmic kingdom of Osiris, and for the Adamic patriarchs the most important stars of Messianic astronomy, the celestial kingdom of the Messiah. Orion – this name meaning 'He who comes forth as Light' - by the Egyptians was identified with Osiris, just as Sirius was identified with (the womb of) Isis and with that also with their son Horus, which name also means 'He comes forth as Light' (from the Egyptian 'Hor' and the Hebrew 'Or' is 'Light'). So in Messianic astronomy Orion is the coming Messiah – '*He Who comes forth as Light*' - just like Osiris was the Egyptian 'messiah-god', who brought civilisation to the Nile valley and was killed by his brother Seth – the god of Evil and Chaos - in the apparition of the serpent Apep. Compare the biblical Satan, also called 'the Serpent', the great

adversary of the Messiah (and of mankind as well), the latter as "the Lion of the tribe of Judah who hath prevailed" (Rev.5:5) being identified with Leo. In the Zodiac of Denderah we see the Lion trampling on the snake, his muzzle directly above the snake's head, ready to crush it. This is in analogy with the Messiah-promise of Gen.3:15, where God is directly speaking to Satan – "It (Eve's Seed, the Messiah) shall bruise (Hebrew: 'saiph') thy head and thou shalt bruise ('saiph') His heel". Note that the word 'saiph' is the very name of one of Orion's stars, the star nearest to Sirius and situated at his right

heel. But that is history, having occurred at Golgotha. The time is now quickly approaching that He in 'the brightness (Gr. ἐπιφανεῖα – epiphany, the shining) of His Coming', 2Thess.2:8, will crush His enemies under His feet, as depicted by the meaning of the name 'Rigel', the star in Orion's left foot - 'the foot that crushes'. Apart from the stars of his Belt, Saiph and Rigel, the Orion figure comprises the bright stars Betelgeuse and Bellatrix in his shoulders, respectively meaning 'the coming of the Branch' (see chapter 11) and 'quickly coming' or 'swiftly destroying', as well as the Orion Nebula below the stars of his Belt, thus forming the brightest constellation in the sky. All this settles Orion as depicting the Messiah and nobody else, in His coming Glory, judgment and wrath, destroying the Antichrist and the wicked in His attacking posture. As Orion is situated straight above the earth's equator, practically the whole of mankind is able to watch it in the sky every (winter) night, but how few of them are aware of that, are doing that or care about it? And how few of them know its glorious biblical significance?

Likewise, Sirius (meaning *Prince, Sovereign*), the bright Morning Star (Revelation 22:16, in the Bible and Messianic astronomy Sirius is the morning star and not Venus, see chapt.9) is identified with the Messiah and His two brides: His heavenly bride (Rev.21:2,9; 22:17) and His earthly bride Israel as described in the Song of Solomon (Hebr. 'Shir Hashsherim') (3), because Sirius as the brightest star (magnitude minus 1.5) is a triple star and relatively very close to the earth (8.7 light years). Sirius Beta and Gamma (the brides) are turning around their husband Sirius Alpha (the Messiah). Of all this, the Giza Plateau is the terrestrial reflection, the terrestrial Duat. This the more so, as its three pyramids in their relative position to each other - Robert Bauval and Adrian Gilbert have explained in 'The Orion Mystery' - are a copy, a replica of the three stars of Orion's Belt - *Al Nitak* (Arabic for 'The Wounded One', the Messiah), represented by the Great Pyramid of Khufu, *Al Nilam* ('The Middle One'), represented by the second Pyramid of Khafra, and *Mintaka* (Arabic for 'to divide' as is done with a sacrifice), represented by the third Pyramid of Menkau-ra. This pyramid standing somewhat offset as to the other two, just as *Mintaka* is situated offset as to its companion stars. Also in their dimensions and appearance these pyramids are a reflection of the brightness in magnitudes of these three stars (1.7, 1.8 and 2.5 respectively). In the sky Orion's Belt is situated at the western 'banks' of the Galaxy or Milky Way, viewed by the ancient Egyptians as the 'heavenly Nile', just as the Pyramids are situated at the western banks of the terrestrial Nile. This corresponds with the dualistic world view of the Egyptians, they believing their country was a projection of the starry sky and especially the celestial Duat, in accordance with the Hermetic principle of 'as above, so below', as Hermes (Thoth) says to Asclepius (Imhotep) - "Don't you know that Egypt is an image of the heavens? Or, to put it more properly: That in Egypt all workings of the forces ruling the heavens have been transferred to the earth below?" (4).

Via the astronomical computer program 'Skyglobe' Bauval also discovered that the Giza Plateau, due to precession, reflects the celestial Duat as it appeared in the sky *only in the time of Zep Tepi*, so in the Age of Leo at the start of the current precession-cycle, when at the southern horizon the terrestrial Nile smoothly blended with the 'celestial Nile', the Milky Way...

Cygnus the Swan - In 2008, the researcher Andrew Collins discovered that the Giza pyramids align with the stars of Orion's Belt not exactly, but that it is Cygnus (the Swan) of which the three stars in its wings and centre-body precisely match the Giza pattern. These stars are Cygnus Delta (depicting the Great Pyramid), Sadr (or Cygnus Gamma in the centre-body, depicting the central pyramid of Khafra) and Gienah (Cygnus Epsilon, depicting the pyramid of Menkau-ra). So it was not only to the stars of Orion's Belt that the builders had intended to align the pyramids, also to those of Cygnus. In Messianic astronomy however this does not make any difference as also Cygnus – as part of the constellation of Aquarius, together with the winged horse Pegasus (from Hebrew 'Peka' - '*the Chief*' and 'sus' - '*horse*', so 'the Chief riding the horse') - is typifying the Messiah, Rev.19:11 – “Now I saw heaven opened, and behold, a white horse. And He who sat on him was called Faithful and True, and in righteousness He judges and makes war”. The name of the central star *Sadr* in Hebrew means '*Who returns as in a circle*', namely the circle or 'Cycle of the Phoenix' (see later in chapters 4, 7 and 9). The star in the Swan's beak, Cygnus Beta, is Al Bireo, Arabic for '*he who flies swiftly*'. The brightest star in Cygnus, between its body and its tail, is Cygnus Alpha, also called 'Deneb', meaning '*The Judge*', so again the Messiah, Who will judge the earth in righteousness. While flying swiftly, Cygnus is not so much a bird of the air, as well of the earth and the waters, hence it is a sub-constellation in the constellation of Aquarius, its biblical significance being that of 'the Blessor, the Messiah, surely returning quickly' (Rev.22:20), writes Dr. Bullinger in 'Witness of the Stars'.

Now Deneb as the brightest star in Cygnus, at Giza is seemingly pointing to nowhere than the desert sand some 200 meters behind the central pyramid. However, it turned out to be the very place of which the well-known Egyptian Secretary of Antiquities, Dr. Zahi Hawass, had claimed in 2010, he deep under the sand had discovered and excavated the '*Tomb of Osiris*'. He found a sarcophagus, but it was empty he said, yet persisting it *was* the Tomb of Osiris. Photos indeed show an empty coffer, but why an *empty* coffer in a tomb? Some scholars and researchers say it *may* have contained the mummified body of Osiris, pinpointed by the star Deneb, the Judge, as Osiris was widely known and revered as the judge of the dead in afterlife. Due to this secrecy of not revealing what possibly is the truth, they say the body may have been that of an extra-terrestrial from Cygnus. In this star system NASA's Kepler space-telescope, launched on March 7, 2009, in some 3.5 years has discovered with pin-point laser accuracy no less than 1235 'exo-planets', of which 50 were habitable planets. So did Osiris come from there? The Egyptians had always recognized him and his wife Isis as supernatural beings, so as gods. For that matter, more mummies of 'aliens' have been discovered in Egypt (5).

It is clear then that in Messianic astronomy Orion as well as Sirius, Leo, Cygnus and Pegasus represent the Messiah and His brides in their forthcoming glory in the Last Time, just as they did with Osiris and his bride in the First Time. Of this the Plateau of Giza is the tangible portrayal, even today as an intact ruin, how much the more so as these pyramids and the Sphinx were in ancient times. Because Enoch (6) (see later in chapt.4 and 9; in scholarship identified with Thoth/Imhotep), who also “walked with God” (Gen.5:22,24), their divinely inspired architect and Noah's great-grandfather, has intentionally

and conscientiously laid down this in his design plan already some 5000 years ago. Therefore, the Great Pyramid as an astronomical building in optima forma, of which no second example is in existence on earth, is also *'the prophetic instrument of Chronology'*.

(1) The Day of the Lord (Greek: ἡ ἡμέρα τοῦ κυρίου - 'hei heimera tou kuriou', 2Thess.2:2; τῆ κυριακῆ ἡμέρᾳ - 'tei kuriakei heimera', 'the Lord's Day', Rev.1:10) will begin with God's judgments of mankind and the earth as described in the Book of Revelation, as well as in many passages in the books of Israel's prophets. It is the 70th, still future week of 7 years of Daniel's "70 sevens" (Hebr. 'shebua', 9:27), which will end and culminate in the Second Coming of the Messiah. From then on, the Day of the Lord will continue through the whole of the Millennial Kingdom and beyond, as it is the opposite of what the apostle Paul in the basic text calls *'man's day'* (ἄνθρωπίνης ἡμέρας - 'anthroopineis heimeras'), 1Cor.4:3, the *'day'* of the past 1950 years or so in which man is speaking and judging and God is silent. But from Daniel's 70th week on and through the whole of His Messianic Kingdom, God the Son will speak and judge, even roar as a lion (Jer.25:30, Joel 3:16, Amos 1:2, Rev.10:3) and will man be silent (hallelujah!). Hence it is called the 'Day of the Lord', as to Him 1 day is 1000 years (2Pet.3:8) and even longer, as 2Pet.3:18 in the basic text speaks about *'the day of the age'* - εἰς ἡμέραν αἰῶνος - 'eis heimeran aioonos': *'into the day of the (coming) world order'* - which will last longer than 1000 years. It is the day of which Jesus says - "and in the world (age - aionos) to come eternal life" (ζωὴ αἰώνιος - 'zoei aionios', Mark 10:30, John 3:16), i.e. the life lived on earth and in heaven during that age.

(2) During the same time period the Pyramid's two northern star shafts were aligned with the star *'Kochab'* (Hebrew for *'waiting'*, namely *'for Him who comes'*, i.e. the Messiah), the brightest star in Ursa Minor, The Little Bear (i.e. The Little Sheepfold = the House of Judah), and Alpha Draconis respectively, the then Polestar, the brightest star in the circumpolar constellation of Draco, the Dragon. With whom by the ancients the Serpent was meant. The Hebrew name for Alpha Draconis is *'Thuban'*, meaning *'the sneaky one'*, the Serpent, the Devil.

(3) These two brides are the spiritual and physical descendants of Abraham, the father of all who believe, circumcised or not, Rom.4:11-13. The heavenly bride are Abraham's descendants as multiple as *"the stars of the heavens"*, Gen.22:17 - the bride with a heavenly calling - the *"heirs of the cosmos"*, Rom.4:13, of whom Dan.12:3 says that they *"shall shine like the stars forever and ever"* (Hebr. 'le-olam

va ed' - 'the age and still longer'). The earthly bride with an earthly calling, are Abraham's descendants, both physical and spiritual, as multiple as "the sand of the seashore", Gen.22:17, the heirs and future rulers of planet Earth - the born-again people of Israel of the Messianic Kingdom, Hebr.11:12.

(4) Citation from the Hermetic Texts of Thoth, the Corpus Hermeticum, in Egypt translated into Greek and Coptic in the second century AD, its leading character being Hermes Trismegistus, the Triple Great One as identified with Thoth, the Egyptian god of wisdom.

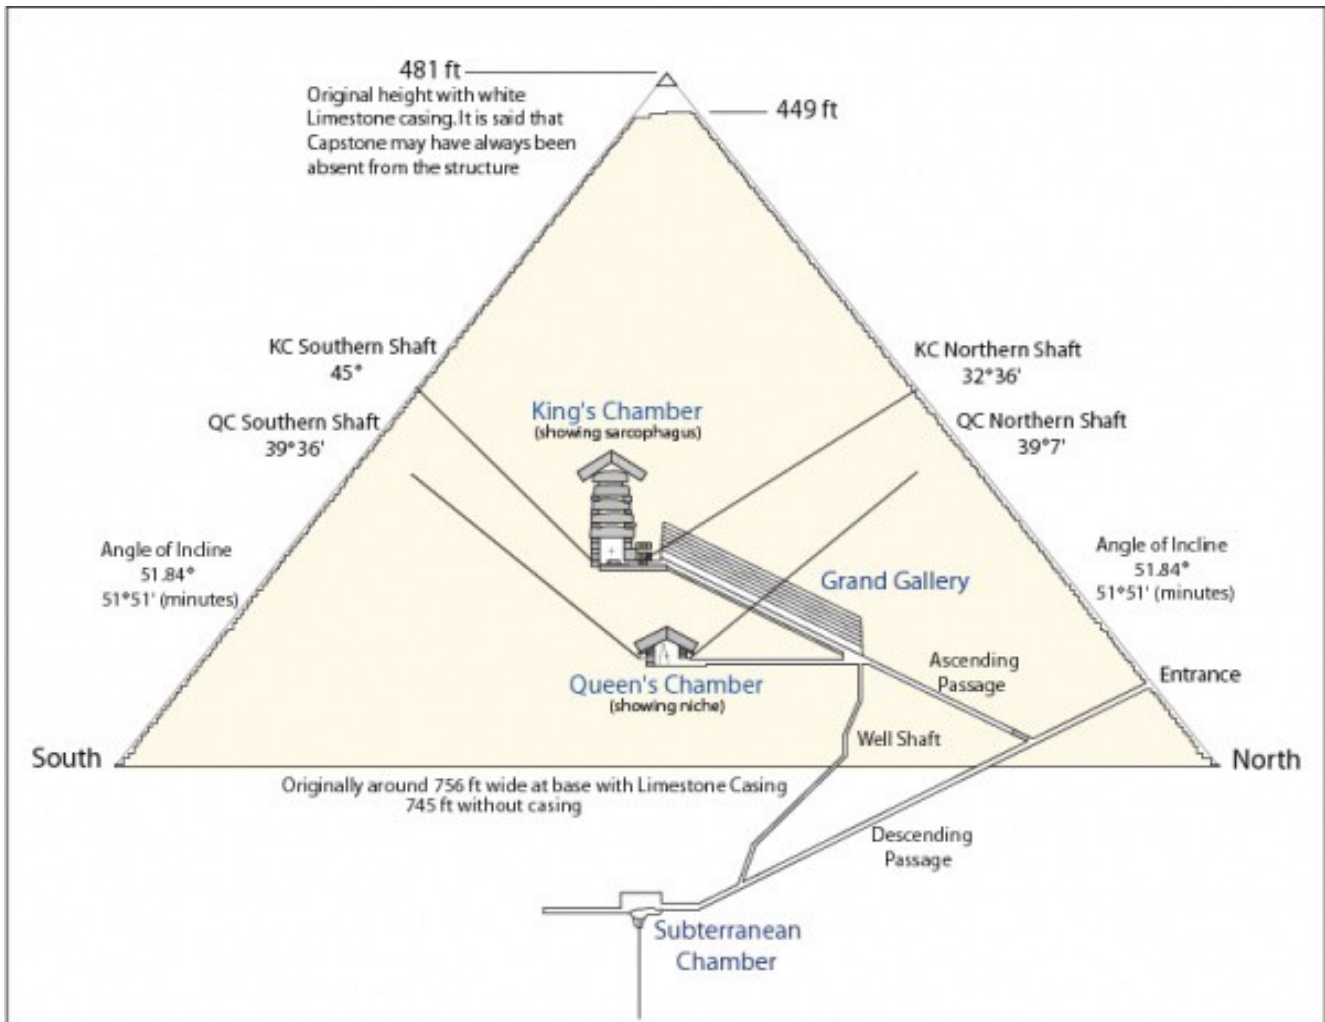

(5) The Tomb of Osiris story is by Kevin Smith at <http://ufodigest.com/article/what-does-nasa-know> , last accessed December 3, 2013.

(6) In Genesis two different 'Enoch's' are mentioned, an 'Enoch' of the line of Cain, his first son, after whom Cain had mentioned a city he had founded, Gen.4:17, and the 'Enoch' (meaning 'initiate' or 'teacher') of the line of Adam's devout son Seth, Gen.5:18-24. It is imperative to discern well between these two lineages - the evil line of Cain and the godly line of Seth, whose descendant Enoch did not see death "for God took him", Gen.5:24, and after whom the 'Ethiopian First Book of Enoch' is named, which quite rightly is included in the canon of the Bible of the Coptic Church. The early Christians considered the Enoch of the line of Seth as one of the greatest prophets of God, as two apostles, Peter and Jude, in their epistles quoted from the 1st Book of Enoch - 2Pet.2:4 (free quote), Jude vs.6 and vs.14-15 (literal quote from 1Enoch 1:9 or 2:1, depending on the translation). It was widely known and read during the first three centuries AD, most certainly also by the Lord Himself, but became discredited at the Council of Laodicea in 364 AD, having been banned by the church authorities, undoubtedly of what is written about the 'fallen Watchers', the 'sons of God' and the Nephilim of Genesis 6. As truly apocalyptic literature it went into oblivion for more than 1400 years, until in 1773 the Scottish traveller James Bruce in Ethiopia was handed 3 complete copies of the Book in the old Ge'ez (Ethiopic) liturgical language by clergymen of the Orthodox Tewahedo Church. In 1821, Professor of Hebrew Dr. Richard Laurence, published the first English version and in 1912 Dr. R.H. Charles published his famous English translation of the Book. Originally compiled in Aramaic long before the Christian era (as found in fragments in 1947 in Qumran Cave 4), it writes about the 'Son of Man', 'the Messiah' and 'the Coming One' as Enoch had beheld Him preincarnate in Heaven...Therefore it must have been God's guidance in all this, that it could be read and studied again by godly people of this current last generation before His Second Coming. Just as it reads in Daniel 12:9,10, the angel saying to him – "Go your way, Daniel, for the words are closed up and sealed *till the time of the end*. Many shall be purified, made white and refined; but the wicked shall do wickedly; and none of the wicked shall understand; but the wise (Hebr. 'Maskilim', a proper name) shall understand".

To be noted is that in the 'Book of the Watchers' – the first 36 chapters of the Book of Enoch - not all of the 'Watcher angels' with whom Enoch communicated were the fallen 'sons of God' who had sinned (Gen.6:1-4), as several of the angels talking with him were *holy Watchers* (Hebr. 'kodesh irin'). These are the God-ordained guardians of planet Earth, watching over the affairs of men. In the Bible, only in Daniel chapter 4:13,17 and 23 is talk of holy Watchers – "I saw in the visions of my head while on my bed, and there was a watcher (Chaldee 'ir'), a holy one ('kodesh'), coming down from heaven"...Verse 17 - "This decision is by the decree of the watchers ('irin'), and the sentence by the word of the holy ones ('kodeshim')"...Verse 23 – "And whereas the king (Nebuchadnezzar) saw a watcher ('ir'), a holy one ('kodesh'), coming down from heaven..."

3. INSTRUMENT OF CHRONOLOGY

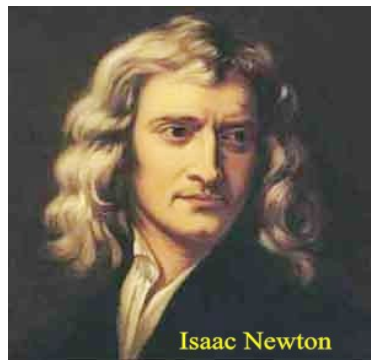

The point where the earth in her orbit around the sun is situated at the start of the astronomical autumn, the autumnal equinox, is not a fixed point. Neither is the point where the earth in her orbit is nearest to the sun – the *perihelion* - a fixed point. Both points are shifting along the earth orbit and they do so in opposite directions. So at one time they will meet each other and converge. In that case ‘the length of the perihelion’ will be $P = 0$. This occurred at the exact astronomical point in time of *the autumnal equinox of the year 4044 BC*. This year therefore is ‘*the scientific starting point of the astronomical time scale*’ of the Great Pyramid. Since then both points have distanced themselves from each other all the time and from 4044 BC it will last about 21,000 years before they will converge again. The exact angles of incline of the Great Pyramid’s walls are 51 degrees, 51 minutes and 14.3 seconds. So the sum of this is 103 degrees, 42 minutes and 28.6 seconds. This will be the length of the perihelion, as expressed in arc measure, at the exact astronomical point in time of *the autumnal equinox of the year 2045 AD*.

That year therefore is ‘*the scientific terminal point*’ of the Pyramid’s astronomical time scale. So the total length of this scale is 6088 years (the exact figure being 6087.94; in chronology the ‘year 0’ is not counted). The amazing thing is that the sum of the angles of inclination of the Pyramid’s sides in vertical cross-section through its apex (with an angle of 76 degrees, 17 minutes and 31.4 seconds) is

such that it precisely equals the exact astronomical point in time of the equinox, and not one or another random point of time in that year or any other year. Remarkable also is that the Lists of Kings of the Egyptian priest Manetho (third century BC) give the same number of years for the duration of the reigns of all Egyptian pharaoh's, among which supposedly many pre-dynastic or even prehistoric rulers.

Isaac Newton and Piazzi Smyth - In the Pyramid's astronomical time scale its '*historical time scale*' is contained, which is geometrically defined by way of the continuous, perfectly straight grooves the builders have carved in the walls of the internal corridor system. The unit of measure of both scales is expressed in so-called 'pyramid-inches' in such a way that 1 P-inch equals 1 solar year of 365,24246496 days, so accurate to seconds! By Egyptologists and others this P-inch has always been considered as 'mystical' and 'wanting', but it is this very unit of measure with which the dimensions of the Great Pyramid have been calculated by nobody less than Sir Isaac Newton (1642-1727), as confirmed on the spot in 1865 by the Scottish Astronomer Royal Prof. Charles Piazzi Smyth, it being

Isaac Newton

Prof. Piazzi Smyth

exactly the 25th part of Newton's biblical sacred (Hebrew) cubit (see later in chapt.5, 7, 9 and 10). The Pyramid-builders used the Egyptian 'royal cubit' of 52.4 cm (which, for that matter, was derived from the Adamic-Semitic 'common cubit'), but in such a way that the Great Pyramid would be the scale model of the Earth *in sacred Hebrew cubits*, which unit-measure is 11.2 centimetres longer (see later in chapt.5). Then it turns out both geometrically and astronomically that the starting point of the history of the Adamic patriarchs of the Book of Genesis coincides with *the autumnal equinox of the year 4000 BC*. And that the terminal point of the historical time scale virtually coincides with *the autumnal equinox* – 17 September, which was the last day before *the Jewish New Year* – of the year 2001 AD, or virtually exactly 6000 years, practically coinciding with the beginning of the Age of Aquarius. So we have two overlapping time scales of 6088 and 6000 years respectively, as follows –

autumnal equinox 4044 BC till autumnal equinox 2045 AD = 6088 years,

autumnal equinox 4000 BC till autumnal equinox 2001 AD = 6000 years.

The central year of both time scales is the year 1000 BC. This was according to biblical as well as the Pyramid-chronology the year of the *dedication of the temple of Solomon* (see later in chapt.9), as follows –

4044 BC - 1000 BC - 2045 AD,

4000 BC - 1000 BC - 2001 AD.

The difference between the starting- and terminal points of both time scales of 44 years equals two ti-

mes the duration of building the Great Pyramid, which according to its chronology system lasted from 2644 till 2622 BC. Then it turns out that both to God and in the Pyramid-chronology a year begins and ends at the autumnal equinox, which is in complete accordance with the most ancient (Adamic-Semitic) chronology system, which from the time of the Exodus was altered to begin at the vernal equinox. Likewise, to God and in the Pyramid-chronology as well as the Bible, a day begins and ends at sunset, as for millennia until the present day has been performed in religious Judaic law. That nowadays a year starts at 1 January at midnight is totally arbitrary and has been introduced some 220 years ago by the Masonic/Illuminati French Revolutionists (as also the metric system), being derived from the dual-faced Roman god Janus, the war-god of the Past and the Future. What attracts the attention is the arithmetical symmetry of the scales, a symmetry which appears to be inherent in the perfect symmetry of the building itself. Here in an irrefutable and inimitable way *the historical course of mankind since Adam* (as occurring only once in millions of years in chance reckoning) has been recorded as determined by the Creator of Heaven and Earth.

In this context we would emphasize that Adam was not ‘the first of men’, but the first ‘*real human*’ in the sense that he was the first of men who *knew God, to whom God had directly revealed Himself* and thus as the ‘chosen one’ among the then mankind was ‘transformed’ (Gen.2:7, Hebr. ’jazar’, i.e. giving something already in existence a certain, different ‘form’, as distinguished from ‘bara’, ‘to create’, i.e. bringing forth something completely new, Gen.1:26,27). As the Bible only deals with mankind *since Adam*, these timescales in no way contradict the existence of still earlier lost civilisations of prehistory, of which the downfall may have been caused by the world-wide floods following the melting of the ice caps of the last Ice Age.

The Nephilim - In fact the Bible itself almost begins with the downfall of a civilisation caused by a flood and consequently was completely wiped out (save Noah and his family and with him the P-inch and sacred cubit) – ‘*the Adamic Civilisation*’. Both mentally and biologically as well as technologically this civilisation must have been the most advanced of its time, as evidenced by the Great Pyramid, but was corrupted by an invasion of what scientists and fiction writers would call ‘aliens’ or ‘extra-terrestrial beings’ in ‘close encounters of another kind’, in the Bible called “*the sons of God*” (Hebr. ‘bene ha-Elohim’, Gen.6:1-4) i.e. ‘*fallen angels*’. In ancient Sumerian texts they are referred to as the ‘Anunnaki’, meaning ‘Those who from Heaven to Earth came’ (namely on Mount Hermon), also called ‘The Watchers’ (Hebr. ‘nun resh ayin irin’ – ‘those who watch’ or ‘who are awake’). The 1st Book of Enoch tells us there were 200 of them, the leaders of thousands more, 20 even called by their names (as Azazyel and Shemyaza). They disobediently “left their own habitation” (somewhere in the heavenly places, Jude vs.5) to ‘sexually enjoy human females’, especially the evil daughters of Cain, as they saw they were fair, and have intercourse with them. Their offspring in Gen.6 are called ‘Nephilim’ (from Aramaic ‘naphila’, meaning ‘giant’, says eminent biblical linguist Dr. Michael S. Heiser), the wicked giants of very tall stature (a DNA-defect called ‘gigantism’), “men of renown” (Hebr. ‘gibborim’ – ‘heroes’, many huge human skeletons having been found at many places all over the world). The apostle Jude tells us that these angels went “after strange flesh” (Greek ‘heteros’ – different human flesh as distinguished from similar flesh, Gr. ‘allos’) and thus “gave themselves over to fornication” (vs.7). Both these angels and their sons in ancient texts are described as ‘multi-orgasmic’, the Sumerian texts even talking of ‘50 orgasms in 30 hours continually’. Thus these females soon preferred them to their own consorts, as females by nature are ‘multi-orgasmic’ (though not as extreme as these

supernatural beings were), contrary to males, they experiencing a sexual ‘down-time’, in medical terms known as the ‘male refractory period’ and to which the Nephilim and their angelic fathers apparently were immune. All the kings of Sumer were of the Anunnaki-Nephilim brand, but before they could become king, they had to publicly prove their sexual prowess with a priestess representing the goddess

Watcher with woman and serpent

The Sumerian goddess Inanna

Inanna, the ‘queen of heaven’ and ‘goddess of love’ in a ‘sacred marriage’. Without this ceremony they were not considered fit to rule. Thus, their kingship depended upon their ability to consummate ‘their marriage with the goddess’ not once or twice, but ‘*fifty times in one go*’. By this requirement, all Sumerian kings had to be multi-orgasmic, so were not ordinary males, but Nephilim...In this way the high priestess, acting in place of the goddess, had sex with King Dumuzi to show in plain public that the goddess herself had accepted him as their ruler of the country. Not only did these two have sex fifty times, but the entire congregation had front row seats to these fifty climaxes. The same story goes about Enmerkar, king of Uruk, who relates his personal experience with an ‘entu’ or ‘hierodule’ (the priestess), saying – ‘I lie on Inanna’s splendid bed strewn with pure plants...I accompany Inanna for a journey of *15 double-hours*...Inanna’s powers are prodigious. She is capable of making love through the day and night’...Thus Enmerkar had proved himself ‘worthy of kingship’ by being capable of ‘fully accompanying’ the sexually insatiable Inanna...(1)(2).

Many Nephilim skeletons have been found all over the world

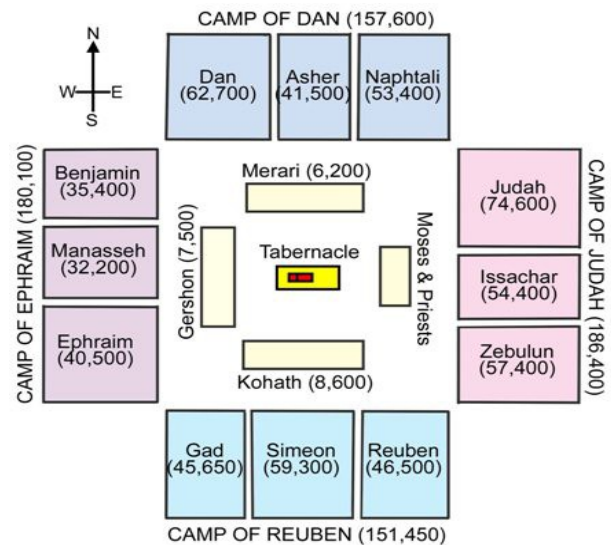

In the Bible angels, fallen or not, are always males, never females, and so were the Anunnaki and Nephilim. These also were and still are ‘shape-shifting reptilians’ as they as the fallen cohorts of Satan, the Serpent, the Dragon, had lost their angelic looks as part of God’s judgment of them: Just as Satan, once God’s anointed Cherub (Ezekiel 28:14,16), has become a reptilian (Gen.3:1,4, serpent; Job 3:8, Draco; Ps.74:13,14, Is.27:1, Leviathan, the sea dragon; Rev.12, 13, 16:13, 20:2, the great Dragon), so have his angels and their offspring. Hence they prefer to look ‘human’, but to be able to look like humans they have to eat human flesh and to drink human blood (First Book of Enoch 7:13,14) in order to hide their reptilian looks (3). This especially is meant when Gen.6:11 says that “the earth was corrupt before God and was filled with violence”, as it is now also and will become all the more so. As zoomorphic beings, angels, good or bad, can shape-shift into any form they want (1Enoch 19:2), and when communicating with humans they prefer to behave and look like humans, Gen.18 – Abraham and the three ‘men’; Gen.19 – Lot and the two angels; Acts 14:11 – “The gods have come down to us in the

likeness of men!”; also Revelation 9 – the angels of the bottomless pit, probably the same Anunnaki ‘Watchers’ of Gen.6 (2Pet.2:4, Jude vs.6), can shape-shift into hideous monsters, whose angelic king in Hebrew is Abaddon and in Greek Apollyon, meaning ‘exterminator’. Anyhow, this satanic corruption of God’s creational and social ordinances on earth had to be stopped by the cataclysm of the Flood, the Deluge, but was made possible by Adam’s own fall (he as the ‘chosen one’ thus may be regarded as ‘the abortive messiah’, because Rom.5:14 says he was "a type of the Coming One", the Messiah).

The Time of the End - The same will happen with the current civilisation, which with respect to the Adamic civilisation is degraded both mentally and biologically, ‘instead of going onwards and upwards’ (John Anthony West). The downfall of the current materialistic-technological civilisation will not happen by a flood, not by water but *by fire*, as according to Josephus we saw Adam already had prophesied and of which the Book of Revelation - as describing still future events - gives in-depth information. Then it indeed turns out that we already live in a late phase of the ‘time of the end’ of the current world order, Dan.11:35, 40, 12:4, 9, and that the ultimate date of the end of the present civilisation will be the year 2045, *but probably sooner* (see below).

For this two additional reasons are to be mentioned. The first is that meanwhile we according to the Pyramid's historical timescale have entered the seventh millennium or 'sabbatical millennium' of Chronology. Thus the coming of a spiritually higher world order - the Messianic Kingdom - must be at hand, roughly coinciding with the first 1000 years of the seventh or 'sabbatical month' of the great cosmic year - the Age of Aquarius. In Messianic astronomy therefore Aquarius, the Water Bringer, is nobody less than again the Messiah – "I will open rivers in high places, and fountains in the midst of the valleys: I will make the wilderness a pool of water, and the dry lands springs of water", Is.41:18. "Behold, I will do a new thing, now it shall spring forth; shall you not know it? I will even make a road in the wilderness and rivers in the desert...to give drink to My people, My chosen", Is.43:19, 20. In the Zodiac of Denderah we see a crowned figure pouring water out of two craters onto a fish (being the constellation Piscis Australis, the Southern Fish; so that it as a species might be abundant, Ezekiel 47:9,10), with below the figure's feet 12 stars representing the 12 signs of the Zodiac as well as the 12 tribes of Israel. For each one of Israel's tribes was assigned a banner ('ensign', Hebr. 'degel') with in it a sign (Hebr. 'oth') of the Zodiac (Hebr. 'Mazzaroth'), see Numbers 2. The banners were placed around the encampment, which was a square, with Moses' tabernacle in the centre. We mention four of them – Judah as Leo in the East; Ephraim and Manasseh (as one tribe, the sons of Joseph begotten in Egypt, his wife Asenath being the daughter of Potipherah, priest of On, so Heliopolis, Gen.41:45, so they for 50 percent were Egyptian) as (the horns of) Taurus the Bull in the West; Dan as Scorpio in the North and Reuben as Aquarius in the South (which cardinal points here have a spiritual, historical and prophetic meaning). The other reason why the end-date of Pyramid-chronology will be the year 2045 is the following -

The velocity of the earth's wobbling/precessional motion around her axis is never the same, is a variable, but nevertheless exactly predictable, so can be calculated, both forward in time and backwards in time. It may vary from 23,000 years to a maximum of 26,000 years, though strongly tending to the last number (as we saw). For making calculations, astronomers therefore have adopted a standard value, an average of 25,826 years. The remarkable thing is that in the Great Pyramid this value has been laid down already some 5000 years ago. Namely in the dimensions of her base area, which is a

perfect square, in such a way that the sum of the diagonals of the base square equals 25,826 Pyramid-inches. The only year in history that the velocity of the earth's precessional motion was 25,826 years was in the year 1558 AD (the first year of reign of Queen Elisabeth I of England). Also, the highest horizontal level at which a man can walk within the Pyramid on his way to the King's Chamber, in the Book of the Dead called 'The Plane of Revelation', is the level at which the perimeter of the Pyramid's outward body exactly equals 25,826 P-inches, and therefore is called the 'precession perimeter'.

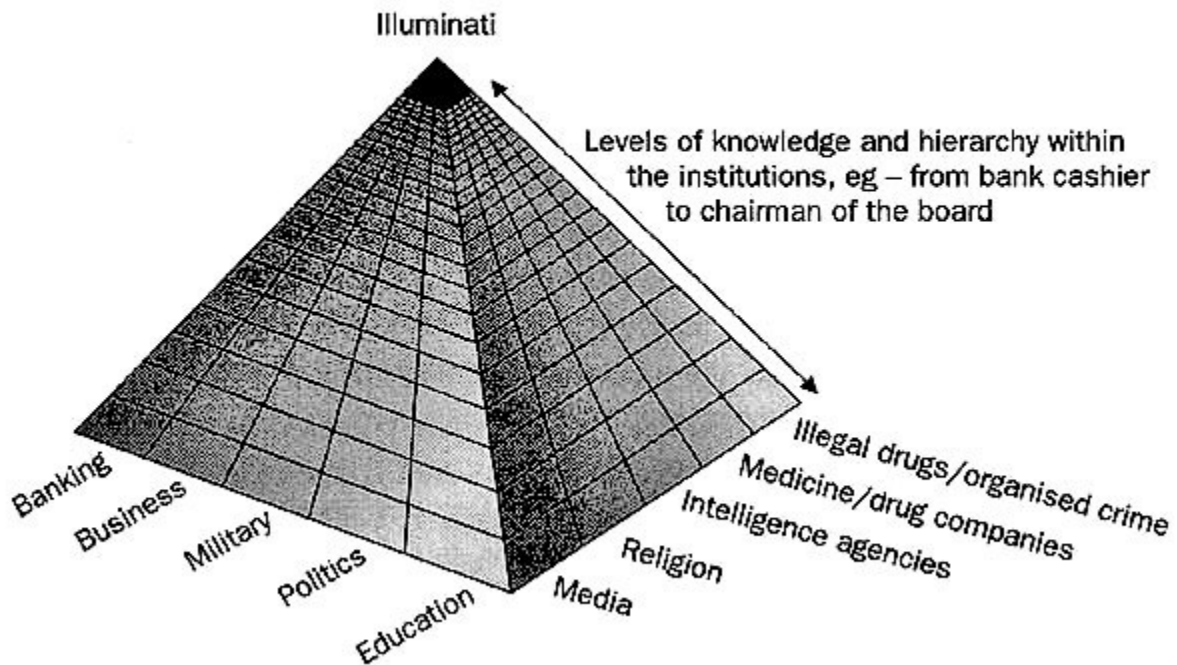

The person at right is entering the Ante-Chamber while walking the Plane of Revelation at the level of the Pyramid's Precession Perimeter. Drawing by Prof. Charles Piazzi Smyth.

We saw before that the scientific terminal point of the astronomical time scale – the autumnal equinox of the year 2045 – is determined by the sum of the inclination angles of the Pyramid-sides in vertical cross-section, which equals the length of the perihelion in that year. And both quantities – the sum of the lengths of the base square diagonals and the sum of the inclination angles of the Pyramid's sides together totally determine *the exact shape and dimensions* of the Great Pyramid. And with that the length in solar years of both the astronomical and historical time scales. In other words, shape and size of the Pyramid determine both *the beginning* of the history of the Adamic civilisation of the Fore-time, and *the end* of the 'Adamic civilisation' of the End-time. In this way the Great Pyramid is the 'hardware', the visible evidence and embodiment of the Lord's statement - "I am the Alpha and the Omega, the Beginning and the End", Rev.1:8, 21:6, 22:13. The downfall of the Adamic civilisation of the Fore-time – caused by the corruption, the transmutation of the human race through intercourse with the fallen 'sons of God', thus producing the Nephilim – was brought about by the intervention of God, The Deluge, and is described in the first bible book of Genesis. The downfall of the Adamic civilisation of the End-time will again be brought about by the intervention of God and His Son, as dramatically described in the last bible book of Revelation, as well as by the consequences of modern man's own scientific and technological 'achievements' like the atomic bomb. The Lord overthrowing the satanic World Government of the reptilian Antichrist, the Beast (1John 2:18, 22, 4:3, 2John vs.7, Rev.13 etc.), He destroying him and his hosts at Armageddon "by the breath of His mouth", 2Thess.2:8, Rev.16:16, 19:11-21.

Masters of Manipulation - The Lord will do that also because of the corruption of the human race that again is going on these days by the *secret return* of the shape-shifting Anunnaki and Nephilim

(Gen.6:4, 'also after that'; Matt.24:37-39, Luke 17:26,27 - "as in the days of Noah and Lot"). As the prophet Daniel says in Dan.2:43 - "They shall mingle with the seed of men". No longer as giants, as

The Pyramid of Manipulation

this DNA-defect in the meantime has been overcome by their advanced and secret hybridization program. So they cannot be recognized anymore by their giant looks as before, neither by their ungodly, wicked, demonic acts, satanic blood-drinking rituals and evil deeds, as these too are done in deep secrecy behind the scenes. These shape-shifting Nephilim reptilian hybrids are members of the current world's secret Illuminati power-elite of 13 superrich satanic families (like the Rothschild's and Rockefeller's) (4), international bankers, captains of industry, top-politicians, royalty, top military brass, top judges, top media owners, intelligence agencies like the NSA and CIA (thanks so much Edward Snowden! Your courage of blowing the whistle was very much needed to make people aware) (5), top religious and educational leaders (many also child-abusers), top scientists. Also the UN, IMF, Federal Reserve, World Bank, the Pentagon, NATO, the Round Table, Bilderberg, the Committee of 300, the Council on Foreign Relations, the Trilateral Commission, the Priory of Sion, the Pilgrim Society, the Vatican, the World Council of Churches, the Olympic Games, etc. Almost all of them are Freemasons of the 32/33d degree or still higher, Rosicrucians, Knights Templar/Knights of Malta, Knights of Columbus and high Jesuits ('Black Pope'), as otherwise you cannot attain those top-positions, and many of them are paedophiles (6). They, the occult Illuminati, are the 'Masters of Manipulation', occupying the top of the 'Pyramid of Manipulation'. They have infiltrated all mainstream churches: Catholics, Methodists, Presbyterians, Episcopalians, Anglicans, Lutherans, Baptists and Pentecostals, and are the founders of 'New Age', the Mormon Church (high Freemason/Illuminati Joseph Smith) and the Jehova's Witnesses (Illuminati Charles Taze Russell). The Mormon Temple in Salt Lake City is an Illuminati stronghold. For many years they have funded the campaigns of the world's most famous evangelist - Billy Graham, a 33d degree high Freemason himself, and many (TV-)evangelists' like Oral Roberts, Norman Vincent Peale, Pat Robertson, Robert Schuller ('Crystal Cathedral'), Kenneth Copeland (all

33d degree Masons), Joel Osteen, etc. were/are fakes, preaching the 'Gospels of Success, Positivism and Self-esteem', false teachers against whom the apostles Paul and Peter had warned already (2Tim.4:3,4, 2Pet.2:1). And what about 'fundamentalist' evangelists like Hal Lindsey and Tim La Haye? They are fervent supporters of Zionism and therefore influenced by the Illuminati. Zionism, as invented by Cabbalistic (Jewish) Freemasonry, has *nothing* to do with biblical prophecies concerning the restoration of Israel as a nation (see chapter 6), though many fundamentalist Christians think it has. The Illuminati are masters in subtly mind-controlling (brainwashing) everyone, Christians and non-Christians, also via their 'MK-Ultra/Monarch' mind-controlled celebrities on TV, in commercials, radio, in the music industry, occult and violent movies, sex and porn, sports lunacy, the media, fashion, the arts and 'entertainment', as they are the owners of Disney and Hollywood (7). You'll never read or hear about them, the secret Illuminati, in the mainstream media, as they are the owners of it. But you cannot do your weekly shopping without them; you cannot contract a loan without them, as they own the money; you cannot buy a car, not even refill the petrol tank of it without them, because they own it all, they are *everywhere*. This is depicted by their 'All-seeing Eye' in the 'floating' capstone (they love magick!) of their 'Pyramid of Manipulation' on the backside of every US one dollar bill (8) (9)...announcing it is their 'Novus Ordo Seclorum', the New World Order they've fabricated and have pushed down the throats of all of us, without us even realizing that. All this will culminate in the demonic spirit and coming of their Nephilim reptilian Antichrist, Satan's son, "the lawless one" (Hebr. 'rasha', Is.11:4, Greek: 'ho anomos', 2Thess.2:8), "the son of perdition" ('ho huiois teis apooleias', 2Thess.2:3) and the Nephilim False Prophet, Rev.13, also called 'the last Pope' (10).

Lady Gaga's "entertainment"

Illuminati military Cabal - Because the Illuminati are also the owners of the military-industrial complex, certainly in the US, they have the most advanced (military) technology at their disposal one can imagine. Technology so advanced and so secret that most scientists have no idea of it, except those that are secretly working on it in 'shadow-government' black projects. What we mean is 'electromagnetic anti-gravity drive' for interplanetary/interstellar UFO-like spacecraft that is able to neutralize, repel or attract the gravity not only of planet Earth, but of any celestial body. This is due to the fact that the spacecraft generates its own 'gravity capsule', so that when it greatly accelerates its speed or

radically alters its course in less than a second, this has no effect on its crew in the sense like fighter pilots are experiencing when undergoing ‘G-forces’ of acceleration or deceleration. This is technology that has made all kinds of combustion engines, including jet- and rocket-propulsion, hopelessly outdated, but that the Illuminati military Cabal strictly keep for themselves as otherwise the multi-national oil companies owned by them (like ExxonMobil as owned by the Rockefeller’s) would go bankrupt...This technology has been back-engineered from alien spacecraft that already long ago have crashed in the south-western deserts of the US, like the infamous ‘Roswell incident’ of 1947. But also technology that has been handed to them by aliens named by the US Government as ‘Ebens’ (‘Extra-terrestrial Biological Entities’) from the star system Zeta Reticuli in the constellation Reticulum (meaning ‘The Net’), 38.4 light-years away in the southern hemisphere. See the website www.serpo.org, dedicated to the gradual release of confidential documents pertaining to a top-secret exchange program of twelve US military personel (10 males, 2 females) to ‘Serpo’, a planet of Zeta Reticuli, between the years 1965-78. The secret departure of these 12 astronauts from the Nevada Test Site close to Nellis AFB in an alien spaceship has been re-enacted in the Steven Spielberg film ‘Close Encounters of the Third Kind’. Only 8 of them returned to Earth as 2 died on Serpo and 2 wanted to stay there.

Then there is the incredible story of Charles Hall, who in the mid-sixties was stationed at Nellis AFB near Las Vegas as a weather observer, releasing weather balloons in the desert near Indian Springs, also called ‘Area 54’. There, on an almost daily basis he met with aliens he called the ‘Tall Whites from Arcturus’, who were and still are living there in an underground base secretly built for them in the early fifties by the shadow-governement Cabal, including hangars for their interstellar deep-space craft and interplanetary small scout-craft. Says Hall - “Every month on the night of the full moon, at or near sundown, the deep-space craft arrive and pull into port into the main hangar, where they are repaired, refueled and refurbished. On the night of the new moon, they go out and take off. They use the base in the same way the US Navy or the US Air Force would use a base, say, on an island in the Pacific. Basically, they use Earth as a stepping stone. Most stars have another star within two light-months from them,” Hall says, “but with the sun, there’s a huge bubble of emptiness, like ten light-years across. In that bubble, there are only a few stars: the sun, the three stars of Alpha Centauri four light-years away, and Bernard’s Star. So for the Tall Whites, it’s kind of like island-hopping across the Pacific, except they’re hopping from star to star”.

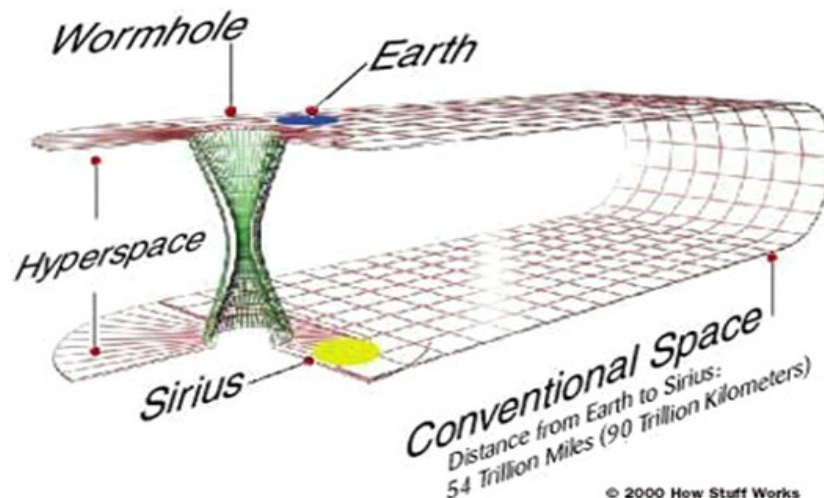

The scout-craft of the Tall Whites

“The Tall Whites don’t have a message of celestial brotherhood. They do not wish to harm us, nor are they here to save us from ourselves. The base they have here on earth is very important for repairing and refurbishing their spacecraft. Though they can become ten times older than us, some 700 to 800 years, they’re just ordinary creatures like us, they’re not supernatural, they didn’t come here from another dimension, they’re not hybrids. They have family groups, they have men, women and children, just like humans do. As the weather observer, I was out with pretty colored balloons, which have lights on them. The children enjoyed watching me release them, and looking through my *theodolite* (a kind of

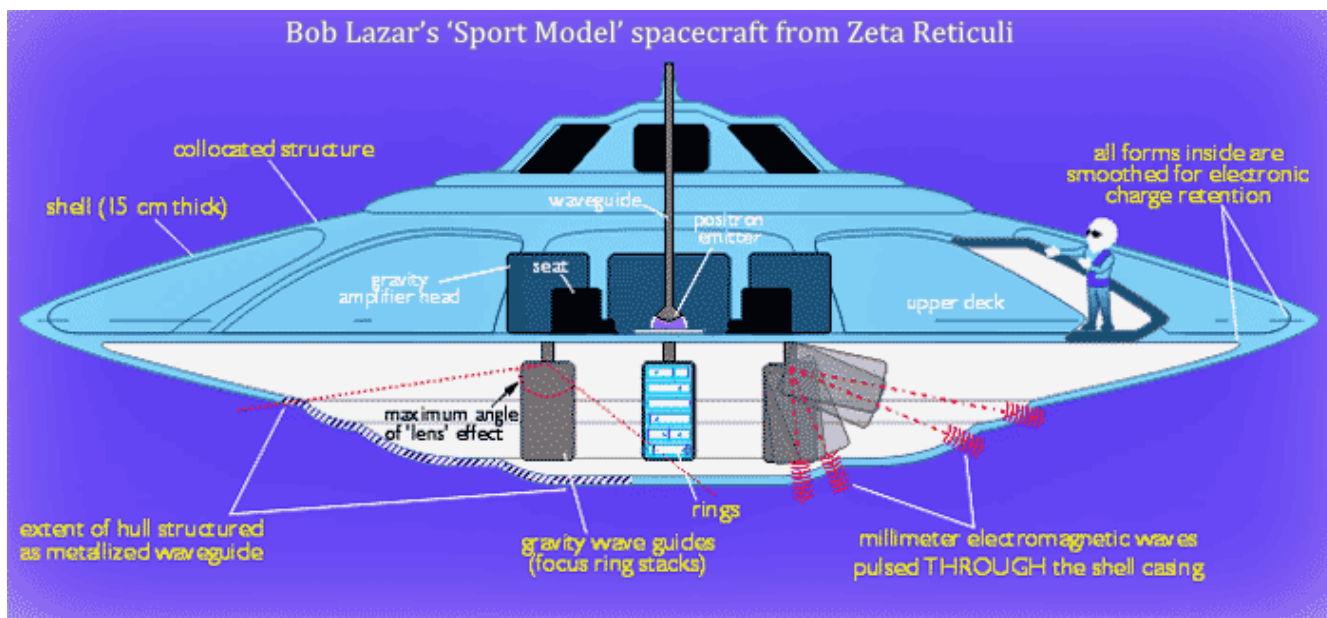

telescope, gkm), so that was one reason they would interact with me.”

“Another reason is that the Tall Whites and the US government have a technology exchange program. They did not come here to teach us anything, but for those things where there’s an advantage for them, they’re willing to exchange technology. Imagine we had a base on an island in the Pacific. It would make more sense for the Air Force to buy electronic equipment locally than to ship it out from New York. So for example, they were willing to exchange technology on things like radios and high grade titanium, but they weren’t willing to show the US Air Force how to build spacecraft that moved faster than the speed of light (in the meantime the Air Force is able to build such craft, gkm). They have the titanium black craft, the deep-space craft, which clearly travels faster than the speed of light (while obviously using ‘anti-gravity propulsion’, gkm), and then they had their scout-craft which were white, and were clearly assembled here on earth, too small to make the deep space crossing. If you were dealing with them the way I was, if you were giving them an advantage, the terms could be as simple as the children have fun playing while I worked.” - Hall has detailed his encounters with the Tall Whites in five volumes entitled ‘*Millennial Hospitality*’, in which he describes how he saw Air Force generals embarking the small scout-craft with crews of the Tall Whites, taking off for what he thought must have been pleasure trips to the moon, as they always returned at the end of the same day and saw them disembarking while having laughing conversations with the crews...Because the Tall Whites are physically very slight and slender and feared his human bodily strength, he was not allowed to touch them and especially their children in any way, on penalty of death. So they also could be malevolent, always approaching him from behind... <http://www.millennialhospitality.com/> , last accessed 12-8-13.

Some 25 years ago, the American scientist and ‘whistleblower’ Bob Lazar had disclosed he in 1988/89 at the ‘above-top-secret’ underground base of Groom Lake in Nevada, so-called ‘Area 51’, had worked on one of nine ‘flying disks’ given by the benevolent Ebens from Zeta Reticuli in their exchange program. The type of fuel for the mini-nuclear ‘anti-matter’ reactor of this ‘Sport Model’ saucer (as he called it) was discovered by him as being ‘Ununpentium 115’, a ‘super-heavy’ extra-terrestrial chemical element not found on earth. But what exactly is ‘exchanged’? Answer: Alien technology for human and animal guinea pigs – abductions of humans and cattle mutilations by the malevolent

'Gray's'...The Illuminati don't give a dime for human and animal life...neither the Gray's...The acquired knowledge from these 'exchange' programs has resulted, among many others, in the construction of two top-secret interstellar disk-type spaceships for the US Navy – the USS Concord and USS Excalibur, that can travel faster than the speed of light. This is done by pointing the ship's powerful 'gravity wave' to the destination it wants to go to, say the star Sirius, thus greatly 'compressing' space-time, as it were pulling Sirius much closer to it. In this way it can 'warp' or 'bend' the enormous distance of 54 trillion miles to the star and take a 'shortcut' by flying through a 'wormhole', so that destinations many light-years away can be reached in a matter of days, hours or even minutes, depending on the intensity of the gravity wave. This is what Albert Einstein in his 'theory of general relativity' already had predicted, and which has nothing to do with the speed of light of 186,000 miles a second. Such a distance would be far too great for conventional space travelers to traverse, even when travelling with the speed of light, and return in time to tell about what they saw there. Because Sirius is 8.7 light-years away, the whole trip vice versa then would last at least 17.4 years (not for them as time for them then 'stands still', but for us here on earth). Gravity-propelled spaceships however can use a wormhole that connects them to the space around Sirius or any star, and thus cut the time of travel enormously by avoiding the trillions of miles that would have to be crossed with traditional space travel. But again, this is technology that the Illuminati Cabal strictly keep for themselves. In other words, the NASA Space Shuttle program as using completely outdated rocket-technology was only for public consumption, a 'red herring' or 'cover-up' for what has been really going on...As stated by the late Ben(jamin) Rich, the Jewish former head of Lockheed Aircraft's 'Skunk Works' shortly before his death in January 1995 - "We already have the means to travel among the stars, but these technologies are locked up in black projects and it would take an act of God to ever get them out to benefit humanity"...Of the Babel-builders God said in Gen 11:6 - "Nothing that they propose to do will be withheld from them", and His act was that He struck them by confusing their speech.

The 'Millennium Temple' - Following the downfall of the current wicked, Illuminati-controlled civilisation, this time by His act of striking the Babel-builders to death, the Messiah will found His

Kingdom on earth, the 'Millennial Kingdom', Rev.20, "*the great mountain that fills the whole earth*", Daniel 2:35, (as opposite to the 'great mountain of manipulation' that for the time being is still filling the whole earth). This is typified and symbolised by one building on earth: *the Great Pyramid*, also because it as the scale model of the earth indeed 'fills the whole earth'.

Does all this mean that the Messiah's Second Coming will be in the year 2045? No, because we cannot know the exact point in time, Mark 13:32-37, but there's clear biblical evidence He will come back already some 10 to 15 years before that year (see chapt.7). Also because He has said that "unless those days were shortened (curtailed), no flesh would be saved; but for the elect's sake, whom He chose, those days will be shortened", Matt.24:22, Mark 13:20. It means that around 2038 AD, 480 years from 1558 AD, the only year that the velocity of the earth's precessional motion was equal to the sum of the lengths of the Pyramid's base diagonals of 25,826 P-inches, and also equal to its 'precession perimeter', the 'Plane of Revelation', He will issue the decree of building the huge 'millennium-temple' of Ezekiel 40-48, the temple of the Messianic Kingdom: "Behold, the Man Whose name is The Branch (see later in chapt.11)...He shall build the temple of the Lord. Even He shall build the temple of the Lord; and He shall bear the glory, and shall sit and rule upon His throne", Zech.6:12,13, so obviously the Lord Jesus Christ, the Messiah. But, what about those 480 years? Well, from Israel's Exodus out of Egypt on 4/5 of April 1486 BC (see later in chapter 9) to the foundation of Solomon's temple in 1007/1006 BC (see chapt.9) were 480 years. And from its dedication in 1000 BC till the decree by Yahweh in 520 BC (Ezra 6:14) to build Israel's second temple of Zerubbabel were also 480

years (2Chron.36:22,23, Ezra 3; see chapt.8)...Thus the end-date of the Pyramid's astronomical time scale of 2045 AD, in all probability will mark the dedication of what Isaiah 2:2 calls "*the mountain of the Lord's house*", the temple of His Kingdom, the glorious Kingdom symbolised by the Great Pyramid as 'the great mountain that fills the whole earth' – "And it shall come to pass *in the last days*, that the

mountain of the Lord's house shall be established in the top of the mountains, and shall be exalted above the hills (like also the Giza pyramids are standing exalted above the landscape of urban Cairo and thus may not have been completely submerged by the waters of the Flood); and all nations shall flow unto it...for out of Zion will go forth the Law, and the word of the Lord from Jerusalem". Which city then will be called "YHWH Shammah: The Lord is there", Ezekiel 48:35. Just as Solomon was building the temple in 7 years, the same will probably be the case with the Messiah building the millennium-temple from 2038 AD till 2045 AD, as He in His wisdom and glory and as the Prince of Peace is the antitypical fulfilment of Solomon's kingship, his acts, fame, wisdom and wealth.

(2) In his remarkable book 'The Second Coming of the Antichrist', bible scholar Peter D. Goodgame writes that Enmerkar is the same as the biblical Nimrod (meaning 'let's be recalcitrant, rebellious', from 'marad' - 'revolt', namely against God), as the consonants *n-m-r* in both names are similar. He also claims Nimrod/Enmerkar must have been a Nephilim, the son of Satan (though supposedly a son of Cush, Gen.10:8) and will return as the Antichrist, just as Christ (supposedly a son of Joseph, Luke 3:23, 4:22, John 6:42, but in reality the Son of God) will return to destroy him. We agree with all of this, except that Nimrod was also the same as Osiris.

(5) The following is a quote from 'The Illuminati Conspiracy Blog' – "NSA's realtime reach on *You*. This last Thursday, October 24, 2013, former NSA Director Michael Hayden boarded a train from Washington D.C. to Newark, New Jersey. He began talking on his cell phone. A passenger a couple of seats away heard what he was saying and began not only listening, but 'tweeting' the juicy results of what he was overhearing. Within 15 minutes, Hayden finished his call and walked over to the gentleman who was tweeting about his phone conversation. "Would you like a real interview?" Hayden asked. You can imagine the alarm felt by this guy who thought he was in his own private space, getting the one down on the ex-director of the NSA. But the truth was *he* was being watched and tracked...in real time...by the NSA. It seems the NSA computers instantly noticed someone tweeting something on the ex-director of the NSA, located the identity and location of the person and then texted Hayden of what was happening. How is that for real time intelligence? This guy was located, identified and fixed within 15 minutes of starting a tweet on a 'sensitive subject.' The target of his remarks was notified and the guy was targeted (how much you want to bet he was detained by Homeland Security moments later?). The lesson here? The Internet is a spy network. Social sites like Facebook, Twitter and even Google itself have direct connections to the NSA (and in fact *are* part of the NSA). The NSA has the capability to track what you are doing in real time if you use these sites. That is why this blog entry is being recorded and flagged by the NSA, the moment it got posted. Please be aware of this". See –

2013. Michael Hayden is a retired US Air Force General and was also director of the CIA. You cannot become director of the NSA *and* the CIA when *not* being a high Freemason, Rosicrucian or Illuminati. The world of the Antichrist *is* already here.

Just as high-ranking Illuminati-members Henry Kissinger and Bob Hope (the 'entertainer') were to ex-'presidential model', now born-again Christian Brice Taylor, as told in her book 'Thanks for the Memories'. Cathy O'Brien was sexually abused by Hillary Clinton, who's a 'Grande Dame' of the Illuminati. The same goes for European royals, especially those of the UK, and top-politicians like Silvio Berlusconi of Italy, who is a high member of the infamous P2 Masonic Lodge of Rome. And from George Bush senior is the statement - 'If the people knew what we had done, they would chase us down the street and lynch us' (to journalist Sarah McClendon, Dec.1992). Both father and son Bush, as well as the current US Secretary of State, John Kerry, are members of the secret Illuminati 'Skull and Bones' Order of Yale University. <http://www.trance-formation.com/> , last accessed Nov. 20, 2013.

(7) 'MK' in 'MK-Ultra' means 'Mind Kontrolle' in German language (English: 'mind control'), as co-invented by Dr. Josef Mengele (1911-1987?), the infamous physician of the Nazi death camp at Auschwitz, also known as the 'Angel of Death', who tortured men, women and children and did heinous medical experiments on them, including 'Mind Kontrolle'. During 'Project Paperclip' just after the war, the American Illuminati secretly brought him (with many more German Nazi-scientists like rocket-scientist Werner von Braun) to America, where the CIA let him continue his 'medical' experiments, especially mind control. Which is a torturous, traumatic way of splitting a person's mind into many 'alters' or 'personalities' in order to carry out special assignments for the CIA and the Illuminati. Like assassinating a politician, spying, being a 'presidential model', or as a diplomatic courier for the power-elite, by remotely triggering a code in the person's alter that is brainwashed to robotically perform that job. Afterwards, these 'multiples' have no memory of what they have done and are undetectable, as their everyday 'front-alter' is as 'normal' as of any of us.

One of Mengele's child-victims in America during the 1950's and 60's was Carol Rutz, author of the book 'A Nation Betrayed' (2001). Below is a small part of an interview she had in May 2005, in which she made it clear it was *him* (as 'Dr. Black') who did gruesome experiments on her -

“JW: Why do you believe it was *the* Joseph Mengele that was doing these bizarre experiments on you and others? Carol Rutz: Because when I saw Joseph Mengele's face in a photograph, I recognized him as Dr. Black. Moreover, as time went on and I spoke with more and more survivors, other people remembered the same face as that of Joseph Mengele when they saw a picture of him. He had an accent. He wore shiny black shoes. But more than once I was told not to look at his face. However, there came a point in time where he actually identified himself to me. I probably was around 16 years old when that happened. He referred to me as one of the “Mengele kids.” That was the time I heard his name mentioned or he himself spoke his name. Other than that, it was always Dr. Black in front of me. JW: In your book, you indicate that Mengele actually harvested eggs from you after an abortion. Carol Rutz: I believe that to be the case. That is what I was told. JW: Who told you that? Carol Rutz: Joseph

Mengele. He showed me two children who had grossly enlarged heads. He told me that they were the product of eggs he had harvested from me when I was 12 years old. This was during an abortion performed on me. JW: After performing an abortion? So you remember being pregnant? Carol Rutz: I do now”.

In the 'entertainment' industry also torturous, satanic ritual abuse is exerted on young promising artists, especially by Walt Disney Productions - the 'Monarch program', named after the Monarch butterfly, which at the end of its active life always returns to its birth place to die. About the same happens with many artists after having been dismissed because of becoming too old...The 'managers' of these artists in reality are their occult/satanist handlers/programmers, who demand total obedience in selling the artists' souls to the devil in exchange of worldly stardom, fame and wealth. If the artist doesn't obey, he or she will not make a career, will not have fans. But all of them want to show their 'talents' to the world, become famous and rich and drive an expensive sports car. There's no place on earth with a denser concentration of such cars than LA/Hollywood. They have no say on what clothes to wear when

(8) As introduced by the administration of Illuminati-president Franklin D. Roosevelt, *who knew in advance* that 'Pearl Harbor' was coming, but *did nothing* to warn his troops and his people. How could he know? Because the Illuminati are the architects of all wars since the French Revolution, including the US Civil War, the First and Second World Wars, the Korean War, the Vietnam War, the Iraq- and Afghan Wars and including the still to come Third World War as planned by them. As is outlined in their '*Protocols of the Learned Elders of Zion*', thereby funding both sides, 'friend and foe', according to their policy of 'divide and rule'. We also know that because of the letter General Albert Pike, Grand Commander of American Freemasonry, wrote in 1871 to Giuseppe Mazzini, Italian revolutionist, 33d degree high Mason and Mafia-founder, in which Pike outlined his blueprint for the fabrication of three world wars needed to come to a One World Order for the Antichrist. This blueprint he had received by visions of Lucifer/Satan (who, of course, knows the future), with whom Pike communicated on an almost daily basis. It is this blueprint that is followed to the letter by the current Illuminati, in order for the Third World War to come, and we can only marvel about how accurate Pike was in his descriptions of these wars, including the final one to come; they also being the architects of '9-11' as an inside job.

(9) The US Government has a debt of no less than 17.6 trillion dollars and had to 'shutdown'. It includes a debt of some 12 trillion dollars to the Federal Reserve, since 1913 the central bank of

America. But what exactly is the 'Fed'? It's a cartel of 8 dynastic Illuminati banking families, four of which are not even American: Goldman Sachs, the Rockefeller's, the Lehman's and Kuhn Loeb's of New York; the Rothschild's of Paris and London; the Warburg's of Hamburg; the Lazard's of Paris, and the Israel Moses Seif's of Rome, and all are 'Jewish' (or masquerade as such). It is these families and their agents and trusts that are in total control of the global economy. But isn't it too crazy for words that a government is in (big) debt to such powerful oligarchic bankster families? And is doing their bidding? Yes it is! A government should issue *its own money* and not being dependent of a banking cartel. Exactly this is what presidents Abraham Lincoln and John F. Kennedy had in mind when they announced to issue government money. Lincoln when issuing his 'greenbacks', and Kennedy when he authorized the issuance of more than \$4 billion in U.S. Notes by his Treasury Department in an attempt to circumvent the high interest rate usury of the Federal Reserve. So both were assassinated, as this would mean the greedy bankster families would be stripped of (some of) their economic, financial and political power. Lincoln as a Rosicrucian and secret Rothschild relative was assassinated by Freemason John Wilkes Booth, and Kennedy by marksmen of the FBI and CIA, on order of the power-elite, especially the Greek Illuminati king and shipping tycoon Aristotle Onassis (who later would marry his widow Jackie)...Though JFK was a dynastic member of the Illuminati himself (4: Chapt. 6) he did not receive their indoctrination and in reality was fighting them as he, with his brother Robert (5 years later also assassinated) didn't want to be their puppet but think for himself. The same goes for Lincoln. So 'Babylon' and its Cabal of greedy bankster merchants (Revelation 18) don't even spare their own members when they dare to deviate from the Illuminati-Agenda...The same is the case in the Euro Zone (a 100% Illuminati creation) and any other (developed) country, except Japan. Its government is also in financial debt, partly to the Rothschild-controlled Nomura Bank, but mostly to its own people, and that's a much better solution. The fact that almost all governments in the world are in big debt to private bankers, the World Bank or the International Monetary Fund, is the reason why their peoples have to pay income tax. If every government would issue its own money, there would be no need for that. But the power-elite has them, the governments as well as the people, in an iron grip.

(10) It is said that the mightiest 'religious' man on earth is not the 'White Pope' of the Roman Catholic Church, but the 'Superior General' – also called the 'Black Pope' - of the Jesuit Order, the largest and only *military* Order within the Church of Rome. It was founded in 1534 by the Spanish priest and soldier Ignatius de Loyola to counteract the upcoming Protestant Reformation in Europe, and since then the Jesuits have done nothing else than just that - counteracting non-Catholic religions by intrigue, assassinating kings and politicians, subverting governments, killing non-Catholic Christians, and many other heinous practices. Not only in Europe and America, in the whole world, up to in China and Japan. This is according to the following extreme oath every Jesuit priest has to take -

'I do further promise and declare that I will, when opportunity presents, make and wage relentless war, secretly and openly, against all heretics, Protestants and Liberals, as I am directed to do, to extirpate them from the face of the whole earth; and that I will spare neither age, sex nor condition, and that I will hang, burn, waste, boil, flay, strangle, and bury alive these infamous heretics; rip up the stomachs and wombs of their women, and crush their infants' heads against the walls in order to annihilate their execrable race. That when the same cannot be done openly I will secretly use the poisonous cup, the strangulation cord, the steel of the poniard, or the leaden bullet, regardless of the honour, rank, dignity or authority of the persons, whatever may be their condition in life, either public or private, as I at any time may be directed so to do by any agents of the Pope or Superior of the Brotherhood of the Holy Father of the Society of Jesus. In confirmation of which I hereby dedicate my life, soul, and all corporal powers, and with the dagger which I now receive I will subscribe my name written in my blood in testimony thereof; and should I prove false, or weaken in my determination, may my brethren and fellow soldiers of the militia of the Pope cut off my hands and feet and my throat from ear to ear, my belly be opened and sulphur burned therein with all the punishment that can be inflicted upon me on earth, and my soul shall be tortured by demons in eternal hell forever'.

It is clear this oath of the 'Society of Jesus' is nothing less than sinister and utterly satanic, especially by shamelessly let their Order be called by the Name of God's beloved Son. Because their discipline is one of the strictest in achieving their goals, also when it comes to celibacy, none of them have ever experienced the love of a woman...With the result that many of them are homosexuals, paedophiles and child-abusers, even including ritual sacrifice of infants...In 1773 they were suppressed by Pope Clement XIV, after having been banished by kings of many European countries, they being considered by them to have become too wealthy and too powerful and influential, especially by the French Emperor Napoleon Bonaparte. After whose demise however the Jesuits were reinstated in 1815 by Pope Pius VII. After being banned in Spain twice more, in 1834 and 1932, they were allowed again by Spanish dictator Francisco Franco in 1938. Since then their power has been increasing all the time and nowadays they as part of the organisation of the Illuminati in fact rule the world, as shown by the election in March 2013 of the first Jesuit Pope ever – Francis I, aka Jorge Mario Bergoglio. So now both Popes, the White and the Black, are Jesuits...but see the reports below...Officially, their Black Pope is subordinate to the White Pope, but in reality it is the other way round – So great is the religious, political and *occult* power of the Black Pope, that the White Pope, the Curia and the College of Cardinals cannot do anything than obey his orders! It was a Black Pope who wrote the rituals of the highest degrees of the Scottish Rite of Freemasonry – satanic rites that include the conjuring of demons and the worship of Lucifer. From 1983 till 2008 a Dutchman was the Black Pope – Count Peter Hans van Kolvenbach, since then succeeded by the Spaniard Adolfo Nicholas Pachon.

Rev. Kevin Annett – Evidence Joseph Ratzinger is acting Pope; 'Pope' Francis is PR front; Pope and Cardinals are a Satanic Coven.

Vancouver, BC, 24 March 2014 – Speaking from New York on his way to the International Common Law Court of Justice in Brussels for the trial against Pope Francis (Jorge Mario Bergoglio), Jesuit Superior General Adolfo Nicholas Pachon, and Archbishop of Canterbury Justin Welby, Rev. Kevin Annett revealed evidence demonstrating that Pope Joseph Ratzinger (Benedict XVI), who publicly 'resigned' in February 2013 and continues to live in the Vatican is de facto Acting Pope, directing the College of Cardinals and the Curia who follow his orders. Pope Francis, who lives in a nearby convent, is a Public Relations front, whose pronouncements are for the media and are systematically ignored and countermanded by the Acting Pope and the Vatican's Curia. This deception, knowingly engaged in by the Jesuit Jorge Bergoglio, is intended to allow for the Vatican's full diplomatic alliances in the dynamics of international geopolitics while retaining its hidden child genocide and Satanic structure with the Acting Pope Ratzinger and a participating Curia.

Rev. Kevin Annett also revealed the existence of a secret document confirming that Popes are required to be initiated into the 'Ninth Circle' Satanic cult involving child sacrifice and drinking of its blood as part of the 'Magisterial Privilege' to assume Papal office. "The witnesses claim to have seen both former Pope John Paul II - Karol Wojtyla – and Pope Benedict participate at 'Ninth Circle' rituals held at Catholic cathedrals and a forest grove in France", said George Dufort of the Common Law Court. The Curia and Cardinals also engage in the 'Ninth Circle'. In effect, the Pope and the Cardinals are a 'Satanic Coven', Rev. Kevin Annett agreed.

The trial against Pope Francis, Jesuit Superior General Adolfo Pachon and Archbishop of Canterbury Justin Welby for child trafficking and -genocide was scheduled to commence in early April 2014 in

Brussels at the International Common Law Court of Justice, and will last for at least a year.

Here's a transcript of their conviction -

The International Common Law Court of Justice

A lawful Court of Record convened under the Law of Nations

International Citizens' Arrest Warrant

In the Matter of Crimes against Humanity, Child Trafficking and Murder

Case Docket No. 18072014-A

This Warrant is issued against **Jorge Mario Bergoglio** (aka "Pope Francis"), **Adolfo Nicholas Pachon** (aka "Superior General of the Jesuits"), and **Justin Welby** (aka "Archbishop of Canterbury")

Having been tried and convicted in this Court for Crimes against Humanity, and duly sentenced to life imprisonment on 18 July 2014, BERGOGLIO, PACHON and WELBY are to be immediately detained and imprisoned by Court appointed Sheriffs and their deputies, under the authority and protection of this Warrant.

The Public is authorized to assist in the detaining of these convicted criminals, and in seizing their property and assets, in accordance with the verdict of the Court.

This Warrant has the full effect of the Law

Signature of the Magistrate of the Court

Date Issued 22 July 2014

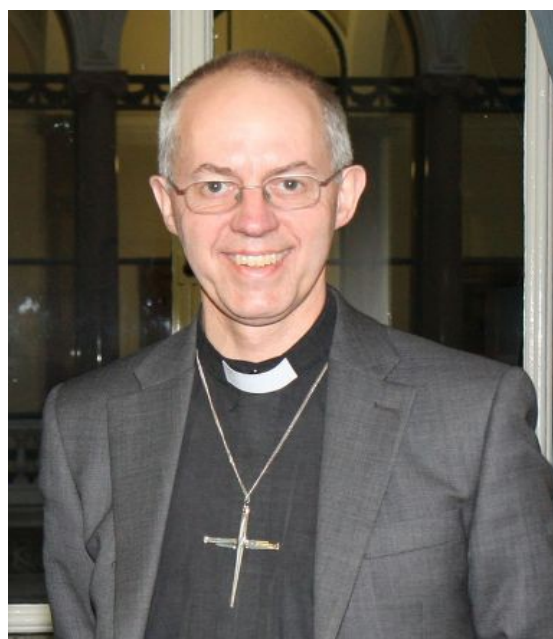

This Warrant is issued on the twenty second day of July in the year 2014. It is valid for the period of one year, and may be renewed by order of any Magistrate of the Court.

ICLCJ Court order no.18072014-003 G.Dufort, Court Secretary, Brussels.

The White and Black Pope together

Justin Welby, the Archbishop of Canterbury

Rev. Kevin Annett's revelations came in an Exopolitics TV interview with Alfred Lambremont Webre, and were also published in the newspaper 'The Examiner'.

It is out of the question these 3 convicts, at least as long as they're in office, will ever be imprisoned and their properties and wealth confiscated, as they are too powerful members of the establishment, enjoying diplomatic immunity, being backed and protected by their Church, their governments and by the Illuminati itself. It was *the Jewish Jesuit* Adam Weishaupt who founded the 'Bavarian Illuminati'.

Yet there is also this report from the International Tribunal against Crimes of Church and State (ITCCS) <http://itccs.org/> of May 25, 2014 – "**Accused Child Killer resigns from top Vatican office: Jesuit head Adolfo Pachon makes startling announcement as he stands trial in absentia for Crimes against Humanity. Rome:** Amidst rumors that Pope Francis, Jorge Bergoglio, may step down from his office because of his public prosecution of child trafficking and murder, one of his fellow defendants has just done so. Jesuit Superior General Adolfo Nicolas Pachon suddenly announced on May 20 that he will resign from his office at the next General Congress of the Jesuits in 2016. Along with Archbishop of Canterbury Justin Welby, Bergoglio and Pachon are primary defendants in an historic criminal lawsuit conducted by five judges of the International Common Law Court of Justice in Brussels that commenced on April 7, 2014. Several eyewitnesses who have given their deposition to the Court, claim they witnessed Welby, Bergoglio and Pachon participate in child rape and sacrifice rituals connected to the notorious Jesuit-run Ninth Circle cult, during 2009 and 2010. In a statement generally unreported by the world media (no wonder, as they are all owned by the Illuminati, gkm), Pachon announced that he was stepping down from his office without giving a reason. The Italian TV news agency 'Rome Reports' called Pachon's resignation "unusual...for one of the leading prelates in the church". Pachon is the third top Vatican official to resign while in office after being prosecuted by the ICLCJ for crimes against humanity. Former Pope Benedict, Joseph Ratzinger, abdicated on February 11, 2013, barely two weeks before the ICLCJ jury found him guilty of complicity in child trafficking and murder. Another primary defendant in the same case, Vatican Secretary of State Tarcisio Bertone, also resigned after the verdict".

ITCCS Field Secretary Kevin Annett commented from Canada – "This is yet another huge admission of guilt by some of the most powerful men in the papacy. Obviously they are not untouchable, and their whole corrupt criminal syndicate is coming down. We should all take hope from this, and see that the law in the hands of the people can topple the worst tyrants". Issued by the ICLCJ Directorate, 25 May 2014. <http://www.iclcj.com>

From all this it is evident that the Vatican and its inhabitants, and also the Church of England are totally controlled by the satanic Illuminati and in fact are part of it. As was also revealed in May 2013 in an interview in California by a female member of the Rothschild/Sinclair satanic families – Erin Green Hicks Rothschild a.k.a. Sarah Sinclair (44). She told she as a child had to attend satanic Illuminati rituals of the sacrifice of children in an underground basement of the St. Peter Basilica in Rome and as an Illuminati-child was systematically raped from the age of 4 in the Pentagon in Washington, tortured and mind-controlled by her own parents and family members. For many years she during rituals had frequently seen infants being "ripped apart"...(See YouTube interview). A Dutch therapist, Toos Nijenhuis, as a 4 year-old was also forced to witness murders of children. This involved Joseph Ratzinger, Dutch Cardinal Alfrink, plus the father of Dutch Queen Beatrix and Bilderberg founder

Prince Bernhard. "I saw the former Pope murder a little girl", another witness confirmed. "It was at a French castle in the fall of 1987. It was ugly, horrible and didn't happen just once".

"We are taking Ninth Circle Satanic Child Sacrifice Cult members to court because they appear involved in the routine and systematic kidnapping, rape, torture and sacrificial murder of newborn infants and children" stated Kevin Annett of the International Tribunal against Crimes of Church and State, which has been prosecuting the cases since March 2014. "According to our witnesses the Ninth Circle Satanic Child Sacrifice Cult is globally based and centuries old, operating at Roman Catholic cathedrals in Montreal, New York, Rome, London, Ireland and dozens of other locations, including private forest groves in America, Canada, France, Belgium and Holland. The Ninth Circle Satanic Child Sacrifice Cult appears to routinely utilize children taken from Catholic orphanages, adoption agencies, hospitals and schools".

Reverend Kevin Annett was a minister of the United Church of Canada. In 1990 he graduated from the Vancouver School of Theology with a Master of Divinity degree, and subsequently served in churches in rural Manitoba, Toronto (an outreach street-ministry) and Port Alberni, British Columbia. In the 1980's he graduated from the University of British Columbia with a Bachelor's degree in anthropology and a Master's degree in political science. His Ph.D thesis on the topic of the genocide of the Canadian natives was blocked by the establishment. On May 29, 2011 Annett was denied entry into England at Stansted Airport, and briefly held in an immigration prison before being deported. The only explanation offered was that giving public lectures was not an appropriate activity for visitors to the UK. He had been scheduled to speak at a public rally in London against child trafficking by church and state, especially against the Queen of England Elizabeth Windsor, who also has been convicted for child trafficking and murder by the International Common Law Court of Justice in Brussels. The 2013 ICLCJ Court found her and Prince Philip guilty for the Oct.10, 1964 disappearance of ten native children from the Catholic school in Kamloops, BC, Canada. They were never heard of again...

Revelation Chapter 17 - "Then one of the seven angels who had the seven bowls came and talked with me, saying to me, "Come, I will show you the judgment of the great harlot (the World Church of Rome) who sits on many waters (nations, all mankind, vs.15), with whom the kings of the earth (kings and other heads of state) committed fornication" (with the True Church, the Body of Christ, they can never do this)...So he carried me away in the Spirit into the wilderness. And I saw a woman sitting on a scarlet beast which was full of names of blasphemy (the world system of the Antichrist)...The woman (the World Church) was arrayed in purple and scarlet (signifying blood), and adorned with gold and precious stones and pearls (signifying great wealth), having in her hand a golden cup full of abominations (like her child sacrifices) and the filthiness of her fornication (she's a harlot isn't she?). And on her forehead a name was written: MYSTERY, BABYLON THE GREAT, THE MOTHER OF HARLOTS AND OF THE ABOMINATIONS OF THE EARTH. (The religion of the World Church of Rome is nothing else than a 'semi-christianized', adapted version of the pagan Babylonian, Greek and Roman mystery religions of Antiquity, up to and including the clothing of Popes and Cardinals). I saw the woman, drunk with the blood of the saints (like innocent little children, see Matt.18:3, etc.) and with the blood of the martyrs of Jesus (true Christians who have been persecuted and killed by the Inquisition and the Jesuits, and still will be killed in these last days). And when I saw her, I marveled

with great amazement. But the angel said to me, "Why did you marvel? I will tell you the mystery of the woman and of the beast that carries her, which has the seven heads and the ten horns...Here is the mind which has wisdom: The seven heads are seven mountains on which the woman sits (the city of Rome with the Vatican is built on 7 hills)...The ten horns which you saw are ten kings who have received no kingdom as yet (the angel is talking to John about the end-time, so in John's days more than 1900 years ago they still weren't there), but they receive authority for one hour as kings with the beast" (this beast is the Beast 666 of Rev.13, and 'one hour' means a relatively short time during the time of the end. Those 10 kings are the 10 toes of the 2 feet of iron and clay of the statue of world powers in the dream of King Nebuchadnezzar, Daniel 2. The 2 feet represent the *fifth* world empire of the end-time and that empire is *now*, see chapt.12, sub-title 'The Stone cut out without hands'). "These are of one mind, and they will give their power and authority to the beast" (who then will found his world empire, the *sixth* and last human empire of the New World Order)... "And the ten horns (so the 10 kings) which you saw on the beast, these will hate the harlot, make her desolate and naked, eat her flesh and burn her with fire. For God has put it into their hearts to fulfill His purpose, to be of one mind, and to give their kingdom to the beast, until the words of God are fulfilled". So at one time nothing will be left of the harlot, the World Church of Rome. She who drank the blood and ate the flesh of innocent little children, in the last days will be consumed herself and her remnants burned to ashes; being utterly destroyed, in order that God's words and purpose are fulfilled.

4. GIZA RESURRECTED

The Messianic significance of the Giza Plateau is also expressed by the meaning of the word ‘Phoenix’, the mythical firebird which burnt on his nest and rose again from his ashes (the image of resurrection of the ancients). The Dutch dictionary of Koenen says that with the Phoenix the Messiah is meant, namely as the Resurrected One. In the Dutch NBG Bible the patriarch Job in 29:18 speaks about the Phoenix – “I shall die in my nest and *I shall multiply my days as the Phoenix*” (Hebrew: ‘chol’). The English Bible (AV) here has ‘as the sand’ (= chol, Phoenix), while the margin of the English Companion Bible (AV) reads – ‘A note in Codex No.1 in King’s Library, British Museum, states that the Western School points this to mean ‘as a phoenix’. The Vulgate reads ‘as a palm’ (of the species Phoenix Dactylifera). Thus this text is among the oldest Messianic prophecies of the Bible. In etymology the Greek word ‘phoenix’ is a transliteration of what the priests of Heliopolis called ‘Pa-Hanok’, which means ‘House’ or ‘City of Enoch’. By this ‘city’ they meant the whole of the Giza Plateau and by that ‘house’ the Great Pyramid. It is the same city as the ‘magic city’ from the Corpus Hermeticum, the Hermetic Texts or books of wisdom translated into Coptic and Greek of Thoth (Hermes in Greek), the Egyptian god of wisdom. In these texts this city, called ‘Monte Lybico’, is identified with the biblical New Jerusalem of Revelation 21,22, writes Robert Bauval in ‘Secret Chamber’. Thoth’s most brilliant student was Imhotep (meaning ‘He who cometh in Peace’), who was a physician (called Asclepius in Latin), astronomer, architect and high priest of Heliopolis. In Judaic and Arabian traditions he is identified with the compound biblical Enoch/Noah, named by the Chaldean priest Berossus as ‘Sisithrus’ and by Manetho as ‘Tosortos’, he identifying this name with pharaoh Zoser or Djoser, the builder of the step-pyramid at Saqqara as designed by Imhotep.

The City of Enoch and the Holy City - So in effect Job says – “...and *I shall multiply my days as the City of Enoch*”. Well, this is exactly what the Pyramids of Giza have done. Hence the Arabic saying - ‘Man fears time, time fears the Pyramids’. Already for some 4600 years they have multiplied their days and shall continue to do so into the future, as at one time they just as the Phoenix, the Messiah, will be ‘*resurrected*’. That is, will be restored, re-built even to a greater splendour than they had in ancient

times. To our perception this indeed the Bible speaks about, be it again in a concealed way, in Isaiah 19:21 – “And the Lord shall be known to Egypt, and the Egyptians shall know the Lord *in that day*, and shall do sacrifice and oblation; *yea they shall vow a vow unto the Lord, and perform it*”. What might this vow, this solemn oath be? That, following their deliverance from their oppressors by a God-sent Saviour, a Great One, so the Messiah (Is.19:20), they will solemnly vow Him to rebuild and restore the Plateau of Giza to new splendour... Imagine this! But what will be the purpose of this future renovation project? To be an “*altar of witness (1) and a sign* (Hebr. ‘oth’, not surprisingly the same word is used for the signs of the Zodiac - ‘othoth’, from ‘athah’: ‘to come’) *to the Lord in the midst of the land of Egypt and a pillar* (Hebr. ‘matsebhad’ - ‘lofty monument’) *at the border thereof*”, so the border of Upper- and Lower Egypt, as well as the border with the Lybian desert, Is.19:19,20. Thus Giza (meaning ‘border’) will again be the terrestrial reflection for the then-living mankind not only of Orion’s Belt, the centre of the celestial Duat, the cosmic kingdom of the Messiah, but of *God’s promises* concerning the heavenly New Jerusalem, the Holy City itself (Rev.21:1-5). When the rebuilding of Giza will take place, then this will occur during the building phase of the Millennial Kingdom, shortly after the Lord’s second coming, in the same time that the huge ‘millennium temple’ of Ezekiel 40-48 will be built on Mount Zion (which will be much larger than at present, Zech.14). For the whole duration of the Kingdom the New Jerusalem will remain ‘above’, in heaven, because not until the new heaven and new earth have come into being (Rev.21:1), the New Jerusalem will descend onto the new (renewed) earth as the apostle John saw it. So in the preceding time of the Age of Aquarius of some 2160 years, the sabbatical month of the great cosmic year, as a ‘pre-fulfilment’ the Pyramids will act as the terrestrial image, the foreshadowing of the reality and promises concerning the Holy City, the City of God above, thus in effect being the ‘scale model’ of the City (2) just as they were in ancient times.

For instance in Abram’s time. From Genesis 12:10-20 we know he, while meeting the pharaoh (vs.18), as a nomad had sojourned in Egypt because of a famine in Canaan (about 1900 BC during the twelfth dynasty). So it must be pretty certain he at one time has viewed the Pyramids of Giza in the splendour they still must have had in those days. Now, Hebrews 11:10 in the basic text reads – “For he (Abram)

'longed for' (Gr. 'ekdechomai') *the city which hath the foundations* ('tous themelious'), whose builder ('techniteis') and maker ('deimiourgos', so 'Demiurge') is God". In verse 13 we read that he and all the witnesses of faith mentioned in that chapter have not received the promises, but have seen them only 'afar off' ('porroothen', 'from afar'). And in verse 16 we read that God "hath prepared for them (basic text:) *the City*". So when Abram viewed the splendour of the Pyramids of Giza, the City of Enoch, his forefather, *from nearby*, most probably at that very moment God in a vision has shown him the Holy City 'from afar'. Verse 9 states that he longed for that City 'by faith', of which verse 1 gives the definition – "Now *faith* ('pistes') *is the substance* ('hupostasis') *of things hoped for, the evidence* ('elenchos') *of things not seen*" ('blepoo', which verb expresses the power of seeing, to observe accurately and with desire as used for mental vision). So when applied to the City, this definition of faith exactly represents that what God showed him from afar, thus vaguely, and what generated his hope and desire when he saw the terrestrial portrayal, 'the substance, the evidence' of it from nearby – *the Pyramids of Giza*. This implies that the New Jerusalem, the "better, heavenly country" (vs.16) must be of the same pyramidal shape as Giza and, as singled out, the Great Pyramid. And didn't the pharaoh himself believe that the kingdom of Osiris above, the celestial Duat, the stars of Orion's Belt, was 'the better, heavenly country'? But this goes farther than the Hermetic dictum of 'as (the stars) above, so (the earth) below'. In fact it as a true Christian credo is the ultimate fulfilment of it as it reaches beyond the stars into Heaven itself.

Numbers in Scripture - Hence we read in Revelation 21:16 that the City's "*length, width and height are equal*", as with a pyramid. This is related to the significance of the four perfect numbers in Scripture – 3, 7, 10 and 12, says Dr. Bullinger (see chapter 1) in his book 'Number in Scripture'. He writes: "In Daniel 8:13 we read – Then I heard one saint speaking, and another saint said unto that certain saint which spake: How long (to what length of time) shall be the vision concerning the daily sacrifice, and the transgression of desolation?", etc. (in the Jewish yet to build third temple, gkm) **(3)**. Here a revelation of a certain future prophetic event was made to Daniel (see Dan.9:27, Matt. 24:15, 2Thess.2:4, Rev.13:14,15, gkm) by a certain saint or holy one, i.e. a holy angel; and another angel (Gabriel, vs.16) asked a question concerning *numbers* – "How long?" The name of that certain saint is given in the Hebrew and is placed in the margin, with its meaning. His name is 'PALMONI', and it means "*the numberer of secrets, or the wonderful numberer*". So there is at least one holy angel whose function has to do with *numbers*. Therefore, numbers and their secrets hold an important place in the words as well in the works of God. A "wonderful numberer" ('Palmoni') presides over them, and has his place in making known the things of God". We would add that, when reading the next verses 14-19, it becomes rather clear that this 'wonderful numberer' is Christ Himself in His preincarnation ('christophany') as 'the Angel of the Lord' of the Old Testament, revealing that the 'how long' would last for "two thousand and three hundred (2300) days" (vs.14), i.e. about 6.4 biblical years of 360 days each. That is, most of the last remaining, still future week of 7 years of Daniel's '70 prophetic weeks' (9:24, 27). Then, in biblical numerology the number 3 depicts '*the perfect compound unity*', or '*trinity*', just as three straight lines of equal length when connected to each other form a geometrical figure in the shape of an equilateral triangle. In a three-dimensional sense: *a tetrahedron, a Pyramid* **(4)**. Within this pyramid-body is its centre of gravity – the Divine Equilibrium, i.e. the Divinity all-sufficient in Itself, Who is also the Creator of all things emanating from the Equilibrium. So it is the Divine Trinity 'plus

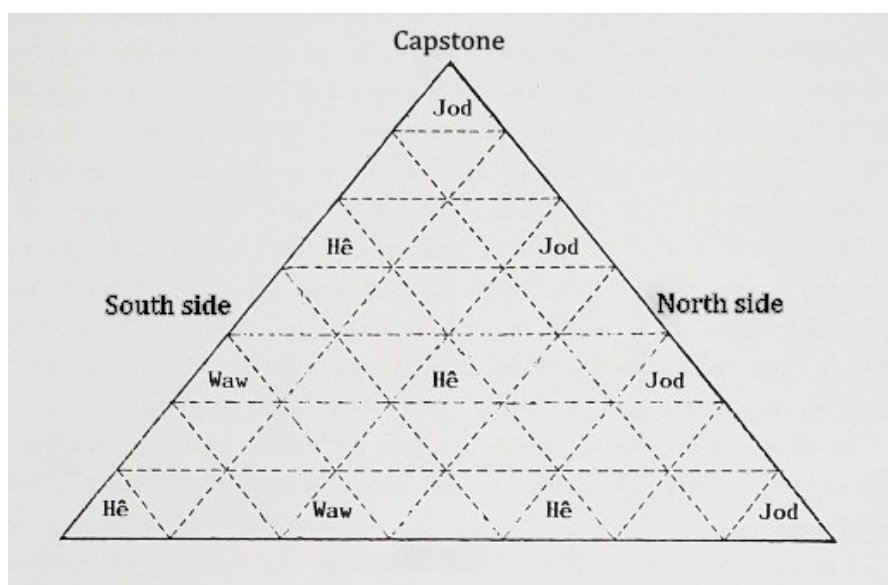

one' - Creation, making 'four', as depicted by the Pyramid's base square. This is the number of Creation and of the Earth, as also depicted by the four faces or facets of the Pyramid from which the Equilibrium emanates creative energy, as well as through its apex (5). Thus the product of 'three' and 'four' is 'twelve', which in Scripture is the highest perfect number. Therefore the Pyramid as depicting 'Divinity' and 'Creation' is the perfect architectural form and of divine origin, as the Divine Trinity is also the perfect compound Unity – Father, Son and Holy Spirit. This is the reason why already from the very first verse in the Bible God is called 'Elohim', a 'plural of majesty' for God, the Trinity, as the Creator, and not meaning 'gods' as 'lower supernatural beings', as if these would have 'seeded' the earth with 'panspermia', as the late Zecharia Sitchin asserts in his wrong translations of biblical Hebrew and Mesopotamian clay tablets.

At Giza 3 large pyramids are situated, as well as (originally) 7 small satellite-pyramids, and together these make 10, respectively the second and third perfect number. In numerology the number 7 represents '*spiritual perfection*', the number of the Holy Spirit and His works in Creation. Enoch as the spiritual father of Pa-Hanok, the City of Enoch, was '*the seventh patriarch*' from Adam (Gen.5, Jude vs.14) who "walked with God" and "was translated ('metatitheimi', from 'metathesis' – 'translation') that he should not see death, for God took him" (Gen.5:24, Hebr.11:5). In the Judaic Cabbala he is called 'Metatron', the 'Translated One', or as derived from the Greek 'metatronos' - 'one who stands after or behind the throne', the throne of God. Thus Enoch became the 'Prince of the Worlds', i.e. of the cabbalistic second and third worlds – the 'Beri'ah', the 'World of Creation', and the 'Yetshirah', the 'World of Design'. As the Great Pyramid is pre-eminently the 'Monument of Creation' and of 'Design', then this is a strong indication it was Enoch who designed her according to God's instructions. When transferred to a higher reality, a higher dimension, he became the first human dweller of the New Jerusalem above (the second and third were Moses and Elijah, Luke 9:30,31), which again is a strong indication he indeed was the spiritual father of Giza. Already for years archaeologists are in search of the 'tomb of Imhotep'. If it is correct that Thoth/Imhotep were the same as the compound Enoch/Noah, then they will never find it or it would be the 'tomb of Noah', though not in Egypt.

Now, the number 10 denotes '*ordinal perfection*', or '*perfection of planning, placing and arrangement*'. It is a new first after the ninth digit and thus a new counting. So it also stands for a '*new beginning, a new world order*'. Noah was '*the tenth patriarch*' from Adam (Gen.5), and the one who

after the Flood entered a new world order (Hebrew: 'olam', Greek: 'aioonos', as so often erroneously translated by 'eternity'), the same we still live in. Again a strong indication it was he who was the supervisor of building at Giza. At the same time it is the ordinal of 'fullness of development'. Indeed, Giza represents the ultimate in architectural development, the pinnacle of structural engineering, but most of all in the number 10 it conveys a promise, the promise – "Behold, I make all things new", Rev.21:5, as seen by the coming of new world orders: the Messianic Kingdom, the 'resurrection' of Giza and the *New Jerusalem*. The fourth and highest perfect number 12 then is that of the New Jerusalem itself, in the description of which 6 times ('the ordinal of man' because he will become the dweller of it) the number 12 is mentioned. It stands for 'perfection of rule' or 'governmental perfection', both in the heavens and on earth. There are 12 patriarchs, 12 tribes of Israel and 12 apostles (who shall all rule in the Kingdom), 12 signs of the Zodiac, 12 months in the year and 12 'months' in the great cosmic year. So again 6 times 12 = 72, being the most important 'precessional number'. In Egyptian mythology it is the 'number of Osiris' and in Gematria the number of the name 'YHWH', the Tetragrammaton. Because the words 'Tetragrammaton' and 'tetrahedron' depict the number 4 (tetra = four, the 4 letters of 'YHWH' and the 4 sides of the Great Pyramid), both represent this number in relation to the Earth and mankind, and this name of God especially in a covenant relationship with the people of Israel. The 4-letter-word of God has its origin in Ex.3:14, when the Israelites asked Moses what God's name was – "And God (Elohim, the plural word denoting the Divine Trinity) said to Moses, "I Am Who I Am" (Hebr. 'ehyeh asher ehyeh')..."thus you shall say to the children of Israel, 'I Am' has sent me to you". And what do we read in the Gospel of John about Jesus saying of Himself? - 'I Am (Gr.'egoo eimi') the resurrection and the life', John 11:25, and 'I Am the way, the truth and the life', John 14:6; He stating in John 10:30 - 'I and the Father are One', so the One of Moses. Before, the name of God was known as the 'Shem (= 'name') ha'meforash', consisting of 216 letters (72 x 3), according to Ex.14:19-21, where each of the 3 verses contains 72 letters in Hebrew. The name 'YHWH' is also depicted in the shape of the Great Pyramid – the 'Pyramid of the Tetragrammaton', when reading the

letters in Hebrew as usual from the right to the left – When applying the numeric value of each letter: Yod = 10, He = 5, Waw = 6, He = 5, we get 10 + 5 + 6 + 5 = 26. Added to this is the value of the sum

of the letters: Yod = 10, Yod + He = 15, Yod + He + Waw = 21, thus getting $10 + 15 + 21 = 46$. Then $26 + 46 = 72$, the value of the name YHWH, the Tetragrammaton. Note that the complete 4-letter-name is only in the pyramid's base and its south side, while its north side, pointing to the celestial North, has 4 Yod's = $4 \times 10 = 40$. This number in Scripture denotes 'trial, test and ordeal'. The Flood was 40 days on the earth (Gen.7); the Israelites were 40 years in the desert (Numb.14:34); Saul, David and Solomon each reigned 40 years. The Lord was 40 days in the desert, being tempted by Satan (Matt.4:2, Luke 4:2), one of whose celestial symbols is the constellation of Draco, the Dragon, close to the celestial North Pole. Hence Jeremiah 1:14 reads – "Out of the north calamity shall break forth on all the inhabitants of the land". Hence Isaiah 14:13 reads of Satan saying – "I will ascend into the heavens, I will exalt my throne above the stars of God: I will sit also upon the mount of the congregation, in *the sides (i.e. 'recesses') of the north*". With the 'mount of the congregation' far in the heavenly North the 'Divine assembly of judgment' is meant, the Divine Counsel, where Satan still seems to have his place, Job 1:6 and 2:1. And with what a misery and grief did he strike Job with God's approval to test his faithfulness, Job only saying – "The Lord gave and the Lord has taken away; blessed be the name of the Lord. In all this, Job did not sin nor charge God with wrong", 1:21, 22.

Then there are the base and the south side of the Pyramid, containing the full name of YHWH. As to the base it simply means that YHWH as being the Architect, its Designer, is the Pyramid's foundation as constructed on the granite bedrock of the Giza Plateau, a "sure foundation", Is.28:16. The south side of the Pyramid is pointing to the celestial South, in which hemisphere are the constellations of Leo, Orion, Aquarius, Cygnus and Pegasus and Sirius the Morning Star. As we saw before, they all represent the Glory of the Son of God, the Messiah, as depicted by the numeric value of the Yod = 10, the He = 5 and the Waw = 6. These numbers deal with God's Grace (Greek 'charis', a multiple of 5) to mankind (as denoted by the number 6), promising them 'to make all things new' as depicted by the number 10. So this is also the value of the Yod in the top of the pyramid of YHWH - its capstone. As the Great Pyramid is missing its capstone already for millennia, then this Yod means that it at its 'resurrection', its rebuilding to completeness, surely will get its capstone at last (see chapters 10 and 12).

It is to be noted that nowadays the Giza Plateau doesn't count 10 but 9 *pyramids*. This is due to the fact that in the course of time the only satellite of the central pyramid of Khafra has completely vanished from the scene. We believe this is not 'coincidental' as the number 9 and its factors and multiples in biblical numerology also have a spiritual meaning, representing '*ordeal and (finality of) judgment*'. It is 3 x 3, the product of divine completeness and is seen in all cases when judgment and ordeal is the subject, also in pagan mythology. (By the way, the number 11 stands for '*disorder; disorganisation*', so '*chaos*', hence '*nine-eleven*'). The Ennead of the Egyptian pantheon knew nine godheads, Osiris as the ninth being slaughtered by Seth, he thus becoming the god of the dead and of judgment of the dead, while Horus as Seth's opponent was the tenth. Abraham was 99 (= 9 x 11) when he and all males in his household underwent the ordeal of circumcision (Gen.17:24-27) and his wife Sarah was 90 (= 9 x 10) when she in her woes gave birth to Isaac (Gen.17:17), the number 10 denoting a 'new birth and a new beginning'.

But what is the meaning of the number 9 in relation to the Pyramids of Giza? Well, look at them! Though still very impressive, they have totally lost their original beauty as their splendidly polished casings in the course of time have been 'removed' as most Egyptologists say. They haven't been removed, as they have lost their casings by the ordeal of the devastating earthquake of the year 1301 AD, which caused these to hurl down the core bodies like avalanches (Khafra's pyramid still possessing the uppermost part of its casing), and when Cairo for a large part was also destroyed. It was not until then that these stones were removed for the rebuilding of the city's mosques and palaces. Since then the pyramids are in a deplorable state of nakedness which is also of a spiritual meaning. Though having withstood the tests of time and continuing to do so, they nowadays are not more than

intact ruins. In other words, they as the 'cornerstones of the earth' are representative for the deplorable state mankind and its planet are in - spiritually, physically, socially, materially, climatologically, ecologically and geo-physically. The pyramids teach us by illustration how God is beholding us, beholding them and beholding our planet, namely as ruins, as being naked. As He says by the prophet Nahum - "I will show the nations *thy nakedness*, and the kingdoms *thy shame*", 3:5. As Adam said - "I was afraid because I was *naked*", Gen.3:10, i.e. he and Eve had lost their 'aureole of splendour' (just as

the Pyramids). Hence Satan had to deceive Eve by transforming ('shape-shifting' - μετασχηματίζω - 'metaschematizoo') himself into 'an angel of light' (εἰς ἄγγελος φωτός - 'eis angelos phootos', Hebr. 'nachash'- 'the shining one'); yes, he had to 'shape-shift' from the reptile that he is into an 'angel of light' to impress her (Gen.3:1,13; 2Cor.11:3,14). Also, Christ says in Rev.3:17 to the church of Laodicea – “Thou knowest not that thou art wretched, and miserable, and poor, and blind, and naked”. This is the Figure of Polysyndeton, the ‘many ands’, which puts emphasis on every single word, thus demonstrating the seriousness of the situation. So let’s profess – ‘Mea Culpa’. And as God says by the prophet Hosea in 2:3 about the adulterous Israel (as *the* role model, and let’s move now to the very location of Giza) – “Lest *I strip her naked*’ (as happened in 1301), and set her in the day that she was born (when Giza was built and still was not ‘clad’) and *make her as a wilderness, and set her like a dry land*’ and slay her with thirst”. (It is known in prehistory Giza was flooded with rainwater from the melting of the ice caps of the last Ice Age, it in the course of millennia gradually becoming a desert as part of the Sahara). Here again the Figure of Polysyndeton. Therefore, both Giza and mankind as well as the Earth itself *‘need to be reborn, to be resurrected’*, which will happen in the future at and following the second coming of the Lord Jesus Christ the Messiah, *the Aquarius*.

(1) Not to be confused with an altar of sacrifice. In Joshua 22:10 and 34 is talk of an altar of witness built by the Israelites and “great to look at”. They called it “Ed”, i.e. ‘a witness’, “for it shall be a witness between us that the Lord is God”. This is exactly the Great Pyramid will be when rebuilt – a witness to mankind that the Lord is God.

(2) The Great Pyramid being the City’s scale model at the scale of 1:7200, which is a ‘precessional number’, while $6 \times 7200 = 43,200$ (also a precessional number, being 20×2160), the Great Pyramid’s scale as to the Earth. So the City’s scale as to the Earth is 1: 6. This can be derived from the City’s measures as given in Revelation 21:16.

(3) This third Jewish temple is the one that the Illuminati, especially the Rothschild’s, are eager to have it rebuilt, calling it the ‘rebuilt temple of Solomon’. Quasi so-called ‘for the worship of God’, thus misleading the orthodox Jews, but in reality for the Illuminati Antichrist “that he sits as God in the temple of God, showing himself that he is God”, 2Thess.2:4. It is said that all materials for building this temple are stored already for years in underground vaults in the Negev desert, as paid by the Rothschild bankers (the world’s richest), who also are the landlords of much of the country. The waiting is only for the Al Aqza mosque and Dome of the Rock to be destroyed, what surely will happen – “It shall happen in that day that I will make Jerusalem a very heavy stone for all peoples; all who would heave it away will surely be cut in pieces”, Zech.12:3.

(4) As in the ensign of the State of Israel – they falsely considering it as the ‘Star of David’, also known as ‘Shield of David’ (Hebr. ‘Magen David’) and as the ‘Seal of Solomon’. God Himself was David’s Shield (2Sam.22:3), though not in the shape of this hexagon, as it is mentioned in Act 7:43 as 'the star of Israel's idol god Remphan', like also in Amos 5:26. We better consider this six-pointed star as depicting two intertwined equilateral pyramids – the Great Pyramid and its ‘Benben’ or capstone ‘coming down from heaven to earth’ (see chapters 10 and 12). This hexagon is also the symbol of the ‘House of Rothschild’ (= 'red shield'), they using it purely as an occult symbol, like when conjuring demons. Many originally biblical symbols were and still are corrupted and perverted by the ancient Pagans and Neo-Pagans and occultists of today. Like the pyramid with its 'floating' capstone with in it 'the Eye of Providence' on the Great Seal of the USA, surrounded by the Latin aphorism 'Annuit Coeptis - Novus Ordo Seclorum': 'Year of Conception - the New World Order'. So that of the founding of the USA, the 'New Atlantis' (as 16th century occultist Sir Francis Bacon already called it), as controlled by the Masonic elite since its conception. Providence, so Adonai Yahweh, will soon destroy it by worldwide and cosmic cataclysms as mentioned in the Book of Revelation. The only New World Order Providence will conceive is that of His beloved Son, the Messiah. Though more Christians and Jews are living in the USA than anywhere in the world, it is secretly ruled by Satanists, its presidents being their puppets. The Illuminati are not intending to do anything good to the Christians and Jews, on the contrary, the Federal Emergency Management Agency (FEMA) already has built concentration camps for them, to be occupied as soon as the next stage of the New World Order is introduced...

Author William Struse on his website as well as in his novel 'The 13th Enumeration' claims this seal was designed by Charles Thomson, the secretary of the first US Continental Congress in 1774. Struse says Thomson after resigning from this office, was the first one who translated the Septuagint into English, and who wrote the first American English translation of the New Testament. That may be true but, how come that Thomson as a member of his 'Junta' club also was a lifelong associate of Benjamin Franklin, one of the most fanatically occult of high Freemasons/Illuminati among the 'Founding Fathers'? All of them, except George Washington later in his life, rejected the authority of the Lord Jesus Christ; some secretly and some, like Thomas Paine and Thomas Jefferson openly ('Jefferson Bible'...what 'Bible?'), they being outright blasphemers. We only need to read the thoroughly researched books of British author David Icke and American Christian author Thomas Horn to become aware of that. Though a high Freemason, Washington in the last 30 years of his life never attended a Masonic Lodge anymore. Instead he let himself being baptized by one of his captains at the First Baptist Church in New York. But he also was a slave owner and has sired several illegitimate children with them. Not a few black Americans are descendants of the Founding Fathers! Anyhow, at least from 1933 onwards (and maybe already from the days of the Jesuit Adam Weishaupt) the Illuminati use this same seal as their 'Pyramid of Manipulation' (see chapt.3) with the 'Eye of Lucifer' in the floating capstone, as part of their manipulation of mankind, especially Americans, to usher in the satanic New World Order of the Antichrist. It is not coincidental that the Illuminati (by that name) and the USA were both founded in the same year 1776.

(5) This may also be understood literally as strange forces are operating in the Great Pyramid: Planes and helicopters are warned not to fly low over its top because of forces operating through the top platform. In 1968 a helicopter crash-landed at the Pyramid’s base while taking pictures and the cockpit instruments suddenly went astray.

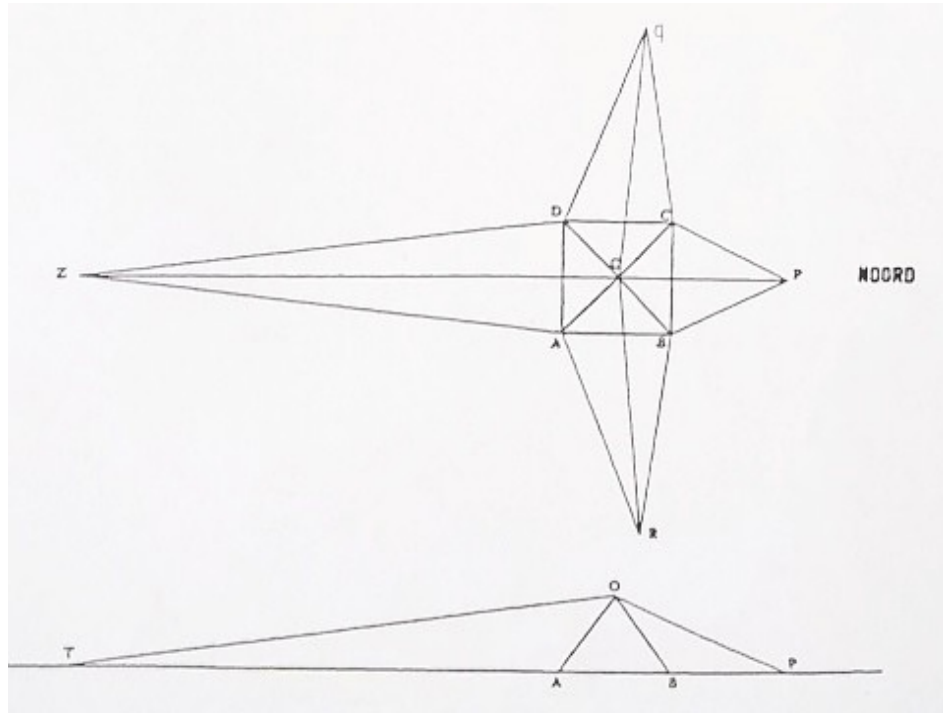

5. PURA-MIDOS – LIGHTS-MEASURES

Let us turn now to chapter 38 of the book of Job, God speaking to him and asking him many rhetoric questions about theology, architecture, earth sciences, meteorology, astronomy (Orion, Pleiades and Arcturus named), physics and biology in the form of a lecture (with a touch of jest in it) in the style of the Figure of Erotesis or interrogation, and to which Job as an erudite man knew the answers. Then in this lecture six verses exclusively deal with the Great Pyramid in its relation to sacred astronomy, the earth and mankind. Apart from being “*the corner stone*” of the earth (vs.6) it in its internal corridor system and chambers contains “*the gates of death and the doors (gates) of the shadow of death*” (vs.17). In verse 19 and 20 God asks Job –”Where is the way where ‘*light dwells*’ (it should read: “Where is the way ‘*to the place*’ where light dwells”, Figure of Ellipsis). The Dutch NBG Bible is still more explicit – “Where is the way to (the place of) *the dwelling of light*” (i.e. the Great Pyramid in its original outward appearance, see below) and (AV) “as for *darkness*, where is *the place* thereof, that thou should take it to *the bound* thereof, and that thou should know *the paths to THE HOUSE* thereof? Knowest thou it (Job knew!), because *thou wast then born*? Or because the number of thy days is great?” (He became 210 or 7 x 30 years, i.e. 7 *Egyptian Sed-periods of 30 years each*), vs. 21. And then the at first sight enigmatic words of vs.24 – “By what way is the light parted’, which scatters the east wind upon the earth?” This must be the sun’s light, which warms the air masses above the earth, by which the winds come into being. The Dutch NBG Bible reads – “Where is the way to ‘*the place where the light is divided*’, from where the east wind is spread on the earth”. So it is a place on earth, in the Near East, not somewhere in the Cosmos.

Tabernacle for the Sun - These texts are related to Psalm 19:4 – “Their (namely the stars’) line (Hebr. ‘measuring line’, most manuscripts read ‘voice’) is gone out through all the earth and their words (teachings) to the end of the world. In them (the stars and the world) He hath set ‘*a tabernacle (or house) for the sun*’”. The latter is to be interpreted in a dual way. In the first place, with the stars here the 12 constellations of the Zodiac are meant, which in the course of both a year and a great cosmic year function as the respective ‘*houses or tabernacles*’ in which the sun ‘dwells’ while on its path of the ecliptic (this idea being familiar to astrologists). In the time of King David, the psalmist, it was the age of Aries, the Ram, so this constellation is meant here. The other interpretation, related to the first, is the following – For ‘the world’ in “to the end of the world” the Hebrew has the word ‘tebel’, which is ‘*the civilized world*’, being equivalent to the Greek biblical word οἰκουμένη – ‘oikoumenei’ (Rev.3:10) – the world of the civilisations in the Near East in David’s time (ca.1025 BC), including Egypt. So this ‘tabernacle for the sun’ is also in the civilised world of the earth in the Near East, and is related to the ‘tabernacles’, the constellations in the sky. Then, when reading the following below, it becomes clear that with this tabernacle the Great Pyramid is meant. In her internal system she is the ‘house of darkness’ and of ‘the shadow of death’ as no single ray of light can penetrate her interior, as well as of ‘the light’ in her original outward appearance. Thus the Plateau of Giza as a *necropolis* with the many mastaba tombs within its bounds and the Great Pyramid referred to as ‘the place, the house’, are in total compliance with these texts, as well as with the *contents of the Egyptian Book of the Dead* (as of *Adamic origin*, see chapt.7) and *Job knew this*.

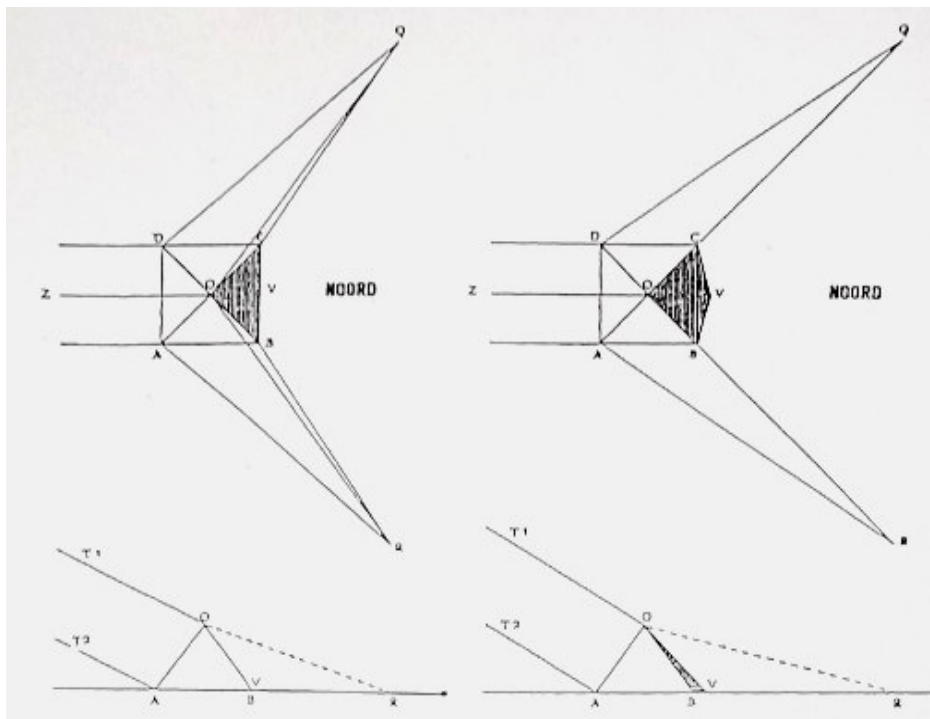

Static bundles of Light - Then in what way did the Great Pyramid manifest itself as ‘the dwelling of light’ and as ‘the tabernacle for the sun’? This leads us back to the original etymological interpretation

of the compound word '*pura-midos*' as first used by Herodotus in his writings. It is derived from the original Hebrew-Chaldean words '*(P)urim-Middin*', i.e. '*Lights-Measures*'. As known, in Antiquity the Pyramid was covered with its magnificent, smoothly polished casing of white limestone from the quarries of Tura and Masara on the eastern Nile banks, thus as a mirror perfectly reflecting the sun's rays. In the summertime each day at noon when the powerful desert sun was in its zenith, so on the (Pyramid's) meridian due south when in azimuth its rays perpendicularly hit the southern wall, suddenly for a few minutes from all four of her sides, visible pyramidal bundles of white static light were emitted, the bundle from the southern side facing the sun being the most intense and the longest, about one mile, while that of the northern side was the shortest, about 230 metres.

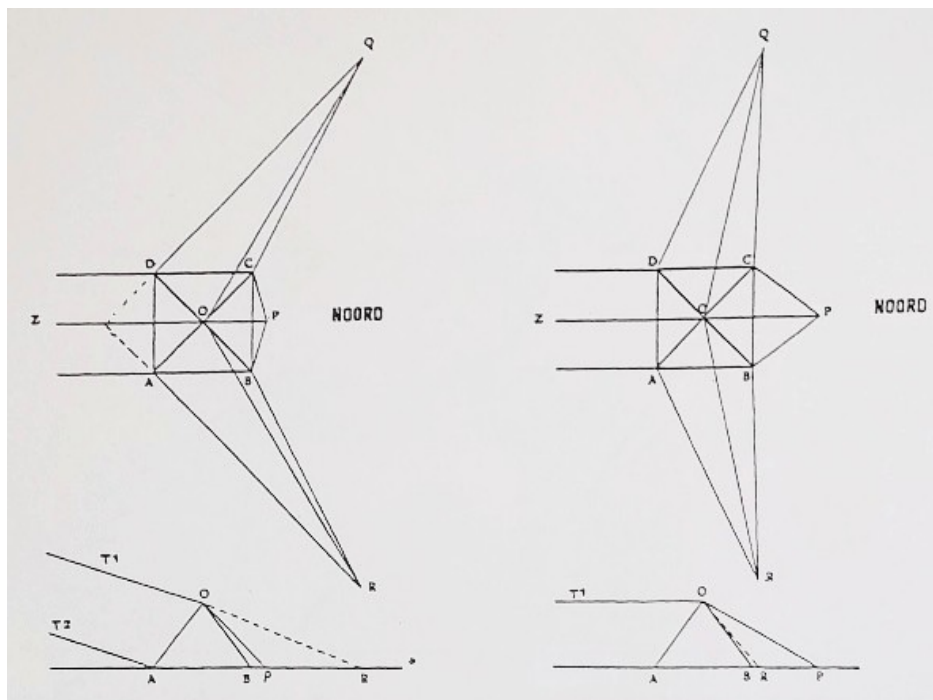

The Pyramid's light-reflection during the summer solstice. North is at right.

In the wintertime each day at noon the same happened, except for the northern side, which due to the sun's low position from 14 October till 28 February was in the shadow. During the summer the bundles were directed towards the surface and during the winter towards the sky, the reflection angles being dependent on the sun's elevation when in its zenith. While at the beginning and at the end of the summer quarter on 6 May and 8 August respectively, the bundle of the southern wall was parallel with the surface. During the vernal and autumnal equinoxes the bundles of the western and eastern sides were exactly directed towards the northwest and northeast respectively. On 11 January at noon, when the south side was hit by the sun's light perpendicularly, both in azimuth and elevation, it directly reflected its bundle back to the sun, while on that day the shadow of the northern side, pointing to the celestial north of the constellation of Draco was at its longest, which phenomena are of a spiritual meaning. Namely that Jesus Christ the Messiah, the Light of the World (Matt. 5:14, John 8:12: "I am the light of the world – ego eimi to phos tou kosmou") was and still is repelled by Jew and Gentile. Who rejects God's Light will walk in darkness and in the shadow of death (Job 38:17, 1Peter 2:4). But "he who follows Me shall not walk in darkness, but have the light of life", John 8:12. Just this is

depicted by the Pyramid's reflections during the summertime, when even its north side, though pointing to the constellation of Draco (Thuban), emits a bundle of reflected light. How is that possible? Because the Dragon then has become powerless. The world at large still is in the spiritual darkness of the wintertime, as depicted by the longest shadow of the north side on 11 January. But in the summertime it

is in the sun's light because the sun then is in its upper culmination points in the sky. In this way the Pyramid prophetically depicts the astronomical summer of the Messianic Kingdom on earth, the 'sabbatical millennium' of the Age of Aquarius, when Satan, the great Dragon, has been cast into the abyss, the bottomless pit, "so that he should deceive the nations no more till the thousand years were finished", Rev.20:1-3, and mankind can walk in the Light of the "Sun of Righteousness", Malachi 4:2.

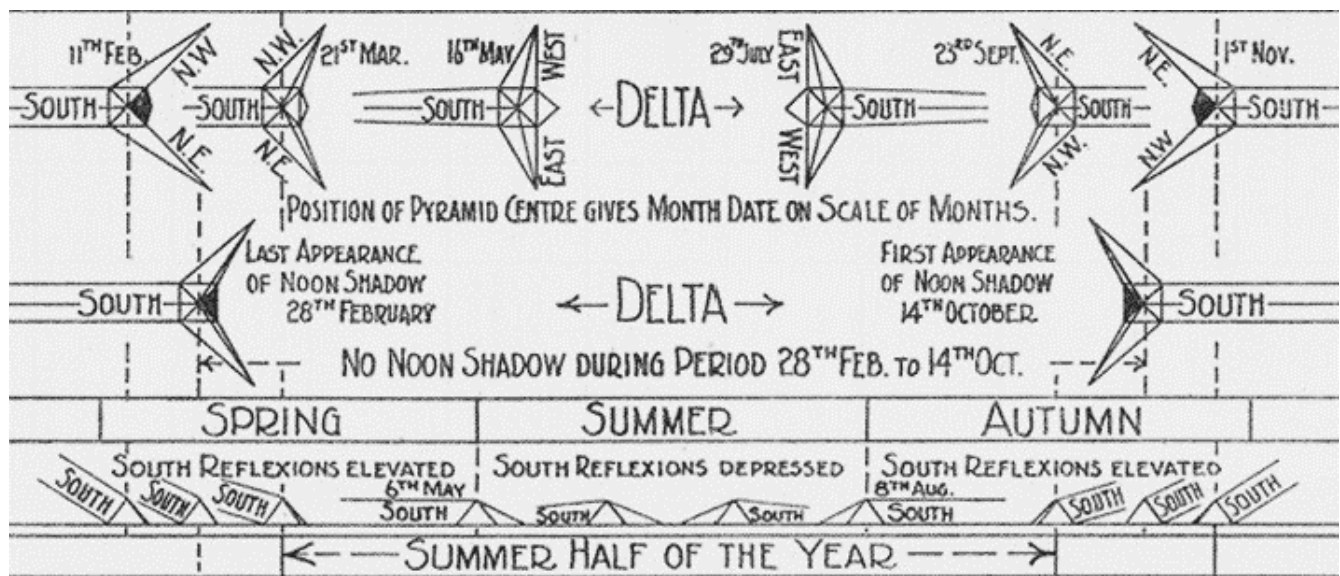

In the winter the Pyramid's south reflection is directed to the sky, and no human is living there (than only a few astronauts in the International Space Station), and on 11 January even repelled back to its source, the sun. But in the summer all its reflections are directed to the earth's surface, the habitat of mankind - a prophetic reference to the millennial Kingdom as well as to the heavenly Jerusalem, in the Divine Light of which the nations once will walk forever, Rev.21:23, 24. In this remarkable way the Pyramid combines and integrates astronomical and physical laws with spiritual and divine truths.

The reflection on 11 January, the bundle of the south side back to the sun; the longest north shadow of the year. 'The Light of the World repelled'.

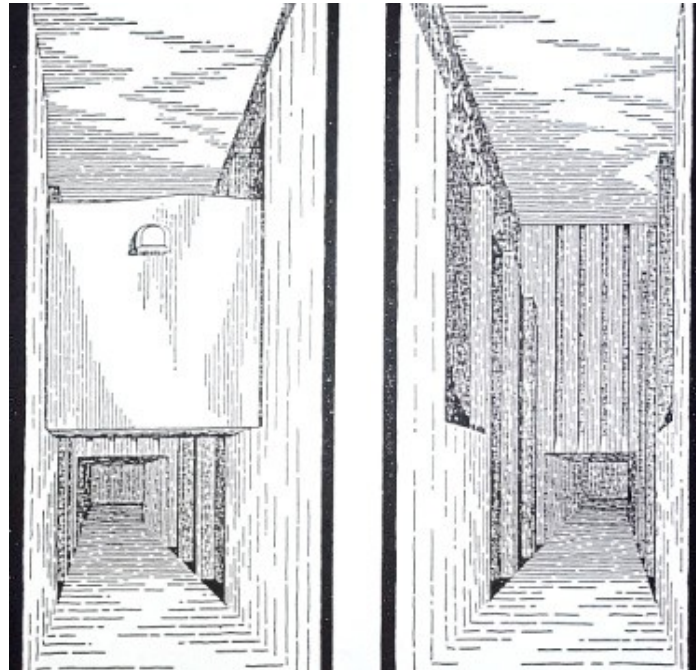

Giant Sundial - Then, from one and other it appears that the Pyramid is exactly oriented to the four points of the compass (1) and in this way acted as a giant sundial and as the ultimate and only ‘real fata morgana’, and knew the Egyptian farmers when to sow and when to reap. One thing is certain, it must have been an amazing, unearthly, awe-inspiring sight. Hence the now no longer enigmatic words of Job 38:24 – “Where is the way to *the place where the light is parted?*” Namely as with a prism, because that is the proper shape of a pyramid: a prism, a crystal, a diamond. It is pure physics this bible text is dealing with. No wonder she in the Bible is called ‘the dwelling of light’ and ‘the tabernacle for the sun’. No wonder the Egyptians called her ‘*Ta Khuti-The Lights*’. For that matter, it might be possible that the two other pyramids exhibited the same phenomena, though in a lesser way, as they too are oriented to the four quarters, but less accurately, while the slopes of their sides are of slightly different angles. But if so, then Giza might have been the literal terrestrial reflection of the stars of Orion’s Belt and those of Cygnus, while in the future when rebuilt they will be so for certain. To some readers all this may sound rather unlikely, but there is historical evidence regarding this phenomenon. During the First World War the units of the British Army in Egypt communicated with each other via Morse-signals by means of heliographs, transmitting bundles of white light which at daytime were clearly visible by others. So when such a small instrument was able to produce this phenomenon, how much the more so the giant and brightly white, polished walls of the Great Pyramid.

Original drawing of the Pyramid's reflections by David Davidson.

The sacred Cubit and Granite Slab - As to the ‘measures’ in the word ‘pura-midos’, this relates to the Pyramid’s exact dimensions as a scale model of the earth as measured in pyramid-inches. From this inch the sacred Hebrew cubit is derived (is 63.56950 cm, is exactly 25 P-inches). The P-inch is virtually equal to the British inch (1P-inch = 1.0011 British inch = 2.54278 cm, 1 British inch being 2.53999 cm). Now, *the length of the earth’s polar axis measures 20 million sacred Hebrew cubits, which is equal to “12,713.9 kilometres as measured by modern satellites”* writes Robert Bauval (2). So then the length of the polar axis also equals *500 million pyramid-inches*. The length of the earth’s polar axis is the only constant factor as to the dimensions of our planet (3). Therefore it is incorrect that the length of Newton’s sacred Hebrew cubit, as well as the P-inch, would still be ‘in dispute’.

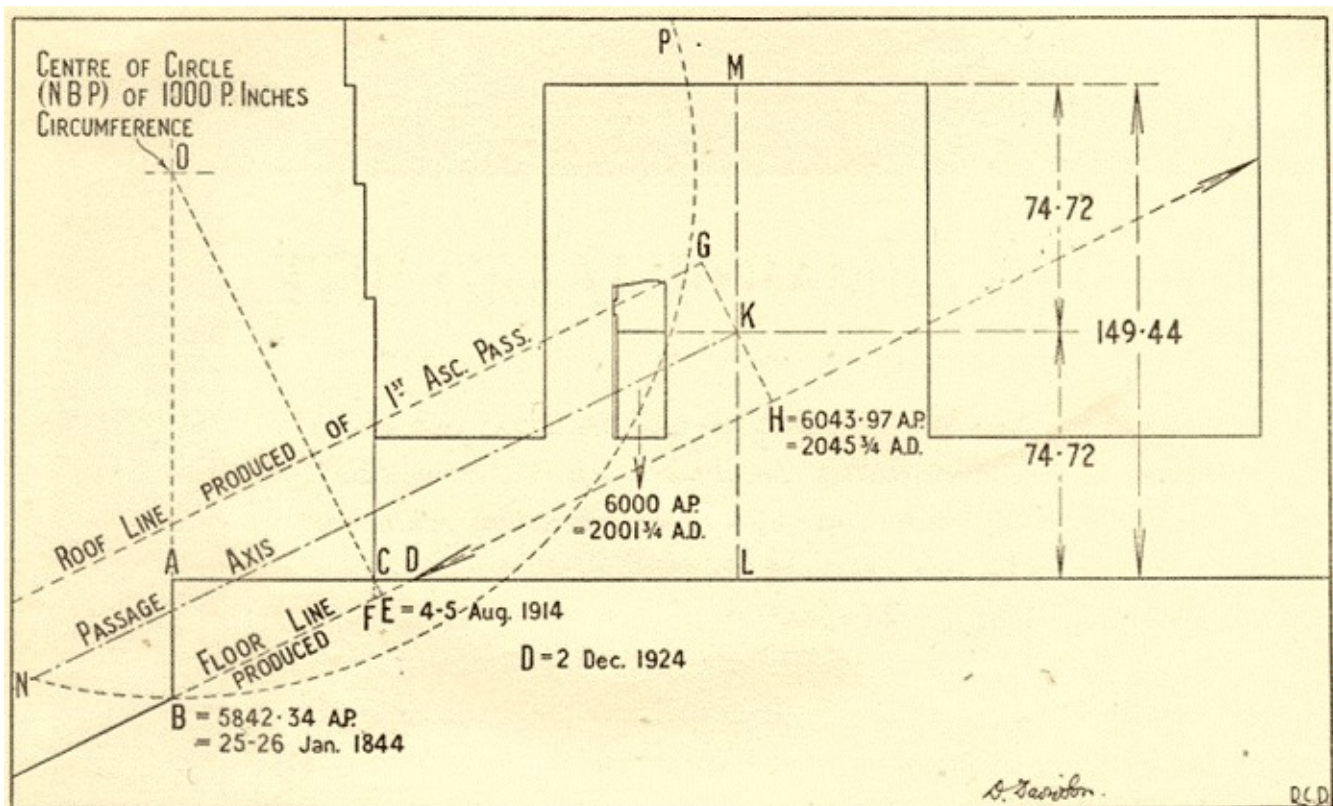

The P-inch was discovered in 1865 within the Great Pyramid by the afore-mentioned Prof. Piazzzi Smyth (who was dismissed by his Masonic fellow academics of the Royal Society of Scotland, as he was convinced the Great Pyramid conveyed a Messianic message). It is carved out and polished with great accuracy in the shape of a horseshoe, a boss, on a stele, the so-called ‘Granite Slab’ or ‘Leaf’. This slab is situated in the Pyramid’s Ante-Chamber, preceding the King’s Chamber. When entering the Ante-Chamber in a stooped posture via the small and narrow passageway leading to the King’s Chamber, the visitor has already passed underneath the Slab as it is suspended in its wainscots in a hid-

den way within 50 cm’s from the northern wall of the Ante-Chamber. So he will not notice it, eager as he is to view the King’s Chamber while being unaware of its great importance (many people often lack a sense of ‘situational awareness’) (4), as it in its dimensions also contains the true length of the sacred Hebrew cubit of 25 P-inches. For it were both the P-inch and this cubit which were *the standard unit-measures of the Adamic civilisation* as given to Adam from the hands of God and which later (via Noah) were inherited by the Hebrews. As this is a matter of belief, one may accept or reject this, though it is very acceptable in this context. The Hebrews were only allowed to use this cubit for the construction of sacred buildings like the Tabernacle and Temple and for the making of sacred objects like the Ark of the Covenant. The Ark’s volume exactly equalled the volume of the ‘sarcophagus’ or ‘Open Tomb’ (as the Book of the Dead says) in the King’s Chamber (image of ‘resurrection’, not only of ‘death’), both amounting 40 ephah’s, the ephah being their cubic measure for dry goods (Ex.16:36, Zech.5:6-11, etc., 40 ephah’s equalling about 11.6 hectolitres).

From Ezekiel 40:5 we know how the sacred cubit was put together. He in a vision is shown the huge ‘millennium temple’ of the Messianic Kingdom, of which all inward and outward dimensions are measured in such a great detail that an architect while using a CAD (Computer Aided Design) program would have little difficulty in making a plan of it. Then we read – “In the man’s hand (was) a measuring reed of six cubits long *by the cubit and a hand breadth*”. The Dutch Bible reads “*of a*

common cubit and a hand breadth". So it is the common cubit which is meant here, plus the width of a man's hand. The common cubit measured about 53 centimetres (a man's forearm including his hand) and a hand breadth about 10.6 centimetres, making about 63.6 centimetres rounded up or 63.56950 centimetres more accurately. Because the P-inch and sacred (Hebrew) cubit were first used in the design of the Great Pyramid (see later in chapt.7 and 9), this monument too *is a sacred building in a biblical sense*. Not now as an intact ruin and because it has been defiled, but in the future when rebuilt. The same applies to the Earth itself when created, but in the course of history has been defiled too, as Isaiah 24:5 reads – "The earth also is defiled under the inhabitants thereof; because they have transgressed the laws (the Divine laws), changed the ordinance, broken the everlasting covenant". Which is 'the Noahite covenant' (Gen.9:16, the Hebrew reads "the covenant of the olam", i.e. the world order existent from the Flood up to the present and of which the sign is the rainbow, Gen 9:13-17). The earth was created as being sacred, with the intent to be inhabited by intelligent beings "in the image and likeness of God" (Gen.1:26, 5:1, Is.45:18) and thus as *unique*. So it turns out that the Earth's correct dimensions were known to the Adamic patriarchs, they in one way or another having measured her, or God having given them her dimensions and units of measure in order to be able to design her scale model and build it on the Plateau of Giza.

Drawing by David Davidson of the Ante-Chamber with suspended in it the Granite Slab with its boss depicting the P-inch. Note that the end of the Pyramid's historical timescale at the autumnal equinox of 2001 AD is directly under the Slab on the extended floor line of the Grand Gallery. This floor line also marks the end of the Pyramid's astronomical timescale 44 years later - the autumnal equinox 2045 AD.

(1) Azimuth of the North-South base side is 359 degrees, 57 min, 00 sec; that of the East-West base side is 89 degrees, 57 min, 48 sec. This is unbelievably accurate for such a large building.

(2) The correctness of the length of the polar axis of 12,713.9 kilometers can easily be verified by simply multiplying the length of the sacred cubit by 2, and the length of the P-inch by 5. In both cases the result is 12,713.9.

(3) The British astronomer John Herschel preferred the Earth's polar axis as the only constant factor in defining her dimensions, thereby using the 'geometrical inch'. The 'metre' on the other hand is derived from the meridian over the Great Pyramid's apex as introduced by the Masonic French scientists accompanying Napoleon's Egyptian Expedition in 1798. This prime meridian (as a complete circle over the poles) was defined by them as having a length of about 40 million metres. The Earth's meridians however are not of a constant length as the Earth is not a perfect sphere but a 'spheroid', prone to fractional deformation caused by the gravity of the sun, moon and planets, which is the cause of the phenomenon of precession. If the Earth would be a perfect sphere, there would be no precession. When beholding the Giza pyramids, to his companions Napoleon spoke the memorable words: 'Forty centuries are looking down upon you!' He as a Freemason himself spent one night sleeping in the 'sarcophagus' in the Great Pyramid's King's Chamber.

(4) Like the fact that though the whole Pyramid is built of limestone, the area's of the Ante-Chamber and King's Chamber, including the Granite Slab, the 'sarcophagus' and the floor of the narrow passageway leading to them are all made of granite, which is much heavier and harder than limestone, so much more difficult to handle. This is to depict that chronologically and prophetically we are now living in very important and difficult times, the times of the 'Plane of Revelation' at the level of the Pyramid's 'precession perimeter', the highest level at which man can walk in the Pyramid (and remember, the stars have now arrived at their highest precessional points in the sky since 26,000 years). It is the Ante-Chamber where the historical and astronomical time-scales of the Pyramid come to an end, see David Davidson's diagram above. So the Ante-Chamber depicts the time of the end of this world order, while the King's Chamber depicts the new world order of the Messianic Kingdom. Hence it is all made of 'everlasting' granite.

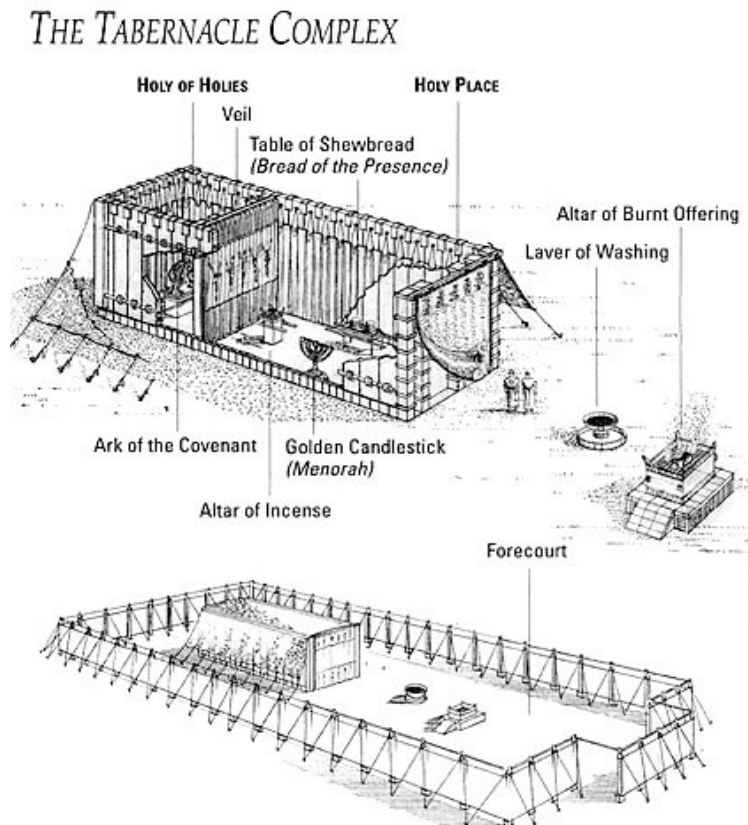

That the historical time-scale ended in 2001, but the astronomical time-scale will end in 2045, means that the fulfillment of end-time prophecies will become more and more *astronomically defined*. Like the very rare 'Blood Moon Tetrad' of 2014–2015 as pictured above. These Blood Moons all occur on the 1st day of the Jewish feasts of Passover and Tabernacles, which means that prophecies will soon be fulfilled concerning Judah and Israel, these Blood Moons being bad omens, dire warnings to infidels. They will also be the last 'Jewish' Blood Moons of this century, i.e. *the last before the Second Coming of the Lord* and therefore very important: "The sun shall be turned into darkness and the moon into blood, *before* the coming of the great and awesome Day of the Lord", Joel 2:31, Acts 2:20, Rev.6:12.

6. GIZA AND THE WORLD-AGES

The apostle Paul (I believe, though no author is mentioned) in his magnificent epistle to the Hebrews, chapter 9 verse 1, writes about a ‘worldly sanctuary’, with which he means the tabernacle of Moses. In the basic text it literally says ‘the sanctuary, a worldly’ (or earthly) - τὸ ἅγιον κοσμικόν – ‘to hagian kosmikon’, that is, the tabernacle and Solomon’s temple as sacred buildings for the worship of God, were in a certain relationship with the world, the cosmos, and this is also the case with the Plateau of Giza, especially the Great Pyramid, as we already saw before. The tabernacle, temple and Great Pyramid, as well as the yet to be built ‘millennium temple’ of the Messianic Kingdom, are a portrayal of the world, the cosmos and the world-ages in more than one aspect, as follows –

1. The world-ages; the length
2. The concentric arrangement of things, the breadth
3. The spiritual ascent, the height.
4. The mystical rapprochement, the depth

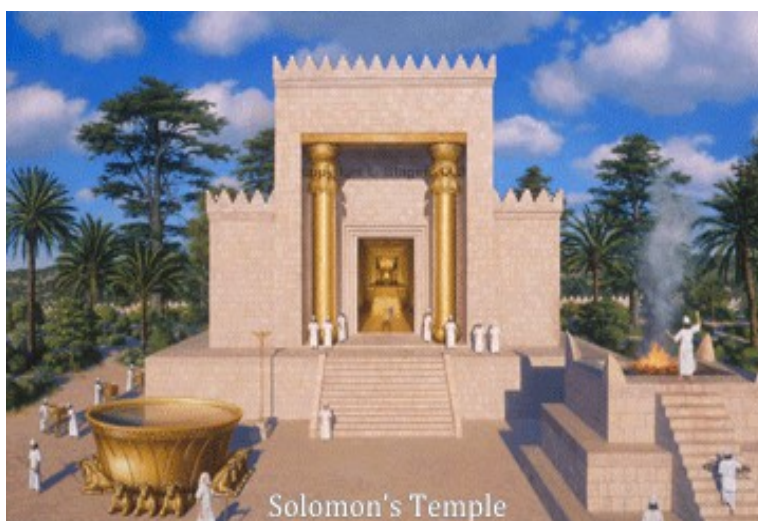

In this, these ‘worldly, earthly sanctuaries’ are a fore-shadow, an earthly copy modelled after “the greater and more perfect tabernacle, not made with hands, that is, not of this creation” (Hebr.9:11), with which the heavenly tabernacle of the New Jerusalem is meant (12:22). It is the Lord Jesus Christ who is the High Priest (“according to the order of Melchizedek”, the priest-king of the earthly Salem, the later Jerusalem, Gen.14:18-21, Hebr.5:6,10, 6:20, Hebr.7) and man’s Mediator (8:6, 9:15, 12:24) of this heavenly tabernacle, “who offered Himself as a perfect sacrifice for once before God with His own blood, to put away sin by the sacrifice of Himself unto salvation” (9:24-26, 28). Hallelujah!

God's Plan of the Ages - Now that the Great Pyramid, even the whole of the Giza Plateau were designed as being sacred in a biblical sense and are in a specific relationship with the world, the cosmos, is further revealed by what the apostle Paul writes in Eph.3:11 about God's "eternal purpose which He purposed in Christ Jesus our Lord". What exactly is meant with this 'eternal purpose'? We can only know by reading it in the Greek basic text, where it says *πρόθεσις τῶν αἰώνων* – '*prothesis toon aioonoon*', literally meaning 'purpose' or '*plan of the ages*'. It is God's all-comprising Plan for the salvation of mankind that He is working out in His Son the Lord Jesus Christ through *five ages* or world orders, *at the end of the third* of which we're still living in. But why *five* ages? Because Moses' tabernacle, Solomon's and Zerubbabel's temples, Ezekiel's future temple of the Kingdom, the New Jerusalem and also the Plateau of Giza were/are all modelled after God's Plan of the five Ages - The heavenly and earthly tabernacle, the temple as well as Giza depict these five ages in five sequential, chronological time-spaces -

1. Since Creation - the World - the 1st Age - the anointed Cherub > Satan
2. The Encampment - the Giza Plateau - the 2nd Age - Adamic patriarchs, the Flood
3. The Forecourt - the 3d Pyramid - the 3d Age - the present evil Age (Galat.1:4)
4. The Holy - the 2nd Pyramid - the 4th Age - the Messianic Kingdom
5. The Holy of Holies - the Great Pyramid - the 5th Age - the New Jerusalem

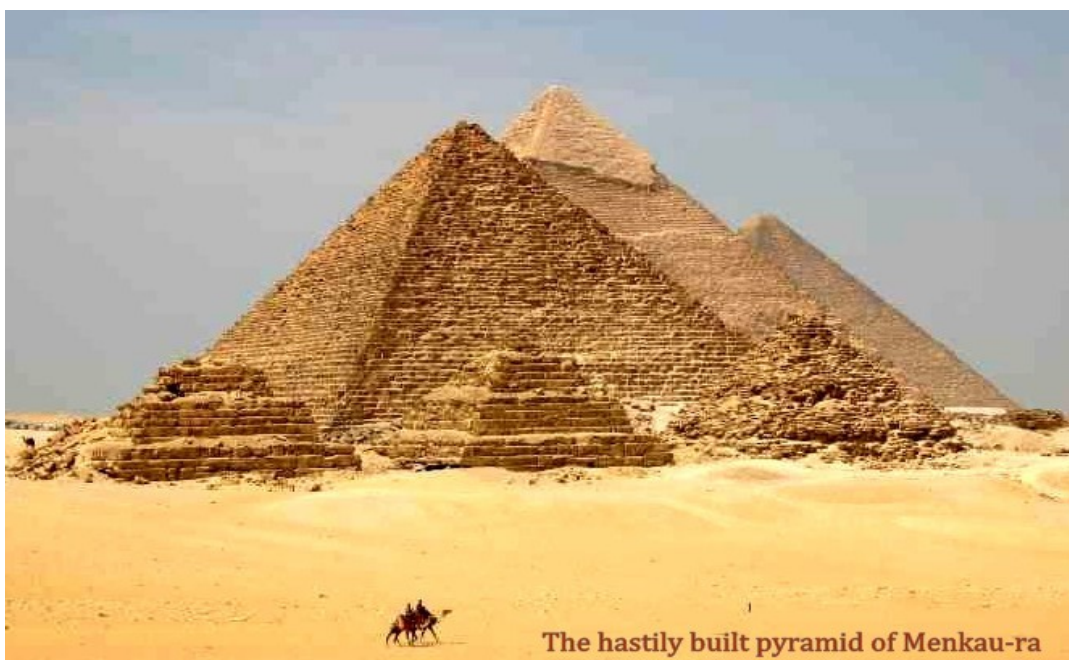

Here we see already that the Great Pyramid when rebuilt indeed will be the terrestrial reflection of the New Jerusalem, the heavenly tabernacle, the City of God in Heaven, descending onto the renewed earth at the beginning of the last age (Rev.21). A clue as to why we currently still live in the third age or world order is what King Solomon writes in Ecclesiastes 1:10 – "Is there anything of which it may be said, 'See, this is new?' It has already been in ancient times before us". For 'in ancient times before us' the Hebrew reads '*in the olamim* before us'. The Hebrew plural 'olamim' is from the singular 'olam' as derived from the verb 'alam' - 'to hide'; so the 'olamim' are the 'hidden ages' of God's Plan of the Ages. It is the equivalent of the Greek plural 'aioonoon', so also meaning 'ages' or 'world orders'. As also Solomon lived in the third world order or 'olam', this means that with these 'olamim' not more than

two ages are meant - the first and the second. Likewise, when Paul in Eph.3:9 and Col.1:26 in the basic text writes ἀπὸ τῶν αἰώνων – ‘apo toon aionoon’, i.e. ‘from the ages’, these same first two ages are meant. Because God’s Plan of Salvation counts five ages, there are still two to come – those of the Messianic Kingdom and the New Jerusalem.

This present evil age - But why is the present third age called ‘evil’? Because Jesus says 3 times of Satan that he is “*the prince of this world*” – ὁ ἄρχων τοῦ κόσμου τούτου – ‘ho archoon tou kosmou toutou’, literally - ‘the ruler of the world, this one’, John 12:31, 14:30, 16:11. As the Jewish Rabbis say that he is the ‘Sar ha Olam’ – the ‘prince of the age’, ‘the angel’ they say, ‘into whose hands the whole world is delivered’ (1). As also Paul says in 2Cor.4:4 that he is “the god of the age, this one” – ὁ θεὸς τοῦ αἰῶνος τούτου – ‘ho theos tou aionos toutou’. And in Galatians 1:4 he writes – “...our Lord Jesus Christ, who gave Himself for our sins, that He might deliver us from *this present evil world*”. It literally says ‘from the age, the present, the evil one’ – ἐκ τοῦ αἰῶνος τοῦ ἐνεστώτος πονηροῦ – ‘ek tou aionos tou enestootos poneirou’. In Eph.6:11,12, Paul gives us further insight into the nature of evilness of the current age when he writes – “Put on the whole armor (πανοπλία – ‘panoplia’) of God, that you may be able to stand against the wiles (‘the methods – τὰς μεθοδείας – tas methodeias’) of the devil - τοῦ διαβόλου – ‘tou diabolou’. For we do not wrestle against flesh and blood, but against principalities (ἀρχή– ‘archei’), against powers (ἐξουσία – ‘exousia’), against the rulers (κοσμοκράτορ – ‘kosmokrator’ – ‘world-rulers’) of the darkness of this age, against spiritual hosts (πνευματικὰ – ‘pneumatika’) of wickedness (πονηρία – ‘poneiria’) in the heavenlies (ἐν τοῖς ἐπουρανίοις – ‘en tois epouraniois’)”. So these all are Satan’s angelic hosts who with him rule the world of this evil age, and many of them rule over specific countries, as we read in Daniel 10:13, 20 and 21 about the ‘prince (Hebr. ‘sar’, from ‘sarar’, ‘to rule’) of the kingdom of Persia’ and the ‘prince of Grecia’. These are not human rulers, but evil angelic rulers, as the angel who spoke to Daniel told him he had to fight with the ‘prince of Persia’ for no less than 21 days before he was able to meet Daniel, and after that would have to fight with him again (2), as well as with the ‘prince of Grecia’, while only being assisted by the archangel Michael, the ‘prince of the people of Israel’, Dan.12:1, so that he could prevail. Already for aeons wars are going on in the heavens between the powers of good and evil, and all what is happening on earth are projections of that. This will culminate in what we read in Rev.12:7-9, where it says that the dragon and his angels eventually will be cast down to earth by Michael and his angels (3). So God has His angelic hosts (Hebr. ‘Sebaoth’, Is.1:9, Rom.9:29, James 5:4) and Satan has them, those of God being called ‘stratia ouranios’ – στρατιᾶ οὐρανίος – ‘heavenly hosts’, Luke 2:13, while His soldier-angels are called στρατηγοὶ – ‘strateigoi’. Note that this evil age where bloodshed, wars, idolatry, worldliness, wickedness and death reign supreme (again, because Satan is its ruler), is the age in which the Son of God shed His blood on the Cross for our sins. Note also that this evil age is depicted by the 3d pyramid of Menkau-ra, the smallest and the only one of the three large Giza pyramids that was hastily built as a tomb of a pharaoh. Partly even with brick stone instead of natural stone, because Menkau-ra had already died before this pyramid was finished. Therefore it is less well-built than the other two pyramids and less durable, standing offset, so out of harmony with the two other pyramids as typifying the peace and order of the two coming spiritually higher world-ages (the ‘aeonic Sabbath’ and ‘aeonic Sunday’), while situated the farthest away from the life-giving river Nile (the Great Pyramid

standing the closest to the Nile; Rev.22:1,2), thus aptly symbolizing the present chaotic, evil age. This the more so, as the three large Giza pyramids are symbolic for the three crosses on Golgotha, writes American bible scholar Helena Lehman in her remarkable, extremely elaborate book-series 'The Language of God' - the Lord's Cross in the midst as typified by the pyramid of Khafra (4), the two other pyramids typifying those of the two robbers who were crucified at the left and right side of Him, Luke 23:39-43. In this way the Great Pyramid represents the repenting robber who was promised by Jesus he would be with Him in Paradise, while the pyramid of Menkau-ra represents the unrepenting robber who blasphemed Him, so being 'out of harmony' with the Lord and the other robber. Just as this evil age with its masses of unrepenting people, Rev.9:20,21, 16:9,11, is 'out of harmony' with the two coming holy world-ages.

The Khazars - This age is called 'evil', not only because Satan is its ruler, also because it is the age of the 'times of the gentiles' (καιροὶ ἐθνῶν – 'kairoi ethnoon') when Israel got 'out of the picture' for a very long time, but now has come into the picture again as one of the most important signs that this age is coming to its end "until the times of the gentiles be fulfilled", Luke 21:24. This is to denote also that most so-called 'Jews' living in Israel today are no 'Jews' at all, but gentiles in the sense that they are *not* of Abraham's descent and at best are 'proselytes'. Jewry consists of three main factions – the Sephardim, mostly orthodox Jews in America, from Western Europe, Spain and Portugal, and the Oriental Jews, both considered as real progeny of Abraham; and the Ashkenazim from Eastern Europe, whose ancestors were Ashkenaz and Togarmah, grandsons of Noah's son Japheth (Gen.10:3), so not even Semites. These Ashkenazi mostly are liberal or secular 'Jews' that form the bulk of the Zionist Israeli nation. The eminent author Arthur Koestler, himself an Ashkenazi, in his book 'The Thirteenth Tribe', states that the Ashkenazim are the former 'Khazars', ethnic Turks, according to the Encyclopedia Judaica probably descending from Atilla the Hun (434-453), infamous for his cruelty. In the seventh century they founded a kingdom – Khazaria – between the Black- and Caspian Seas. In 740

AD, following advice from Christian bishops, Jewish rabbis and Islamic imams, they as pagans chose to ‘convert’ to Judaism to form a political/religious buffer between the Christian Byzantine Empire and the Islamic Caliphate of Baghdad, as well as against the primitive pagan Barbarians of the central and eastern European steppes. The modern Khazars of today are Russian and Polish ‘Jews’ who migrated not only to Israel, also to America and Canada where, according to American author Alex Christopher, they as part of the Illuminati are already in control of the US and Canadian Governments. So they as members of the ‘thirteenth tribe’, according to biblical numerology are the representatives of ‘unbelief, apostasy, rebellion, defection’ etc. And they, the modern Khazars, she says, are the Zionist ‘Jews’ of today, who via the UN have founded the Zionist State of Israel that has the support of most evangelical Christians (5)(6). The president of Israel today, Shimon Peres, is a Polish Ashkenazi, educated by Polish Jesuits, so not even in Judaism. And, just as in the western world, many Israeli top-politicians are high Freemasons, like also the late Yitzak Rabin was and current prime-minister Benjamin Netanyahu is and...their arch-enemies Saddam Hussein and Yasser Arafat were...It’s all in the game...Most (ultra-)orthodox and Messianic Jews however, the minority of real Jews, are rejecting the Israeli State, preferring to wait for the Messiah to come; they deserving our support.

As to the ‘10 lost tribes’ of Israel, they are the Anglo-Saxons (= ‘sons of Isaac’) of Western Europe, America, Canada, Australia and New Zealand, altogether comprising some 650 million people, most of whom today are also liberal and secular, having lost their identity and through the centuries have become paganized. Therefore in God’s view, since their exile in 722 BC they are gentiles too (except those of them that during the Gospel era have become born-again Christians): ‘Lo-Ammi’ – ‘not His people’ and ‘Lo-Ruhamah’ – ‘not His beloved’, Hosea chapt.1. But in the near future they again will become ‘Ammi’, ‘His people’, and ‘Ruhamah’, ‘His beloved’, when Judah and Israel will be gathered together under one Head: the Messiah, and then shall be called ‘Sons of the living God’ (7).

The tabernacle, temple and Giza are also typical of 5 concentric circles that will be seen when in the coming age of the Messianic Kingdom God again will dwell with born-again Israel –

- | | | |
|-----------------------------------|-------------------------|-------------------------------|
| 1. The Temple | - the Great Pyramid | - the Holy of Holies |
| 2. Jerusalem, ‘the Lord is there’ | - the Giza Plateau | - the Holy (Ezekiel 48:35) |
| 3. The Land of Israel | - Egypt | - the Court (of the Gentiles) |
| 4. The World | - the Near East | - the Encampment |
| 5. The ends of the Earth | - the rest of the World | - Outside the Encampment |

The tabernacle, temple and Great Pyramid also depict 5 ascending spheres -

- | | |
|--------------------------|--|
| 1. The Heaven of heavens | - the Holy of Holies, the Great Pyramid’s King’s Chamber |
| 2. The heavens | - the Holy, the Ante-Chamber of the King’s Chamber |
| 3. The Firmament | - the Court, the Great Pyramid’s ascending Grand Gallery |
| 4. The Earth | - the Encampment, the Great Pyramid’s Queen’s Chamber (Israel) |
| 5. The Grave | - outside the Camp, the Pyramid’s subterranean Chamber (Sheol) |

The Court here is again that of the Gentiles, to whom during the last 2000 years of the current world

order the Gospel of Salvation has been preached, symbolized by the magnificent and spacious ascending Grand Gallery leading to the King's Chamber, thus typifying the Gospel era, the 'dispensation (Gr. οἰκονομία – 'oikonomia', Eph.1:10) **(8)** of God's grace', Acts 20:24 (where it not says 'oikonomia' but διακονία – 'diakonia', i.e. Paul's ministry of preaching the Gospel of Grace).

Finally, the tabernacle, temple and Great Pyramid depict the 5 spheres of rapprochement to and fellowship (Gr. κοινωνία – 'koinoonia') with God -

1. The High Priest, the King's Chamber - Christ the Priest-King > Melchizedek
2. The Priests, the Ante-Chamber - the Sanctified
3. The People of Israel, the Queen's Chamber - the Heirs of Canaan and the Earth
4. The Gentiles, the subterranean Chamber - the spiritually dead, blessed by Israel:
5. Who inhabit the ends of the Earth - to become spiritually born-again

So there are still two ages to come, the age of the Messianic Kingdom on earth, that what the Lord Jesus calls 'the Kingdom of Heaven' (as originated and determined in Heaven but coming with Him to Earth, Gospel of Matthew), and the age of the New Jerusalem on the new Earth.

Poor, inadequate translations - When in the Book of Revelation these two coming world orders are meant, the translation always is "forever and ever" (Rev.1:6, 11:15, 14:11, 20:10, 22:5). This is an incorrect, much too 'liberal' translation, as the reader will get no clue of the significance of the divinely inspired basic text, which reads – εἰς τοὺς αἰῶνας τῶν αἰώνων – 'eis tous aionas toon aioonoon', i.e. 'in the (two future) ages of the (five) ages', the two holy world orders still to come, as typified by the two largest pyramids at Giza. This term is a Hebraism transferred to Greek, like 'the Holy of Holies' (Hebr. 'Kodesh ha-Kodeshim'), with which the most holy place of Israel's tabernacle and temple is meant, there where the Ark of the Covenant was, with the winged "cherubim of glory overshadowing the mercy seat" (Gr. ἱλαστήριον – 'hilasteirion'), Hebr. 9:5. In Eph.3:21 in the King James Bible **(9)** the translators let the apostle say – "Unto Him be glory in the church by Christ Jesus throughout all ages, world without end. Amen". The first half of this sentence is correct, but in the second part - 'throughout all ages, world without end' - the translation is wrong, also because in the basic text there's talk of *generations*, namely all the generations living in the last, most holy age of the New Jerusalem,

where it says in Greek – εἰς πάσας τὰς γενεὰς τοῦ αἰῶνος τῶν αἰώνων – ‘eis pasas tas geneas tou aionos toon aionoon’, i.e. ‘in all the generations of the (last) age of the (five) ages’. Besides, there is no ‘world without end’, it has never existed. World-ages are not ‘forever’ (10) or ‘eternal’, without beginning and end – only God (Elohim) is without beginning and end - but, though lasting a very long time, have a beginning and an end, so are *finite*, hence there are more than one of them, namely five in a sequential, chronological order as we saw. Hence Paul in the basic text of 1Cor.10:11 speaks about ‘the end of the ages’ – τὰ τέλη τῶν αἰώνων – ‘ta telei toon aionoon’, and in Hebr.9:26 about the ‘together-ending (completion) of the ages’ – συντελεία τῶν αἰώνων – ‘sunteleia toon aionoon’, both incorrectly translated into English as ‘the end of the world’. The five ages of God’s Plan of Salvation are each defined by the way how God is dealing with Satan, with mankind and with planet Earth, and except the last world order – that of the most holy age of the New Jerusalem - they end with His *judgment* of Satan and his hosts, of mankind and of the Earth. But always for the spiritual ‘betterment’ of mankind, as Isaiah 26:9 says: “For when Thy judgments are in the earth, the inhabitants of the world will learn righteousness”. Thus the purpose of God’s Plan of the five Ages is that eventually, at long last, mankind will be in perfect harmony and fellowship with Him through His Son the Lord Jesus Christ, through whom, says Hebr.1:2 basic text, He “has prepared the ages” - ἐποίησεν τοὺς αἰῶνας - ‘epoieisen tous aionas’. In biblical numerology the number 5 denotes *Divine Grace*, it is 4, the number of Creation, plus One - God. The Hebrew word for ‘the Earth’ – ‘Ha’arets’ – by Gematria (the addition of the numerical value of the letters together) is a multiple of 4, while ‘Ha’shamayim’ – ‘the Heavens’ – as well as the Greek word for ‘Grace’-‘Charis’, are multiples of 5. This means that by His Grace, at the end of the ages, ‘in the dispensation of the fullness of times’ (Eph.1:10) (11) Heaven and Earth will be one in Christ, so that “God be all in all” – ὁ θεὸς [τὰ] πάντα ἐν πᾶσιν – ‘ho theos (ta) panta en pasin’, 1Cor.15:28, “who works all things according to the counsel of His will”, Eph.1:11, and sin (12), illness and death will be no more, 1Cor.15:54, Rev.21:4.

(2) So obviously this 'prince of Persia' was very angry with what the angel who spoke to Daniel would reveal to him about what would happen to his people in the time of the end. That prince trying to stop him in a long-lasting fight, as he didn't want Daniel as the most important sage at the Persian court to know and write down this prophecy about the Antichrist and his predecessors (including Alexander the Great and Antiochus IV Epiphanes). The same may apply to that 'prince of Grecia'.

(3) Through the whole Bible it appears that the Anointed Cherub who originally covered the throne of God in Heaven with his wings (Ezek.28:14) and by his iniquity and rebellion became Lucifer/Satan, in a cosmic sense by the power of God will be cast down deeper and deeper (Isaiah 14:12-15), until he is no more than a 'heap of ashes on the ground' (Ezek.28:18b). When the Lord said "I saw Satan (Hebr. 'the Adversary') fall like lightning from heaven" (Luke 10:18), He Himself having cast him out in prehistory, Satan became "the prince of the power of the air" (Eph.2:2, Gr. τὸν ἄρχοντα τῆς ἐξουσίας τοῦ ἀέρος - 'ton archonta teis exousias tou aeros'). 'The air' here to be interpreted as a particular sphere above the earth, that what scientists call the 'exosphere' above the 'stratosphere', but including the 'troposphere' and 'stratosphere' of the earth's atmosphere. Then in Revelation 12:7-9 we read that the

Dragon and his angels are cast down to earth by Michael and his angels. Next, just before the beginning of the Lord's Millennial Kingdom, in Rev.20:2,3 it says that the Dragon for a thousand years will be cast into the bottomless pit (Gr. Ἄβυσσος - 'Abussos') by an angel who has the key of it. Then, after he is loosed for a short while and again will "deceive the nations" (vs.7,8, he's unrepentant!), we read the Devil finally will be cast into the "lake of fire and brimstone, where the beast (ὁ θηρίον - 'ho theirion') and the false prophet (ὁ ψευδοπροφήτης - 'ho pseudopropheiteis') are, and they shall be tormented day and night forever and ever" (εἰς τοὺς αἰῶνας τῶν αἰώνων - 'eis tous aionas toon aioonoon' - 'in the ages of the ages', Rev.20:10). But even that is not infinite as we read he ultimately will become "ashes on the earth" (or ground, Ezek.28:18b). So what we see is that Satan will be cast down, humiliated and ultimately be burnt to ashes in 4 separate stages – Heaven > the Air > the Earth > the Abyss > the Lake of Fire.

(4) Though slightly smaller than the Great Pyramid, the middle pyramid of Khafra as typifying the Lord's Cross, is standing the highest-most on the Plateau, topping it off. This is because it was built on somewhat higher ground than the Great Pyramid, just as the Lord's Cross is always depicted as the largest on Golgotha.

(6) Says Pastor Sheldon Emry in his review of Koestler's book - "We cannot stress enough how absolutely imperative it is for all Christian Americans to consider the startling proof in Arthur Koestler's book that today's Jews are not Israelites. The Jewish influence on American life has reached such a stage that no student of contemporary history can ignore it. Not only the news media are Jewish monopolies, but top positions in the U.S. government are largely filled by Eastern European Jews. The magazine and book publishing houses are in Jewish hands; and movies, television, and the other entertainment industries are dominated by Jews in all phases. America's government and most of her people's sources of information are controlled and directed by Jews. If these people were really "God's Chosen People", perhaps Americans would have little cause for concern. *But what if they are really the 'Huns' and therefore the ancient enemies of Christendom?*"

Says Jesus - "I know the blasphemy of those who say they are Jews and are not, but are a synagoge of Satan", Rev. 2:9, 3:9. Like the Rothschild's, who are Ashkenazic 'Jews', while the name of a former commanding General of the Israel Defence Force (IDF) is 'Gabi Ashkenazi', so not a 'son of Abraham'...

(7) This author considers himself of the tribe of Zebulun, of whom his father Jacob/Israel had prophesied – "Zebulun shall dwell at the haven of the sea; and he shall be for an haven of ships; and his border shall be unto Sidon" (an important seaport of the Phoenicians in Jacob's time), Gen.49:13. I was born close to the city of Rotterdam, currently the world's third biggest seaport (from 1962 till 2004 it was the world's biggest, from then surpassed by Shanghai and in 2006 by Singapore, Hong Kong is the fourth). My father was a sailor (after that became a preacher) and since childhood I'm a 'shiplover'. In 2007/08 I published two photo-books, Volume 1 and 2, in Dutch and English versions about the Port of Rotterdam with almost 1000 photo's made by myself. My surname refers to the mast of a ship, as my forefathers were skippers in the Rotterdam region.

(8) From οἶκος – ‘oikos’ = ‘house’, and νόμος – ‘nomos’ = ‘law’, so ‘house law’ = ‘household’: God’s gracious ‘household’ with mankind during the Gospel era we still live in (but not for long anymore).

(9) Of the King James Bible it is said it contains more than 36,000 translation errors, be it unwittingly or deliberately, as it was edited by Sir Francis Bacon, Grand Master of the Order of Rosicrucians, alchemist and occultist, and adviser of Queen Elizabeth I. He has encoded the cipher code of his name 'Bacon', the occult number 33, into the text of the KJ Bible. He was best friends with Dr. John Dee, a spy - the Queen’s astrologer and top-adviser on intelligence, occultist, magician and Rosicrucian.

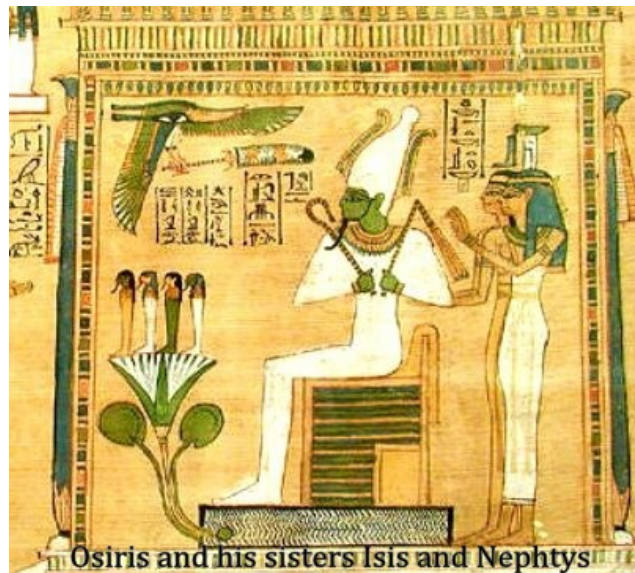

(10) The word 'forever' is unknown in the Scripture, it never occurs, neither in the Hebrew basic text of the Old Testament, nor in the Greek basic text of the New Testament. It is an unbiblical and also an unscientific word that only exists in the human translations of the sacred basic text where it says 'olam' in Hebrew, or 'aionos' in Greek, be it in the singular or in the plural.

(11) Gr. εἰς οἰκονομίαν τοῦ πληρώματος τῶν καιρῶν – ‘eis oikonomian tou pleiroomatos toon kairoon’ (‘seasons’ as parts of ‘chronos’ - ‘time’).

(12) Gr. ἁμαρτία – ‘hamartia’, meaning ‘missing the target, the aim or purpose’ for which God has created us, that is, be in perfect harmony and fellowship with Him. This is impossible for any human as long as we are in our mortal bodies on this earth, except for One – Jesus, as He was the only human without sin, always being in perfect harmony and fellowship with His heavenly Father – “I and My Father are one”, John 10:30.

7. THE CYCLE OF THE PHOENIX

In Egypt all processes related to 'Time' and 'Chronology' by the Heliopolitan priest-astronomers were summarized in a single concept, that of *'the Cycle of the Phoenix'*, and the same was the case within the Adamic civilisation. Enoch, Noah and, as we saw, Job too were familiar with it. In Heliopolis this Cycle was also identified with a 'God-man returning from a strange country after a long time', which idea by the priests was associated with someone called 'Hanok', so Enoch. They knew pretty much about this patriarch and pretty much about the Adamic civilisation as well. There are indications that the Egyptian theocracy already from the earliest times was strongly influenced by the Adamites, particularly since the Messiah-promise of Gen.3:15 and especially by the adoption of certain religious rites. The Egyptologist M. Alexandre Moret for instance in his book 'Gods and Kings in Egypt' writes that in the cult of Osiris 'the rites of the Supper were already performed as a preview to the predicted Passion of the Messiah'. Prof. James H. Breasted in his 'Development of Religion and Thought in Ancient Egypt' states that in Egypt this belief was already in existence a thousand years before the Hebrews got acquainted with it. In the Pyramid Texts in the pyramid of pharaoh Unas (fifth dynasty) and the 'Book of the Dead' (so called by Egyptologists; the Egyptians themselves called it 'The Book of Going Forth By Day') are passages in relation to Osiris which also point in this direction. This Book in exalted religious terms gives a full rendering of the Great Pyramid's internal system, as first described by the Egyptologist W. Marsham Adams in his work 'The Book of the Master' (1898), he describing the internal of the 'Secret House' as the spiritual path in life and afterlife of the devout Egyptian as well as, in a metaphorical sense, of the devout Christian, the devout Jew and of the Messiah Himself, each of them being called 'the initiate'.

The Egyptians believed that Thoth, the god of wisdom, had written the Book of the Dead, but one of the greatest experts on this Book, Sir E.A. Wallis Budge, has stated that it in its original form was not of Egyptian origin, but was "brought to Egypt by a different culture and people; people who were existent prior to the first Egyptian dynasty". It is clear then that those people were of *the Adamic civilization*, the civilization that designed the Great Pyramid and made it to be built. The descriptions

and names given in this Book to the whole internal system of corridors, chambers and objects are in such accordance with biblical concepts, wordings and statements, that it is obvious that Noah brought this Book (possibly written by Seth or Enoch himself) with him when coming to Egypt to turn its words into stone. In later times Egyptian scribes altered it or added chapters to it, so that it became corrupted and paganized, yet the descriptions of the Pyramid's internal system are still the same.

Divine Prerogatives – Now, one of these adopted rites was the Egyptian *Heb Sed feast, which is also of Adamic origin*. The indication is Gen.6:3, which reads – And the Lord said, “My spirit (Hebr. ‘ruach’, the breath of life) shall not always strive with (‘remain in’) man (‘ha-Adham’, the man Adam, singular with article) for that *he also* (just as his descendants) is flesh: yet his days shall be an *hundred and twenty years*”, which are *four Sed-periods of 30 years each*. These 120 years have nothing to do with the number of years before the Flood, but deal with the lifetime of Adam, he becoming 930 (Gen.5:5), so 70 years short of 1000 years, and none of his descendants had reached a lifetime of 1000 years. Why not? Because God had told him that "*in the day* (Hebr. 'beyom') that you eat of the tree of the knowledge of good and evil, you shall surely die" (Hebr.'dying you shall die', Figure of Polypeiton, for emphasis), Gen.2:17. To God 1 day is as a 1000 years and a 1000 years as 1 day, 2Pet.3:8, and all of his descendants, except Enoch, died *within the day* of 1000 years that they were born, as none of them was without sin (Book of Jubilees 4:30)...Adam died 725 years before the biblical Flood, which according to both biblical and Pyramid-chronology occurred *in 2345/44 BC*, 300 years after the building of the Great Pyramid, so much later than most scholars think. As this cataclysm possibly struck the Adamic civilisation only, and though totally devastating as evidenced by the tsunami's in South-Asia and Japan of 2004 and 2011, thus causing its downfall, it possibly was not worldwide, as distinguished from a much earlier worldwide cataclysmic flood in distant prehistory we read about in Gen.1:2 by the rebellion of Lucifer and his angels (see chapt.10). So when Adam was 810, he for another 4 Sed-periods could renew his physical and mental vitality, he at the close of his fourth and last Sed-period would die as God would withdraw His spirit, the breath of life from him. We must take into account that just as the pharaoh's, the Adamic patriarchs were priest-kings and shepherds (like also Job and Abraham) and maybe every 30 years, but certainly every 120 years of their rule they renewed their vitality and with that their office, no matter they would die at long last (except Enoch), as the office was continuous, Noah even carrying it into the new world order after the Flood. As such he, his son Shem and Enoch held a still higher office as they because of ‘walking with God’ and being ‘just and perfect’ (Hebr.'tamim', i.e.‘without blemish’, that is, they and their families were *not affected* by the interbreeding program of the Anunnaki, the fallen ‘sons of God’) were *high-priests in the the order* (Gr.'taxis') *of Melchizedek* (‘King of Righteousness’), priests of God, The Most High (Gen.14:18, Psalm110, Hebr.5:6,10, 6:20;7), *being the office of the Messiah Himself*, they thus possessing the same divine prerogatives and therefore unique. Hence Noah was divinely enabled in ordering Pharaoh Khufu to close down all Egyptian temples without any resistance during the 22 years of building the Great Pyramid; the priests and the people, as recorded by Herodotus, hating and detesting Khufu for that action, yet keeping quiet...as otherwise they knew Noah would have used his prerogative of striking them with a curse (Ex.22:20, Malachi 4:6). Proof that the Pyramid by Divine order was constructed as a *sacred building in a biblical sense* and certainly not as Khufu's tomb or even the ‘Tomb of Osiris’ (see chapter 2), of which Dr. Zahi Hawass had claimed in 2010 he had found and excavated it in the sand, so *not within* the Great Pyramid.

The ultimate Phoenix-Cycle - Now, in Egypt the end of a period of 120 years of four consecutive Sed-periods of 30 years was called the '*Zep Tep Sed feast*', the '*Main Renewal*' of rule of the pharaoh's, no matter these in the meantime had died, as the office was continuous. So here we have a clear linkage with the last 120 years of Adam's lifetime. The pharaoh exhibited his renewed vitality by erecting the Djed-pillar (typifying the 'resurrection of Osiris') and by dancing in front of the goddess Hathor, the goddess of Renewal and Love (also identified with her mother Isis, as 'Hathor' means 'House of

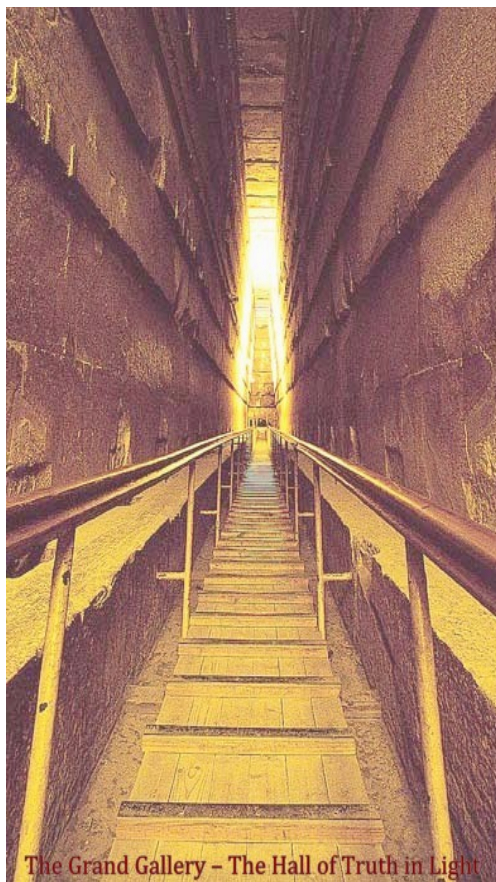

Horus'). Likewise, king David of Israel "danced with all his might" in front of the Ark of the Covenant in the year he was promised his kingdom would last 'forever' (Hebr. 'le-olam', i.e. 'the olam out'), so during the whole of the (current? or coming?) world order, 2Samuel 6:5,14,16; 1Chron.13:8, (1), no matter he would die as in Israel the office of kingship was continuous as well. The ultimate renewal of spiritual and physical vitality we read about is that of the baptism of Jesus in the river Jordan, when "the Holy Ghost descended in a bodily shape like a dove upon Him, and a voice came from heaven, which said (basic text:) "Thou art My Son, the beloved; in Thee (basic text:) I have found delight", Luke 3:22. The next verse tells us that Jesus when He was baptized "began to be about *thirty years of*

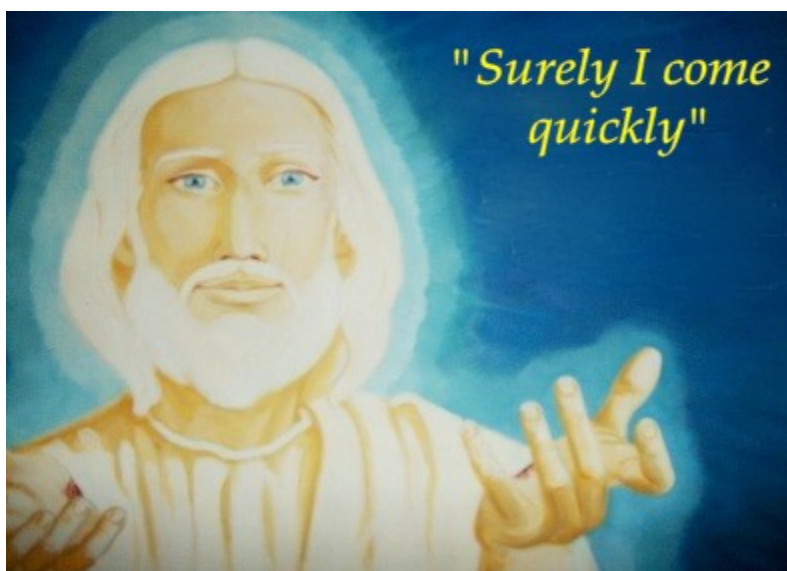

age", so when He began His ministry He was about 30 years of age, as rabbis and priests had to be 30 to begin their office. As birthdays were not celebrated in Israel, so were not that important in one's life,

Luke writes ‘about’ 30 years of age. The Pyramid-chronology however has taught us that Jesus was born on the *fifth of October, 4 BC* (Julian era) during sunset on the opening Sabbath of the first day of the Feast of Tabernacles, or the fifteenth of the Jewish month of Tizri, being *3996,027655 Anno Pyramid*. And also that His baptism took place on the fourth of October in the year 27 AD (Julian era), so exactly one day before His thirtieth birthday (in chronology the ‘year 0’ is not counted). In other words, *His baptism marked the beginning of a new Sed-period of 30 years of renewal*, no matter He would die before, as He did only 2.5 years later, but was resurrected and ascended to Heaven. Thereupon He sent his disciples the Holy Ghost, the Comforter, the Paraclete (Latin ‘advocatus’), so that they could continue his ministry in a hostile world up to the present day. In this way the words of Job 29:18 came in course of partial fulfilment – “*I shall die in my nest (Jerusalem) and multiply my days as the Phoenix*”. That the Pyramid-date of Jesus’ birth is correct, is evidenced by the fact that the Jewish New Year (Rosh Ha-Shanah, ‘Head of the Year’) was on the first of Tizri, Yom Kippur being on the tenth of Tizri. The fifteenth Tizri was on 5 October, the tenth Tizri on 30 September, so the first Tizri was on 21 September. Thus the Jewish year begins at or around the autumnal equinox (with a maximum margin of about four weeks, depending on the first sighting of the new moon crescent), because the Pyramid-chronology begins and ends at the same (see also chapter 8).

To be noted also is that $3996 \text{ Anno Pyramid} (4000 - 4) = 6 \times 666$, six times “the number of (a) man”, the number of ‘the Beast’, Rev.13:18. Now Paul in Galatians 4:4 says that God sent forth His Son when “*the fullness of the time*” had come (τὸ πλήρωμα τοῦ χρόνου - ‘to pleirooma tou chronou’), this fullness being expressed by “six times the number of man”, i.e. man’s evil thoughts and acts, his

opposing to God during those 3996 years. Likewise, Jesus' death, His 'exodos' ('decease', Luke 9:31) is given as to have occurred at *4028,531789 Anno Pyramid*, being the seventh of April 30 AD (Julian era) at 0.50 hours p.m., Friday the fifteenth of the first month of Nisan, after the Passover, analogue to Israel's Exodus on 5 April 1486 BC (Numb.33:3, see chapt.9; His entry into Jerusalem being on Palm Sunday the tenth of Nisan). In the same way the date of His resurrection is obtained – at 03.52 a.m. Easter Sunday 9 April 30 AD (Julian era), being the seventeenth of Nisan, according to John 20:1 basic text a Sabbath also (τῆ δὲ μιᾷ τῶν σαββάτων - 'tei dei mia toon sabbatoon', 'on one of the Sabbaths'). Jewish feasts may have several consecutive Sabbaths one after the other. Within the Pyramid's corridor system the dates of Jesus' death and resurrection chronologically exactly coincide with the point where the claustrophobic ascending passageway - in the Book of the Dead called 'the Hall of *Truth in Darkness*' - suddenly passes into the splendour of the spacious Grand Gallery - 'the Hall of *Truth in Light*'. Which of course is of a spiritual meaning, namely the introduction and continuation of the Gospel age, the preaching of the Gospel of Grace and Salvation of the Christian era till the end of this world order, as based on the Lord's perfect sacrifice, death and resurrection. So the course of Jesus' life from His first coming, His birth, baptism, death, resurrection and ascension, up to His 'return from a strange country after a long time', His second coming, is nothing else than the ultimate expression of '*the Cycle of the Phoenix*', *the Messiah*, as prophesied by Job in Job 29:18.

(The above painting made by the author 42 years ago)

Hosea's Prophecy – Now, when will His second coming surely be? The clue is the remarkable prophecy of Hosea 5:15 and 6:1-3, when, again, we first observe that to God 1 day is as 1000 years and 1000 years as 1 day (Ps.90:4, 2Pet.3:8). We then read first the Lord and then Israel saying: "I will go and return to my place (as happened at His Ascension in 30 AD), till they acknowledge their offence, and seek my face...Come let us return unto the Lord: for He has torn, and He will heal us; He has smitten, and He will bind us up. *After two days* (after 2000 years from 30 AD) will He revive us: *in the third day* (in the 3d millennium from 30 AD) He will raise us up, and we shall live in his sight. Then shall we know, if we follow on to know the Lord: *his going forth is prepared as the morning* (so early in that third day); and *He shall come to us as the rain, as the latter and former rain unto the earth*", so as

the Aquarius. So it is evident that the Lord will return to His repenting people Israel and to a hostile World very soon after the year 2030 AD, early in the 3d millennium after 30 AD, just as His resurrection was *early on the third day*, also a *Sabbath*. Likewise, the resurrection of Israel will be *early in the third day* as well (*the sabbatical or 7th millennium since Adam*).

(1) By consequence, if the current world order was meant here, this would mean his kingdom somewhere would last right up to the Second Coming of the Messiah, the Son of David. His royal bloodline then being represented by the British House of 'Windsor' (an adopted name, they in reality being from the German House of Saxe-Coburg-Gotha), something the gullible 'British-Israel Movement' wrongly asserts. Because the Windsor's as belonging to the occult 'Black Nobility' of Europe, descending from the occult Merovingian kings (around 6th century AD), are high members of the Illuminati (who call themselves 'The Olympians' and 'The Babylonian Brotherhood'). The Queen is an Illuminati Knight Templar of the 'Order of St.John' (as also former Queen Beatrix of the Netherlands), and the head of the secret Illuminati 'Order of the Garter'. Therefore it must be the coming world order that is meant here – the Messianic Kingdom.

In fact, the Windsor's are full-blooded reptilians, disguising themselves as 'humans', as testified by several ex-Illuminati individuals who saw them shape-shifting into reptiles during satanic sacrificial flesh-eating and blood-drinking rituals in Balmoral Castle, Scotland, and the 'Mothers of Darkness Castle' near Brussels, Belgium. People like the American Arizona Wilder (real name Jennifer Greene), one of only three Illuminati 'Mother Goddesses' who for many years has been officiating these rituals at the places mentioned. The same testimony came from Princess Diana herself (though never attending those rituals), when she secretly told her confidante Christine Fitzgerald, a psychotherapist and healer in London, she saw them shape-shifting into reptiles several times during their sleep...And especially during a ritual in early July 1981 at Clarence House (the late Queen Mother's home near Buckingham Palace) she had to attend (also attended by Arizona Wilder), called 'The Awakening of the Bride' as the forthcoming bride of Prince Charles. There she was shown who the Windsor's really were when the Queen Mother and Prince Philip shape-shifted into reptiles, telling her that if she would ever reveal the truth about them, she would be killed. "She was terrified, but quiet", Arizona told David Icke, the author of the book 'The Biggest Secret', in which this story can be read. Part of that ritual was a reptilian penis made of gold and used on Diana, with needle-like protrusions designed to superficially puncture the walls of the vagina and cause bleeding, to signify the 'opening of the womb'. No wonder she suffered from emotional problems and bulimia...having been married into a 'nest of vipers', says Icke. Diana nicknamed the Windsor's as 'lizards' and 'reptiles', telling Christine Fitzgerald in all seriousness - "They are not human!"...In March 1997, six months before she died (many believe she was killed), Diana had asked somebody she trusted for advice on how to reveal information about the Windsor's that 'would shake the world'...The title of David Icke's book 'The Biggest Secret' is derived from a meeting he had with a senior member of British Intelligence, asking him what was the biggest secret held by Intelligence. The man replied that it was that the British Royal Family are shape-shifting reptilians...See - www.bibliotecapleyades.net/biggestsecret/biggestsecretbook/biggestsecret.htm#contents.

8. DANIEL'S PROPHECY OF THE 70 WEEKS

This chapter is dealing with chronological calculations of what some biblical scholars and prophecy teachers consider as the most important prophecy of the Bible - Daniel's prophecy of the '70 weeks', especially in relation to Numbers 29:13, Ezra 6:14, Matth.1:1-16 and 18:21,22. In Daniel 9:24-27 the angel Gabriel proclaimed to him – "*Seventy weeks* are determined for your people and for your holy city, to finish the transgression, to make an end of sins, to make reconciliation for iniquity, to bring in everlasting righteousness, to seal up vision and prophecy, and to anoint the Most Holy. Know therefore and understand, that from the going forth of *the command to restore and build Jerusalem* (namely *the command of Yahweh in 520 BC* and the decrees of Cyrus, Darius Hystaspes and Artaxerxes, kings of Persia, 2Chron.36:22,23; Ezra 6:14) until Messiah the Prince, there shall be *seven weeks and sixty-two weeks*; the street shall be built again, and the wall, even in troublesome times. And *after the sixty-two weeks Messiah shall be cut-off*, but not for Himself; and the people (the Romans) of the prince who is to come (the Roman emperor Titus) shall destroy the city and the sanctuary (as happened in 70 AD), the end of it shall be with a flood, and till the end of the war desolations are determined. Then he (the Antichrist) shall confirm a covenant with many (Jews) *for one week*" (the still future 70th week).

The first 7 weeks = 49 years, the next 62 weeks = 434 years. 7 weeks + 62 weeks = 49 + 434 = 483 years + 1 still future week = 490 years = 70 'sevens' (Hebr. 'shebua').

Numbers 29:13 states that 14 lambs were sacrificed every day during the 7 days of the Feast of Tabernacles (Sukkoth) = 98 lambs, all without blemish. When Isaiah 53:7 says – "He (the Messiah) was led as a lamb to the slaughter", then this is confirmed by John the Baptist saying – "Behold! The Lamb of God who takes away the sin of the world!", John 1:29. (By the way, this famous 53d chapter of the Book of Isaiah, describing the sufferings and death of the Messiah, by Jews is considered as '*perek-asshur*', 'the forbidden chapter', as in Jewish Bibles this chapter has been left-out...).

The Jewish way of making chronological calculations is based on the cycles of the moon, in combination with the solar year, 1 lunar cycle being 29.53 days = 1 lunar month. So 14 is the number of sacrifice – 14 lunar cycles of 29.53 days each = 413.42 days; 413.42 : 29.53 = exactly a 14 months lunar cycle time.

413.42 days x 483 years (69 weeks) = 199,681.9 days. When 199,681.9 is divided by 365.24 (the number of days of the solar year), we get 546.71 solar years. Then 546.71 -/- the year 520 BC = the *early fall of 27 AD (1)*, when the Messiah is baptized and begins His ministry. The Messiah is "cut-off" (crucified) almost exactly 2.5 years later = the *early spring of 30 AD*.

In Matthew 18:21, where Peter asks the Lord how often to forgive his brother: "up to 7 times?", the Lord said to him "I do not say to you, up to 7 times, but up to 70 x 7 times", vs.22, = 490 times, or 7 to the 2nd power = 7 x 7 = 49 x 10 = 490 = 1 magnitude more. So 70 x 7 = 490 is the same number in years of Daniel's '70 weeks'...

As to *the command in 520 BC*, Ezra 6:14 reads - "...The elders of the Jews ...built and finished it (the city and the temple), according to *the command of the God of Israel*, and according to the command of Cyrus, Darius and Artaxerxes king of Persia". By scholars this text has often been overlooked that it was *YHWH Himself* who originally issued the command to rebuild the city and its temple. Then Daniel 9:25 says that from this command in 520 BC until Messiah the Prince shall be "7 weeks and 62 weeks",

so 69 in total. Why these 69 weeks are separated in 7 and 62 is not clear when applying gentile chronological calculations, as those first 7 weeks then come to nothing. In Jewish calculus however, those first 7 weeks do make sense, just as the Lord's answer to Peter, when applying 1 magnitude, multiplied by an inserted lunar year of 13 months, so 1 month extra, a so-called 'Ve-Adar', an extra 13th month to come in line with the solar year calendar, as the Jewish year counted 360 days instead of 365 days (like we do when adding a 'leap day' to the month of February every 4 years).

Then Daniel's first 7 weeks x 1 magnitude = 490 years. A 13 months lunar cycle = 13 x 29.53 days (1 lunar month) = 383.89 days; 383.89 days x 490 years = 188,106.1 days, divided by 365.24 (the solar year) = 515.02 solar years. Then 520 BC +/- 515.02 years = *early winter of 5 BC* – the Messiah's conception, His incarnation, while 9 months later the Messiah is born = *early fall of 4 BC*, or according to the Pyramid-chronology the *5th of October 4 BC*.

In the third, last part of the genealogy (Hebr. 'toledoth') of the Messiah in Matthew chapter 1, the Messiah is the 13th enumeration. In the first and second parts there are 14 names listed, in the last part 13, so in total 14 + 14 + 13 = 41 generations. Verse 17 speaks of 42 generations instead of 41, meaning that the Messiah, following His death and resurrection, truly became the 14th enumeration as well! But why 41? Because the first 6 numbers in the sequence of prime numbers – 2, 3, 5, 7, 11, 13 – add-up to 41, the last number of this sequence being 13... While 41 in this sequence is the 14th prime number – 2, 3, 5, 7, 11, 13, 17, 19, 23, 29, 31, 37, 41... Thus in Matthew's genealogy, as well in Scripture, the meanings of the numbers 13 and 14 in relation to Messiah the Prince are '*birth and sacrifice*', His birth and sacrifice, while the number 14 here also signifies His *resurrection*. That the meaning of the number 13 is also that of 'sacrifice', is because Numbers 29:13, apart from 14 lambs every day, also states that on the 1st day of the Feast of Tabernacles 13 young bulls – so-called 'red heifers', 'red' signifying the color of blood – were sacrificed (and in the next 6 days each day 1 less, thus coming to a total of 70 bulls, all without blemish, here again the number '70'). Each day 2 rams were also sacrificed, so 14 in total, here again the number '14'. As the Messiah was born on the 1st day of the Feast of Tabernacles, He was born also to be the perfect Sacrifice for our sins, without 'blemish', "who offered Himself as a perfect sacrifice for once before God with His own blood, to put away sin by the sacrifice of Himself unto salvation", Hebr.9:24-26,28. So we have the numbers 13 and 14 in sacrifices, analogue to the waxing and waning of the monthly moon-cycle every 13 or 14 days, as religiously observed in Judaic law. The moon's light becoming brighter when waxing, and diminishing when waning; 'new moon' being when for a few days and nights it is invisible, situated between the earth and the sun, thus making a complete cycle of 29.53 days.

By (secular) scholars Matthew's genealogy has always been considered as inaccurate and controversial, because 4 names of kings during the 70-year Babylonian captivity are missing in the second part of the list. These names Matthew seems to have omitted on purpose, as he wanted his 'toledoth' of the Messiah to arithmetically correspond with the text of Numbers 29:13, to denote that in His birth and Sacrifice the Messiah in His innocence had perfectly fulfilled those offerings of innocent animals for the sins of His people and the whole of mankind. The more so, as originally above the list the following Hebrew words were written – '*Yagid, echad, habhab, ahabah*' – as translated literally – 'Tell One offering loved', the 'One' being YHWH, the Messiah's heavenly Father, Deut.6:4, Marc 12:30. Then in more understandable words it says – 'Proclaim YHWH loved His offering'. As all Hebrew letters and

words have a numerical value, the first word 'yagid' equals to 13 + 14, 'echad' equals to 13, 'habhab' equals to 14 and 'ahabah' equals to 13...So it is clear Matthew has intentionally included these numbers in his list. Instead of inaccurate, this list of Matthew 1 is a very clever arrangement of names and numbers and obviously contains no errors, as "all Scripture is given by inspiration of God" (Greek: 'theopneustos' – 'God-breathed'), 2Tim.3:16.

In the so-called 'Fibonacci-sequence' each number is added to the one preceding it – 1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, etc. Here the number 13 is the 7th in the sequence. The number 7 and its multiples, powers and magnitudes in Scripture denote *spiritual perfection*, the perfect works of the Holy Spirit in Creation. As is shown in the Lord's genealogy in Luke chapter 3, from the Messiah back to Adam counting 77 generations. In the immeasurable, infinite number of Pi = 3.141592..., in its first 50 digits the 13th decimal is a 7, the 29th decimal is a 7 (standing between the digits 2 and 9...) and the 39th decimal is a 7. So the first 7 as the 13th decimal, corresponds with the 13 bulls sacrificed on the first day of the 7-day Feast of Tabernacles, the second 7 as the 29th decimal, corresponds with the in total 29 animals sacrificed on the first day, while the third 7 as the 39th decimal = 3 x 13. It seems as if the Holy Spirit has put hidden proof of the Messiah's identity in Pi as the perfect Sacrifice...

According to the built-in chronological system of the Great Pyramid (as a scale model of planet Earth at the scale of 1 : 43,200 in its proportions the first and only monument ever built according to the number of Pi), the birth of the Messiah was on the 5th of October 4 BC, so early fall that year, the 15th of the month Tizri (the 7th month of the Jewish year). This was on the first day of the 7-day Feast of Tabernacles, a Sabbath. Hence John 1:14 reads – "And the Word became flesh and (basic text) *tabernacled* among us" (Greek 'eskeinoosen', from 'skeinei' – tabernacle, tent).

So all in all, the numbers 13 and 14 and the number 7 and its multiples, in combination with the cycles of the moon and the solar year, give the correct dates which prove Messiah Yeshua fulfilled Daniel's prophecy of the first 69 weeks. And in His Second Coming will also fulfill the still future 70th week, He destroying the Antichrist, his power-elite and the wicked in their New World Order, to establish His glorious Millennial Kingdom as the King of kings and Lord of lords, just as Psalm 2 proclaims -

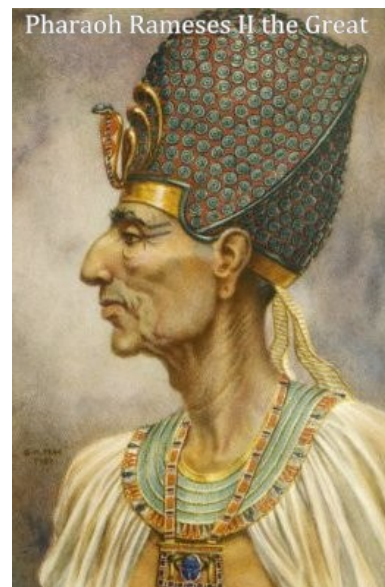

"Why do the nations rage, and the people plot a vain thing? The kings of the earth set themselves, and the rulers take counsel together, against the Lord and against His Anointed, saying, "Let us break their bonds in pieces and cast away their cords from us". He who sits in the heavens shall laugh; the Lord shall hold them in derision. Then He shall speak to them in His wrath, and distress them in His deep displeasure: "Yet I have set My King on My holy hill of Zion". "I will declare the decree; the Lord has said to Me, 'You are My Son, today I have begotten You. Ask of Me, and I will give the nations Your inheritance, and the ends of the earth Your possession. You shall break them with a rod of iron; you shall dash them to pieces like a potter's vessel". Now therefore, be wise, O kings; be instructed, you judges of the earth. Serve the Lord with fear, and rejoice with trembling. Kiss the Son, lest He be angry, and you perish in the way, when His wrath is kindled but a little. Blessed all those who put their trust in Him".

(1) 546.71 -/- 520 BC is early fall of 27 AD and not 26 AD. When counting from years BC (Before Christ) to years AD (Anno Domini) 1 year has to be added for being correct. From 1 BC it directly goes to 1 AD, because the 'year 0' or '0 BC/0 AD' does not exist.

9. ENOCH AND THE CALLING OF ABRAM

Apart from the fact that the priests of Heliopolis knew Enoch as the architect of Pa-Hanok, the City of Enoch, they also knew about his age when he was 'taken away', so did not see death, namely 365 years (Gen.5:23, 24). And because he had suddenly 'disappeared' and had such a long lifetime, Enoch was deified by them as he was identified with Thoth. They also knew he was the 'seventh from Adam' and that he was born 622 years after the (trans)formation of Adam.

The Toledoth - The question is, how did they know about all this? They knew this both by oral and written transfer of information, the written information being the so-called '*toledoth*' of the Adamic patriarchs, i.e. their 'births', their histories and acts or 'books of the generations' or pedigree. Just as the Book of the Dead, these books must have been brought to Egypt by people of the Adamic civilization, copies of which were kept and studied by the priests. Some examples of summarised versions of such books are the apocrypha of Enoch and Noah; Genesis 5, the "book of the generations of Adam"; Gen. 10, "the generations of the sons of Noah"; Gen.11, "the generations of Shem", while the Gospel of Matthew begins with the 'toledoth' of the Messiah - "the book of the generations of *Jesus*", "*the last Adam*", 1Cor.15:45. From these toledoth Moses compiled the first 11 chapters of the Book of Genesis, in which knowledge he must have been educated at the 'Mystery School of Life', the 'university of Heliopolis' (Acts 7:22, 'learned in all the wisdom of the Egyptians'), as he without this education had not been able to accomplish this, as the original toledoth were written in the 'Adamic language', which by the time of the Babylonian confusion of tongues (Gen.11:1-9) had got lost, they speaking a 'proto-Syriac' language. Moses as a babe was found by "the daughter of Pharaoh" (Ex.2, probably Seti I, the father of Rameses II) at the banks of the Nile and educated as her adopted son at her father's court and naming him 'Moses' ('my son', also meaning 'the Wise One'; same as 'meses' in 'Rameses' - 'son of Ra', or 'Wisdom of Ra', meaning that both Moses and Rameses, like all pharaoh's were initiates) (1).

The Exodus - In this context it is important to note that the Exodus of the Israelites according to the Pyramid-chronology is fixed as having occurred in *the night of 4/5 April 1486 BC*, one of the most significant events both in the Bible and Pyramid-chronology which, once again, is to be considered as

irrefutable. There is historical evidence that this date is correct – We saw before that the year of the dedication of the temple of Solomon was 1000 BC, the central year of the Pyramid’s two time scales. Then in 1Kings 6:1 we read – “And it came to pass *in the four hundred and eightieth year after the children of Israel were come out of the land of Egypt*, in the fourth year of Solomon’s reign over Israel...that he began to build the house of the Lord”. And 1Kings 6:38 reads – “And in the eleventh year...was the house finished...So was he *seven years* in building it”. Thus the building of the temple was started either in 1007 or 1006 BC, *480 years after the Exodus in 1486 BC*. This means that the chronology of the Egyptian dynasties needs to be revised and must be set back in time at least some 200-250 years. In the Pyramid the date of the Exodus coincides with the intersection of the axis of the descending passageway with the floor of the ascending passageway, just in front of the so-called ‘Granite Plug’ (in the Book of the Dead called ‘the Lintel of Justice’) which originally blocked access to the ascending passageway, the Grand Gallery and the King’s Chamber (2). This too is of a spiritual meaning – ‘descending’ meaning ‘away from God’ and ‘ascending’ meaning ‘nearer to God’. The Israelites after crossing the ‘Red Sea’ (Hebr.’Yam Suph’, ‘Sea of Reeds’, currently the Bitter Lakes, as symbolized by the ‘Lintel of Justice’) ‘set foot in the ascending passageway’ (also called ‘the Hall of Justification’) leading to the Grand Gallery (also called ‘the Hall of Splendour’) and the King’s Chamber’ (the ‘Chamber of the Grand Orient’ or ‘Dawn Rise’, which chronologically is still future). To be mentioned also is that at the time of the Exodus Rameses II the Great, the pharaoh of the Oppression (Ex.1) with whom Moses grew up at his father’s court but being older than Moses, had already died 5 years before, his thirteenth son Merenptah being the pharaoh of the Exodus (13 in biblical numerology meaning ‘rebellion, revolution, apostasy, unbelief’ etc.), so not Rameses as many scholars and theologians assert.

Enoch, Sirius and the Great Pyramid – Now, also included in the Cycle of the Phoenix was the phenomenon of the ‘*heliacal rising of Sirius*’, the first annual dawn rising of the star (just after the rising of Orion) shortly before sunrise. About 3000 BC this occurred at the summer solstice, so 21 June, about 2000 BC at early July and nowadays due to precession early August. However, a ‘special’ heliacal rising of Sirius at a fixed date was also known to the ancients, being on the first of July, which occurred only *once in 1461 years*. A simple arithmetical sum tells us that 4×365.25 years (the number of days of the solar year) equals 1461 years: the elapsed time between two ‘special’ heliacal risings of

Sirius. As good astronomers the priests of the Temple of the Phoenix at Heliopolis therefore expected the return of Enoch ‘from a strange country’ *as the Phoenix*, as Pa-Hanok, the spiritual father of the City of Enoch, *1461 years after his birth, coinciding with this special cycle of Sirius*. This means Enoch was born during the special heliacal rising of Sirius on the first of July, 3378 BC, the year 622 Anno Pyramid (4000 - 622 = 3378). Hence they ceremonially commemorated Enoch’s lifetime after each period of 365.25 years, as they hoped he following this period would return as the Phoenix, the celebrations being called by them the ‘first’, ‘second’ or ‘third reiteration’. The ‘fourth reiteration’ or ‘*First Main Reiteration*’ then would take place 1461 years after his birth, on the *first of July of the year 1917 BC* (4000 - 622 -1461 = 1917). This was during the seventh year of reign of pharaoh Senusert (Sesostris) III Khakara of the twelfth dynasty, at dawn during the special heliacal rising of Sirius, at which the participants waved with palm branches as these symbolised and were the hieroglyph for ‘the year’. The unexpected reality now is that each side of the base square of the Great Pyramid measures *365.242 sacred Hebrew cubits* (= 232.3 meters rounded up) – *the exact length of the solar year* in days. So its perimeter is 4 x 365.242 cubits = 1460.968 cubits, as rounded up: *1461 sacred cubits* – the period between two special heliacal risings of Sirius. When multiplying 1460.968 with 25, we get 36,524.200 Pyramid-inches, which is 100 times the length of the solar year in days, the symbol of the palm branch, the hieroglyph for ‘year’ ...So each of the Pyramid’s base sides depicts a Cycle of the Phoenix, of Pa-Hanok, the City or House of Enoch, the solar year in sacred Hebrew cubits. While the perimeter of its base square depicts the special cycle of Sirius of 1461 years in sacred Hebrew cubits, which is also a Cycle of the Phoenix, as well as 100 times the solar year in Pyramid-inches.

This implies that in this remarkable way the Pyramid depicts the true lifetime of Enoch when God translated him – “And all the days of Enoch were three hundred and sixty five years”, Gen.5:23. All this is more than ample proof that indeed it was Enoch who by Divine instructions designed and compiled the blueprints of both the Great Pyramid and the whole of the Giza Plateau, the City of

Enoch. In other words, the Pyramids of Giza are 'his signature, his history and acts, his *toledoth*'. In the same way Moses by Divine instruction built the tabernacle (Ex.25-27) and in the same way Ezekiel by Divine instruction wrote down the blueprint of Israel's future 'millennium temple' (Ezek.40-48), the temple of the Messianic Kingdom.

Abram and Sirius - But there is more – When Sesostris III and his priests implored the return of Enoch from 'a strange country', their prayers were not heard, at least not in the way they had imagined: Enoch did not return. However, during that same heliacal rising of Sirius in the early morning of the 1st of July, 1917 BC, something happened that would have far-reaching consequences for the future of mankind. That very morning far away in Harran *a Voice called unto Abram* – “*Get thee out from thy country and from thy kindred and from thy father’s house, unto a land that I will show thee; and I will make of thee a great nation and I will bless thee and make thy name great; and thou shalt be a blessing, and I will bless them that will bless thee and curse him that curses thee, and in thee shall all families of the earth be blessed. So Abram departed, as the Lord had spoken unto him; and Lot went with him... and they went forth...and in the land of Canaan they came*”, Gen.12:1-5 (note again the Figure of Polysyndeton, the 'many ands', for emphasis). So, from Enoch's birth up to the calling of Abram exactly 1461 years later, by the dimensions of the Great Pyramid's base square in sacred Hebrew cubits as well as by the special heliacal rising of Sirius, the Cycle of the Phoenix in an un-thought, magisterial way marks *a new birth – the beginning of the history, the toledoth of the People of Israel*. Here we see again that great events in sacred history are *astronomically determined and defined*. With which once more the truth of Psalm 19:1 is confirmed – “The heavens declare the glory of God and the firmament shows His handiwork”. This the more so, as Abram when he was called saw the heliacal rising of the Morning Star at the eastern horizon. In complete accordance with the knowledge that educated ancients had of the Messianic significance of the constellations, he obviously knew that Sirius as the Morning Star, 'the star of stars', stood for “the glorious Prince of princes” (Daniel 8:25), the Messiah – “I am the bright Morning Star”, Rev.22:16 - the promised Seed and His (glorified) Brides (remember Sirius is a triple star). Of both of whom he later, according to God's ongoing promises to him must have contemplated, he as the father of all who believe (Rom.4:11, 12) would be their ancestor. This must have strengthened him in his faith, not knowing where to go (Hebr.11:8) than in the full trust that God would show him the way. Just as the Magi came to Jerusalem when they had seen “*His star in the east*”, Matth.2:2, which again was *Sirius* (as Robert Bauval has demonstrated in 'Secret Chamber').

(1) Josephus writes that the name of this daughter of Pharaoh was 'Thermuthis'. Many biblical archeologists and scholars consider her as being nobody less than *Hatshepsut* - full name 'Maatka-re' or 'Makare Hatshepsut', the famous lady pharaoh (see chapt.11), and only daughter of Thutmosis I, who according to them was the pharaoh of the Oppression, while 80 years later (Ex.7:7) the pharaoh of the Exodus was either Thutmosis III or his son and successor Amenhotep II. According to the Greek writer Artapanus (2nd century BC), Moses when a young man was Hatshepsut's chief courtier, bearing the name 'Djehuty'. 10. THE BENBEN - THE CAPSTONE

Now the reader will probably be a bit amazed to learn that in fact the Great Pyramid with respect to its blueprint has been built '*too small*'. For its measures in sacred Hebrew cubits and pyramid-inches as afore-mentioned do not directly relate to the Pyramid as it was built, but to its blueprint. Therefore the British architect David Davidson and co-author Dr. Herbert Aldersmith in their remarkable and extremely elaborate scientific work "The Great Pyramid, it's Divine Message" (1924-1946) call this blueprint 'the Theoretical Pyramid' as distinguished from the Pyramid actually built.

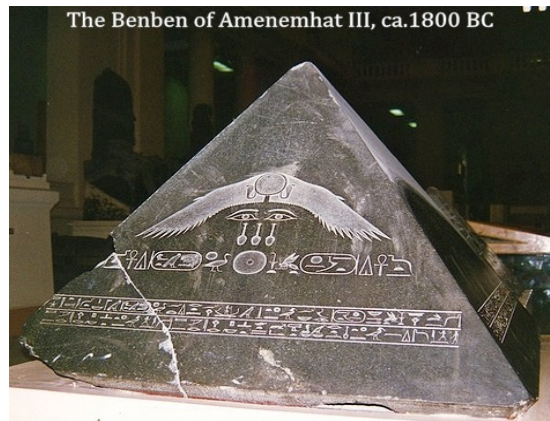

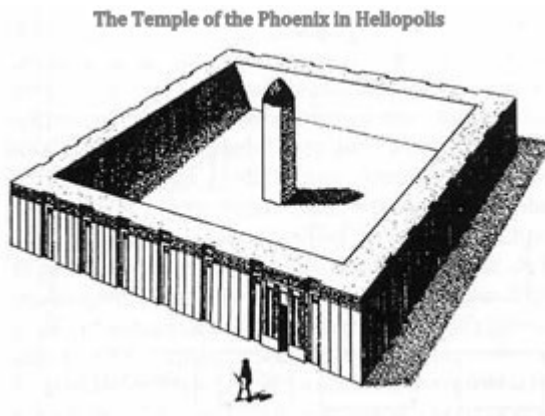

Measuring and re-measuring the Great Pyramid - As we wrote before, professor Piazzi Smyth – who due to the advent of the Industrial Revolution was able to measure the Pyramid with an accuracy greater than ever before - got convinced that the Great Pyramid conveyed a Messianic message and also that the builders in each side of its base square had intended to depict the solar year (as described in chapt.9). Some 16 years later, in 1881, the Royal Society of Scotland in order to refute Smyth's conclusions, sent the well-known Prof. William Flinders Petrie to Egypt to measure the Pyramid once again with if possible still greater accuracy, the results of which seemed to contradict Smyth's conclusions completely. Thus in Egyptology Petrie's results were officially accepted until the present

day, while Smyth's were rejected, 'Petrie's Pyramid' being somewhat smaller than 'Smyth's Pyramid'. Still more important, Petrie's results for once and forever seemed to dismiss Isaac Newton's and Smyth's 'curious' Pyramid-inch as 'mystical' and 'wanting'. None of the relevant (British) scholars up to now apparently willing to realise that their 'own' British inch in fact *IS* the Pyramid-inch, it thus belonging to the Anglo-Saxon world's heritage! The British inch as far as we know in the meantime (since 2001?) having been abolished in favour of the metric system as used in continental Europe. However, it was Davidson who after having made numerous calculations on the subject, thereby using the results of both erudite gentlemen, and after having scrutinised the Great Pyramid himself on the spot in 1909, came to the conclusion *that both scholars were right*. Davidson argued Petrie had

discovered ‘the imperfect manmade Pyramid’ from the materialistic standpoint of science, while Smyth had discovered the ‘perfect Pyramid as designed by its Divine Architect’ (the ‘Theoretical Pyramid’) from the higher standpoint of faith, and it indeed turned out that Davidson was correct. In 1925 the Egyptian Geological Institute under the supervision of Dr. J.H. Cole once again had measured the Great Pyramid with great accuracy, the results confirming Petrie’s conclusions, but at that time Davidson by his book mentioned above had already ‘saved’ Smyth’s ‘lost’ issue. In this way Piazzzi Smyth was posthumously ‘rehabilitated’ (he died in 1900), not by the Royal Society but by the ‘esoteric and biblical pyramidologists’ (as Adam Rutherford, John & Morton Edgar, etc.). The latter believed God would never allow sinful humans to build a divinely inspired and perfect design perfectly, not even as ‘the fore-shadow of the Holy City’, the ‘Pyramid of the Apocalypse’ (1), as man himself is imperfect. Therefore Noah let the pyramid-builders construct the Great Pyramid with such a built-in error that it had to become ‘*too small for the perfect capstone to be placed on top of it*’...

The missing Benben - And indeed, though Egyptologists disagree or don’t know, the Great Pyramid never seems to have possessed a capstone, in any case not the one that is mentioned in the Bible as the ‘chief cornerstone’ or ‘the headstone of the corner’. To the one knowing this it is still clearly visible because the capstone or ‘*pyramidion*’ was rejected by the builders. Herodotus is mentioning this in his writings. When visiting the Pyramids about 450 BC, the priests had told him the Great Pyramid had ‘never possessed a capstone’, without explaining him why as they too ‘didn’t know’ (2). However, Psalm 118:22,23 gives the answer – “The stone which the builders refused *is become the headstone of the corner (i.e. the Messiah, Hebr. ‘rosh pina’, the word 'pinnacle' derived from it). This is the Lord’s doing;*

it is marvellous in our eyes”. In the New Testament this text is cited several times by Jesus, thereby *having in view Himself* (Matt.21:42-44, Mark 12:10,11, Luke 20:17,18), as well as by Peter in Acts 4:11 and 1Pet.2:6-8, and by Paul in Ephesians 2:20. In all these texts this ‘headstone of the corner’ is denoted either by the words κεφαλὴ γωνίας - ‘*kephalei goonias*’ or ἀκρογωνιαίος - ‘*akrogooniaios*’, literally meaning “*head of the corner*”(angle) and “*uppermost corner(stone)*” as the portrayal of *Christ the Messiah* and as the missing chief cornerstone or capstone of the Great Pyramid. Only one type of building is in existence which can possess a ‘headstone’ or capstone and that’s the pyramid. That capstone the Egyptians called ‘*the Benben*’ (meaning ‘son, seed’), named after the cone-shaped iron-meteorite which in prehistory had come down near Memphis. Because they regarded the Benben

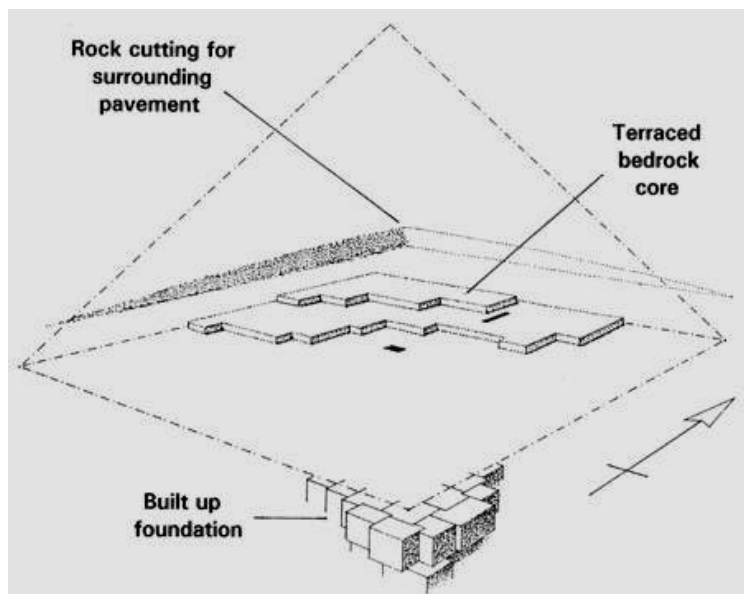

as the 'seed from heaven', the cosmic egg of *the Bennu, the Phoenix*, they placed it on top of the Pillar of Atum in the Temple of the Phoenix in Heliopolis. Thus the very first obelisk came into being, its Benben becoming the primeval form of the pyramid-shape. So the Pyramids of Giza and elsewhere in Egypt are nothing else than colossal, stylised Benbens. This all the more so as pyramid and pyramidion or Benben are perfectly identical to each other and of cosmic origin, as it were having 'descended from heaven'. As also, according to God's promises, His City, the 'Pyramid of the Apocalypse', the New Jerusalem once will do, Rev.21:2. Then, the Great Pyramid as not having received its Benben because it was refused, is a prophetic reference to the fact that the Messiah has been rejected, has been despised and refused both by Jew and Gentile and therefore is *absent*, is *missing*, and is *being missed* by those who love Him. For not until mankind has collectively accepted Him as the Messiah, their Saviour – *as the Egyptians will do* (Isaiah 19:20-22) – namely after His Second Coming, not until then the Great Pyramid at its future rebuilding to completeness shall receive its Benben as the testimony of His visible presence among them. Hence the intent of the Illuminati to place a fake 'capstone' at midnight 31 December 1999 with all its fuss was prevented (by divine intervention we believe), no matter Sirius was at its culmination point on the Pyramid's meridian.

Christ the Chief Cornerstone - Then, *to which dimensions* will the Pyramid be rebuilt? To the dimensions of the Theoretical Pyramid as Enoch by divine instruction had outlined on its blueprint – “*Unto the measure of the stature of the fullness of Christ* - εἰς μέτρον ἡλικίας τοῦ πληρώματος τοῦ Χριστοῦ - '*eis metron heilikias tou pleiroomatos tou Christou*', Ephesians 4:13, that is, *adapted to the measure of the unique and perfect capstone, the Benben, the pyramidion: Christ the Messiah*. (Then Piazzi Smyth in the future will be rehabilitated to the full, his critics biting the dust). Nowhere in the Scripture the Messiah is pictured as the capstone of the Great Pyramid so plainly than by Paul in Eph.2:19-22 – “Now...ye are fellowcitizens ('sumpolitais') with the saints...and are built upon the foundation ('themelios') of ('laid by') the apostles and prophets, *Jesus Christ Himself being the chief corner stone (akrogoniaios)*; in Whom all the building ('oikodomei') fitly framed together ('sunarmologeoo' – 'harmoniously fitted together'; think about the almost seamless joints of half a millimetre thickness between the Pyramid's blocks!) grows unto a holy Temple ('naos', 'sanctuary') in

the Lord. In Whom ye also are builded together (‘sunoikodomeoo’) for an habitation (‘katoikeiteirion’) of God through the Spirit”. Here we have a view of the Church as the Body of Christ, of which the apostles and prophets are the foundation and *Christ is the chief cornerstone*. In other words, it is a description of the heavenly Jerusalem, the Holy City *in the shape of a pyramid, the Great Pyramid* when it shall have been rebuilt and its capstone placed forever.

Now, in Isaiah 28:16 is talk of the cornerstone as being a foundation stone and thus seemingly contradictory to the above written – “Behold, I lay in Zion (from there the Messiah will rule) for a *foundation* a stone (i.e. the Stone of Israel, the Messiah, Gen.49:24), a tried stone (Hebr. a ‘test stone’, tested itself and testing others), a *precious cornerstone, a sure foundation*’ (Figure of Polypiteion, for emphasis; the Hebrew has ‘a foundation founded’, thus ‘a well-founded, firm foundation’): he that believeth shall not make haste” (i.e. will be patient and remain steadfast). Here the cornerstone is described as being a foundation stone of a building and therefore an apparent antithesis. Let’s examine this. In the first place the foundation of a large building, including the Great Pyramid, has many foundation stones at the four corners, not one. Secondly, the foundations of sanctuaries like the temples in Israel, Egypt and Greece generally were built on, not in the bedrock, so visible to anyone, the clearest example being the Parthenon on the Acropolis in Athens. Likewise, the foundations of the New Jerusalem are above-ground as they are made of precious stones and therefore visible, Rev.21:19, 20, this otherwise not making any sense. Thirdly, the foundations of the Pyramids of Giza are their base squares as laid out *on* the granite bedrock, thus also above the ground. Moreover, when building a pyramid, the underlying stone levels or courses serve as the foundation for the next course and so on, all the way up to the top platform. So when placing the capstone on its platform, it rests on a solid body of stacked foundations, thus forming a ‘sure, well-founded, firm foundation’. Therefore, with this ‘precious cornerstone, a sure foundation’ clearly the pyramid’s capstone is meant as symbolic for the Messiah. This all the more so as Peter in 1Pet.2:6 gives an almost verbal citation of Is.28:16, while using the word ‘*akrogooniaios*’, so ‘uppermost’ or ‘chief cornerstone’ and in verse 8 the words ‘*kephalei goonias*’ – ‘head of the corner’. Likewise the head (kephalei) of a human is the uppermost part of his body.

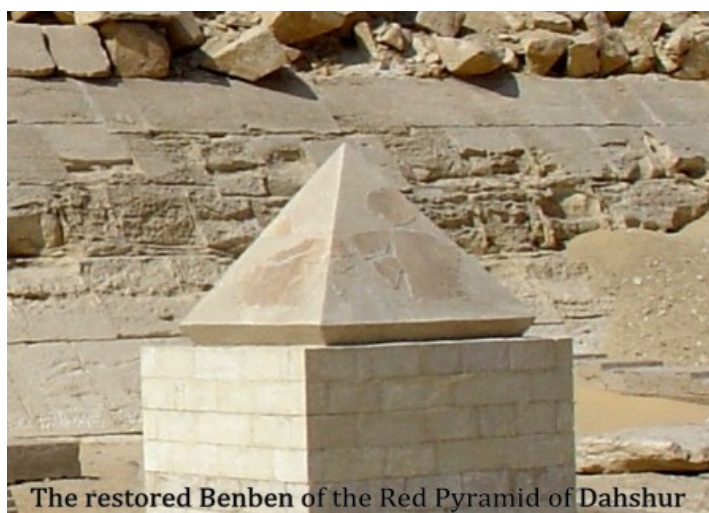

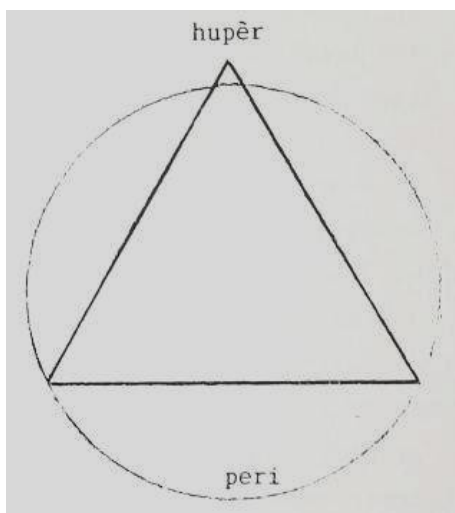

Now, this capstone says Isaiah, is also a 'test stone' or 'tested stone', a purified, chastened stone, just like also the Benben was. When travelling through the earth's atmosphere at hypersonic speeds in stabilised flight, it underwent a fiery baptism of fire while melting, thus becoming cone-shaped and as an iron-meteorite coming down in one piece (unlike stone-meteorites, which mostly fall apart in pieces, write Robert Bauval and Adrian Gilbert in 'The Orion Mystery'), its smooth, hardened surface after cooling down shining in the sun, exhibiting the colours of the rainbow. Likewise, the Messiah, the 'Seed from Heaven', has been tested and chastened many times by men, by Satan and eventually by His Father Himself at Golgotha. Also, Bauval and Gilbert write, a meteorite's flight when entering the atmosphere, according to the Encyclopedia Britannica is always '*from the east to the west*', just like the Benben's was. Then what does the reader think of Jesus' statement – "For *just as the lightning cometh from the east and shines even unto the west; so shall the coming* (παρουσία - '*parousia*', i.e. *arrival and presence*) *of the Son of man be*", Matt.24:27, Luke 17:24. So the coming of the Son of man, the Messiah as the lightning will be just like the Benben's in its fiery flight – from the east to the west. Therefore, the Lord's promise in Rev.22:20 – "Surely I come *quickly*" (Gr. '*tachu*'), does not mean 'soon' (as since then almost 2000 years already have passed), but that when He comes, He will come as fast as the lightning.

That the Messiah is the Saviour of all mankind is also depicted by the Pyramid and its capstone, be it again in a concealed way, so that ‘only the wise shall understand’. In 1 Timothy 2:6 it reads – “Christ Jesus, Who gave Himself a ransom for all, to be testified (τὸ μαρτύριον - ‘to marturion’, the testimony) in due time” (καιρος ἰδίος - ‘kairos idios’, in its own season, its own suitable time). For “a ransom for all” the Greek has ἀντίλυτρον ὑπὲρ πάντων - ‘antilytron huper pantoon’. The preposition ‘huper’ denotes ‘above’ or ‘over’ with respect to ‘the upper plane of a solid body’, says Appendix 104 of the Companion Bible. ‘Huper’ is connected with the preposition ‘peri’; ‘huper’ being ‘the apex of a triangle’, so the capstone of a pyramid, while ‘peri’ is the circle described tangentially through the two base angles of the pyramid and its upper plane or top platform, the capstone protruding above the circle. This circle denotes ‘all mankind’ as expressed by the word ‘pantoon’. The word ‘kairos’ as translated by ‘season’ forms part of the ‘chronos’ or ‘time’, just as a month and a season form part of a year. So at a suitable time or ‘season’ there will be the testimony that Christ gave Himself a ransom for all mankind as depicted by the apex of a triangle, respectively the capstone of a pyramid. Then it is evident that at its ‘own season’ (and not from 1 January 2000) the Great Pyramid as the solid body, on top of its upper plane or top platform will have received its capstone as the testimony to the world that Christ the Messiah when He as the Phoenix has ‘returned from a strange country after a long time’ is the Saviour. Then when will that ‘season’ be? Not until than the ‘summer season’, the seventh or ‘sab-

batical month’ of the great cosmic year and the seventh or ‘sabbatical millennium’ of biblical chronology have dawned, the Day of the Lord, the Messianic Kingdom. And both ‘sabbaths’ now have dawned at this writing...Hence Isaiah 19:19,20 states that “in that day” the Great Pyramid will be an “altar of witness”, just like the big altar the Israelites built would be a witness between them that “the Lord is God” (Joshua 22:10,34). So wanting to place a fake ‘capstone’ prematurely is a calling card of unbelief, as he who believes, says Isaiah, “shall not make haste”.

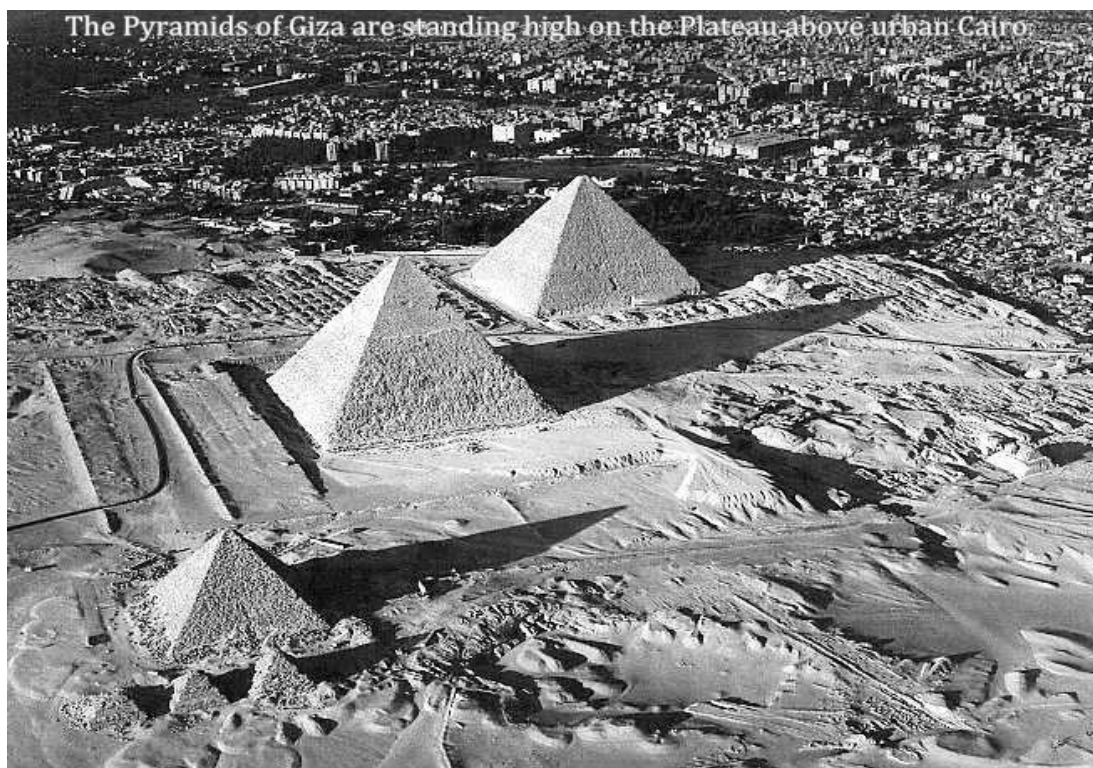

The Displacement Factor - Now, what is the exact nature of the Great Pyramid having been built ‘too small’? That all of its 203 stone courses up to the top platform have been built 286.1 P-inches (= ca.7.27 meters) too small in perimeter, the top platform’s perimeter (including the thickness of the casing) being 7 x 286.1 P-inches, while the capstone at its base square had the correct perimeter of 8 x

286.1 P-inches, with the consequence that it according to David in Psalm 118:22 had to be refused by the builders. Thus, as typifying the Messiah, becoming a “*stumbling block* and a *rock of offence*” (Greek: ‘*skandalon*’) for the ‘builders’, i.e. both Jews and Gentiles, Romans 9:32,33, 1Cor.1:23. This was suspected by Piazzzi Smyth and confirmed by Davidson, who called this deliberate error the ‘*Displacement Factor*’, which is also omni-present in the measures of the Pyramid’s internal system. An example: The whole of the corridor system, which in a spiritual sense depicts ‘*the way, the course of mankind*’, is displaced 286.1 P-inches, so about 7.27 meters *to the left* (= negative) from the vertical north-south-plane through the Pyramid’s apex, so the capstone. This plane by Davidson was called the ‘Plane of Harmony’, with which he meant *the harmony with God*. Hence Caliph Al Mahmoun in his search for treasures in 820 AD selected the wrong place to break into the Pyramid’s north side. There is one place in the Pyramid however where man may come ‘in perfect harmony with God’, and that’s in the King’s Chamber at the ‘sarcophagus’, ‘*the Open Tomb*’ - also called ‘*The Instrument of Resurrection*’, Book of the Dead - which stands *directly to the right* (= positive) of the Plane of Harmony. That is, when he believes that the Lord Jesus Christ, the Messiah, has been resurrected from the dead, and thus will have part in the ‘first resurrection’ as promised in Rev.20:6.

Davidson assumed the Pyramid contains an all-important ‘Law of Creation’, a basic Law from which all its amazing facts are a logical consequence. A Law however that had got lost to mankind as it deviated from God’s Plan of Creation, from His Laws and ordinances. Thus he hit on the idea that the Pyramid is the embodiment of ‘*Divine Science*’, containing a formula which he called the ‘*Mathematical Constant of the Divine Law of Relativity*’: the ‘*Displacement Factor*’. As illustrated by another example: It is known that the earth’s surface for about ‘two-thirds’ is water and for ‘one-third’ is land. But what is the exact ratio between her landmasses and oceans? The answer is 286.1 as to 1000, the value of the Displacement Factor. So the earth’s surface for considerably less than one-third is land. The *relatively* small quantity of land as to the oceans in God’s view is a deviation from the ‘normal’ or ‘perfect’, as the oceans are the visual ‘remnant’ of the biblical concept of the ‘*katabolei*’, the *overthrow of the original Cosmos of Gen.1:1*, ‘*the then-world*’ of 2Pet.3:6 (Gr. ‘ho tote kosmos’) by the rebellion of Lucifer and his angels (Is.14:12-15; Ezek.28:15-19; Luke 10:18); basic text: πρὸ / ἀπὸ καταβολῆς κόσμου - ‘*pro*’ and ‘*apo kataboleis kosmou*’, i.e. ‘before’ and ‘from *the overthrow of the cosmos*’

(Matt.13:35, 25:34; Luke 11:50; John 17:24; Eph.1:4; Hebr.4:3, 9:26; 1Pet.1:20; Rev.13:8, 17:8), the verb of καταβολη being 'kataballoo' - 'to overthrow, to cast down' (what about the word 'ball'?) (3). Therefore, all these texts are wrongly translated by 'before' and 'from the *foundation* of the world', as the Greek word for 'foundation' is '*themelios*' and *not* 'katabolei' (4). Hence Gen.1:2 can be read as: "And the earth *became without form, and void* ('tohu va bohu', 'waste and void') and darkness (was) upon the face of the deep". So it became a '*chaos*' as opposite to '*cosmos*', this word meaning 'ornament'. Hence also we read in Rev.21:1 about the new earth – "*and there was no more sea*". It is clear then that the Great Pyramid really is 'the Monument of the Cosmos'.

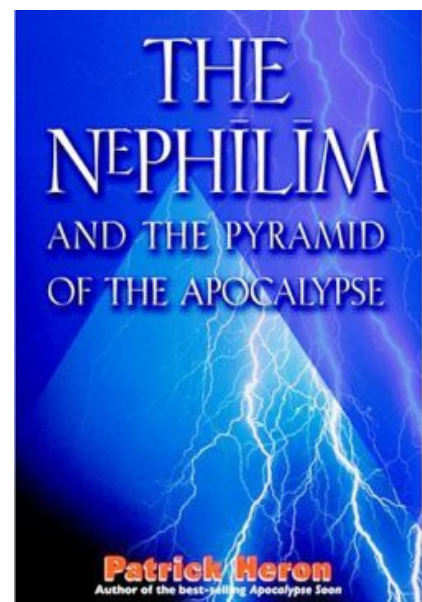

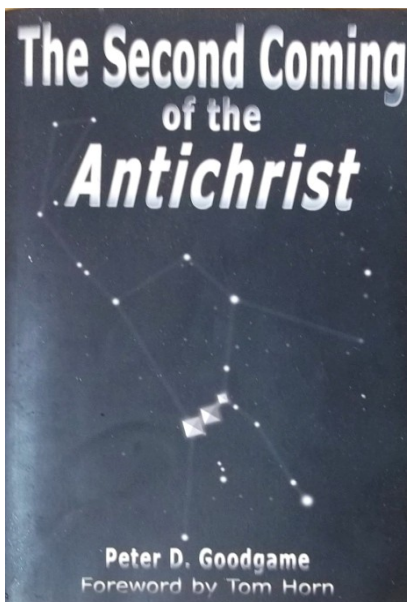

Next is a passage from what bible scholar Peter D. Goodgame has written in his "The Giza Discovery" series about the meaning of the Great Pyramid of Giza – Quote - "There are many scholars, (primarily those with a Rosicrucian or Masonic background), who believe that the "pillar" that will be raised up in Egypt "as a sign and witness to the Lord" refers to the Great Pyramid of Egypt. Some say that this so-called "pillar" was even built by Enoch before the flood. However, the evidence that has been collected by Egyptologists over the past few centuries provides overwhelming evidence that the Great Pyramid was built long after the flood by King Khufu of the Fourth Dynasty, just as Egyptian records attest. Furthermore, as explained in Part Two of this series, the Great Pyramid has long been known as the 'Tomb of Osiris'. If the ancient necropolis of Giza is mentioned by the prophet Isaiah then it is surely mentioned as the "City of Destruction" rather than as the "pillar" that will one day be built in the future to honor the God of Israel" – Unquote

In the past 10 chapters we've examined if this is right...or not...Well, only what is said about "the 'pillar' that will one day be built in the future to honour the God of Israel", but denying it's the same

'pillar' that was in the past and is *now*, as Jeremiah is praying to God in Jer.32:20 - "You have set signs and wonders in the land of Egypt, *to this day*", i.e. Jeremiah's day and *the present day*. Though this may refer to God's great deeds before and at the time of Israel's Exodus also, especially the 'signs and wonders' of the Giza Plateau are meant here, simply by Jeremiah's addition of the words "to this day". We're not so much interested in the 'evidence' of mainstream Egyptologists as well what the Bible, biblical astronomy and numerology and the Book of the Dead, as of *Adamic origin* have to say about it. As to the 'City of Destruction', this has nothing to do with the Giza pyramids, the 'City of Enoch' but, according to the margin of the Companion Bible, with that the city of Leontopolis, close to Heliopolis, is meant. In Leontopolis, the many Jews living in Egypt, according to Flavius Josephus had built a temple. But any Jewish temple not built in Jerusalem is an abomination to God, certainly this one, as it was built on top of the ruins of an unclean pagan Egyptian temple, where thousands of mummified animals were found. Hence with that 'City of Destruction' Leontopolis is meant.

The cover of his book shown below intends to depict the constellation of Orion (and the Giza pyramids in Orion's Belt) as 'Nimrod the mighty hunter' (Gen.10:9), not as the Messiah: He Who comes forth as Light, as Dr. Bullinger and we also have explained. That it depicts Nimrod/the Antichrist cannot be true, as Orion is the brightest constellation of the starry sky, and that would mean the Antichrist would possess more power than Christ, the Bright Morning Star (Rev.22:16), as depicted by Sirius, the brightest star. No, it's the other way round: Christ will return to destroy the Antichrist, and exactly *that* is what the Orion figure depicts in its posture of attack. Besides, Orion forms part of the constellation of Taurus the Bull (also in an attacking posture), as in the ensign of the tribe of Joseph (Ephraim and Manasseh), and Joseph (especially as viceroy of Egypt) was a great type of the Messiah as the Ruler of His future Kingdom. If Orion would depict Nimrod/the Antichrist, Satan's son, it would not be part of Taurus in the southern sky, but rather of Draco, the Dragon in the northern sky. Therefore, depicting Orion as typifying Nimrod the mighty hunter, is not a biblical, but a *pagan/secular* representation of it. But we know the Antichrist will try to mimic Christ as much as he can. Nimrod's wife was Semiramis, whose image in New York Harbor is deceptively called 'The Statue of Liberty'...

(1) In March 2005, the late Irish author Patrick Heron (who sadly passed away January 2, 2014 of cancer) generously sent us a signed copy of his book 'The Nephilim and the Pyramid of the Apocalypse', in which he states they, the Nephilim, had built the Great Pyramid as a 'fake' of the Holy City, with which we have to disagree. By now that may be clear why.

(2) The priests talking to Herodotus, as initiates must have known why the Pyramid's capstone was missing, but did not want to tell him, as this would have been very embarrassing for the pharaonian state, as well as for the Egyptian religion as a whole. See Appendix.

(3) It is very likely that, as far as planet earth is concerned, during that prehistoric overthrow of the cosmos a *'polar-shift'* occurred, a radical shift of the planet's poles, caused by a heavy tilt of it. It is certain that in the near future, as part of Yahweh's judgment of wicked mankind at the end of this world order, a new polar-shift will occur (as also expected by many scientists), as we read in Isaiah 24:1(AV) - "Behold, the Lord makes the earth empty and makes it waste, and *turns it upside down*, and scatters abroad its inhabitants"...and 19,20 (NKJV) - "The earth is violently broken, the earth is split open, the earth is shaken exceedingly. The earth shall reel to and fro like a drunkard, and shall totter like a hut; its transgression will be heavy upon it, and it will fall, and not rise again". This is Yahweh's description of a *polar-shift* and *giant earth- and seaquakes* (Rev. 6:12; 8:5; 11:13,19; 16:18), when the Tropics will become the Arctic or Antarctic and the (Ant)arctic the Tropics...The dire consequences of it for mankind ("few men are left", vs.6), the animal kingdom and botanic kingdom are unimaginable...

This will happen at the end of the "Great Tribulation" (Gr. 'theilipsis megalei') of which the Lord speaks in Matth.24:21 and 29, when privately conversing with His disciples on the Mount of Olives about the "end of the age" (vs.3, Greek 'sunteleia tou aionos' = the 'together-ending' of this age to its 'end' = 'telos', its 'closure' by the Second Coming of the Lord). The question is, will the Body of Christ on earth, the Church of the redeemed saints go through the horrors of the tribulation of Daniel's '70th week'? In other words, when will 'the Rapture', the 'mystery' occur spoken of in 1Cor.15:51, 52, and 1Thess.4:15-17? In 1Cor.15:52 the apostle says it will happen "at the last trumpet". This cannot be another trumpet than the "seventh trumpet" of Revelation 10:7 and 11:15, that is, when the 'awesome Day of the Lord' is already going on...So it is out of the question that the Rapture will occur *before* the Day of the Lord, as the Lord Himself says to the church of Philadelphia - "Because you have kept My command to persevere, I also will keep you *from* (Gr. 'ek' = 'out of') the hour of trial which shall come upon the whole world, to test those who dwell on the earth", Rev.3:10. The Lord does not say He will keep us 'before' the hour of trial, but *'from, out of'* it. Just as the Israelites by the Lord and Moses were led *out of* the oppression by the Egyptians at the start of the Exodus. They first were *in* Egypt, but then were led *out of it*. Just as the voice from heaven says in Rev.18:4 - "Come *out of* (Gr. 'ek') her (Babylon the great, vs.2), *my people*, lest you share in her sins, and lest you receive of her plagues". So God's people (Gr. 'laos' = believers from all nations, Jew and Gentile, the Church) are first *in* Babylon, but are called *out of it* in order not to partake of her sins and thus will not receive of her plagues. Just as Israel did not receive of the ten plagues of Egypt. So maybe this verse is a description of the Rapture, and if not, God will supernaturally protect His people from Babylon's plagues. For Israel it was an exodus to the Promised Land, for the Church the Rapture will be an exodus to Heaven. But that the Rapture may occur 'at any moment' cannot be true as first Israel must have its temple again and the "man of sin" is revealed in that temple, the "son of perdition", the Antichrist; read 2Thess.2:1-4.

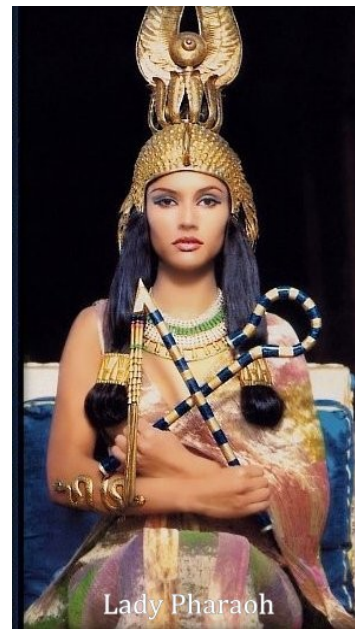

(4) In 2Cor.4:9 the apostle Paul uses the verb 'kataballoo' figuratively when he writes about himself (AV) – "Persecuted, but not forsaken; *cast down* – '*kataballomenoi*' (NKJ Version has 'struck down'), but not destroyed". By adding "but not destroyed", Paul too knew that the words 'katabolei' and 'kataballoo' imply *destruction*, or at least '*disruption*' and '*ruin*'. As happened with the Earth in Genesis 1:2 by the wrecked rebellion of Lucifer and his angels and the consecutive cosmic war in the heavens between the powers of good and evil, causing the extinction of the dinosaurs he had created after his own reptilian image, a 'creative power' God had delegated to him to test him, writes godly bible scholar Steven M.Collins in his online article 'Is the Earth 6000 years old?' In which he proves the Bible and true Science need not be in opposition to each other, but that 'evolution' is a fable (and it is!).

In Hebrews 6:1 in the basic text the noun 'themelios' and the verb 'kataballoo' occur next to each other, here also in a figurative sense, where it should read (instead of what is read) – "Therefore, not having left the beginning ('archei') of the word ('logos') of Christ, let us be borne along unto perfection ('teleioteis'); *not casting down* ('kataballomenoi') *the foundation* ('themelios') of repentance ('metanoia') from dead works, and of faith ('pistis') toward God". That is to say, the foundation already laid of repentance etc., was not to be cast down or overthrown, but was to be *left*, and progress made unto the perfection, says Appendix 146 of the Companion Bible. It also says - "The remarkable thing is that in all occurrences (except 2Cor.4:9, Heb.6:1 and 11:11) the word 'katabolei' is connected with 'the world' ('kosmos') and therefore the expression should be rendered 'the disruption (or ruin) of the world', clearly referring to the condition indicated in Gen.1:2, and described in 2Pet.3:5,6.

That Elohim originally created a world that was exceedingly beautiful, is mentioned in Job 38:7 and in Isaiah 45:18, where He says – "For thus says the Lord, who created the heavens, who is God, who formed the earth and made it, who has established it, who did not create it in vain (= '*without form*', Hebr. 'tohu', the same word as in Gen.1:2), who formed it *to be inhabited*". Not yet by humans, but by angels, as Ezekiel 28 writes about "the anointed cherub who covers" (covering the throne of God with his wings, but who later became Satan when iniquity was found in him, vs.15), that he as the ruler of that world was "in Eden, the garden of God", vs.13,14. That 'Eden' was not the one of Adam and Eve, but the world of Is.45:18 – whole planet Earth, "the world that then was" ('ho tote kosmos', 'the then-world') of 2Pet.3:6. That world was so beautiful that "the morning stars sang together and all the sons of God (Hebr.'bene ha-Elohim' - angels) shouted for joy", Job 38:7, when He created it for their habitation. These 'morning stars' also are angels, as Lucifer (= 'Morning-star') in Is.14:12 is called 'son of the morning' (Hebr. 'Helel Ben-Shachar'). Then after the 'katabolei' of Genesis 1:2, from Gen.1:3 onwards we read about the 'Creation Week' (either of 6 days of 24 hours or of 6 days of 1000 years each, as that to Elohim is the same, Psalm 90:4, 2Pet.3:8) – the creation of the antediluvian world of before the Flood of Noah's time (Gr.'archaios kosmos', the 'ancient world' of 2Pet.2:5, NKJV) and the world as it is now, and as beautiful as the original one, from the onset intended by Him to be inhabited too, this time by humans "in His image and likeness", Gen.1:26,27, 9:6. But soon through Adam and Eve it also became a fallen world as well, which at the end of this current age will be disrupted and ruined again by His judgment of wicked mankind and their anti-messiah's New World Order. At the culmination of which Yahshuah will come again in power and glory to destroy them at Armageddon and establish His Messianic Kingdom, and He for the first time since Adam and Eve again will make planet Earth a 'Garden of Eden'...

11. THE GREAT SPHINX

Like the Plateau of Giza and especially the Great Pyramid, the Great Sphinx also conveys a Messianic message. We already stated before that it as having the body of a lioness is no male but a female, or as a hybrid at least both male and female. Queen Hatshepsut, the daughter of Thutmose I, as one of the most famous of several lady pharaoh's in the history of Egypt (1) presented herself as a male, clean with the pharaohian false beard, also in the apparition, the sculpture of a sphinx. This is less strange than it sounds as both in mythology and the Bible hybrid beings are found, those in the Bible being the four cherubim or 'beasts' (Gr. ζῴον - 'zoo-on' or 'living beings'), heavenly beings with the head in the likeness of a man, an ox, an eagle and 'a lion', Rev.4:6,7, while in Ezek.10:14 they even have four faces each, among which again that of a lion.

The heavenly virgin - By the Egyptians the Great Sphinx as a male was named 'Hor-em-Akhet' - 'Horus-in-the-Horizon' as identified with pharaoh Khafra as the Horus-king, its cosmic counterpart, the constellation of Leo being called 'Horakhti' - 'Horus-of-the-Horizon'; Leo at the vernal point in about 10,500 BC being identified as Ra-Horakhti: the Sun-in-Leo. While agreeing that the Sphinx's head may depict the Horus-king (though not even of the same race, as forensic specialists have discovered; it's false beard resting somewhere in the British Museum), we prefer it to be considered as the goddess Isis - Horus's mother - who according to the Pyramid Texts ruled with her husband and brother Osiris in the First Time of Zep Tepi (ca. 11,000 BC), the very time the Sphinx represents astronomically, as we have mentioned before. Translated to biblical terms: Just as the Plateau of Giza depicts the celestial Duat in the First Time and when rebuilt in the Last Time will be the terrestrial reflection of the heavenly Jerusalem, in the same way the Sphinx then must be the terrestrial reflection of the heavenly virgin in the Last Time: Sirius Beta, the bride of Christ of the New Jerusalem, with whom the Holy City is identified - "Come hither, I will show thee the bride (νύμφη - 'numphei'), the Lamb's wife (γυνή - 'gunei'). And he carried me away in the spirit (πνεύμα - 'pneuma') to a great and high mountain (which symbolically may be typified by the Great Pyramid), and showed me that great city,

the holy Jerusalem, descending out of heaven from God”, Rev.21:9, 10.

The Bride is identified with the City because she will be the dweller of it (just as any city is identified with its dwellers), being the spiritual descendant of Abraham as the father of all who believe, circumcised or not, Rom.4:11,12, so both Jew and Gentile. As such she is the antitype of famous women of faith in sacred history, be they Hebrew or Gentile. Like Eve, to whom was first promised the

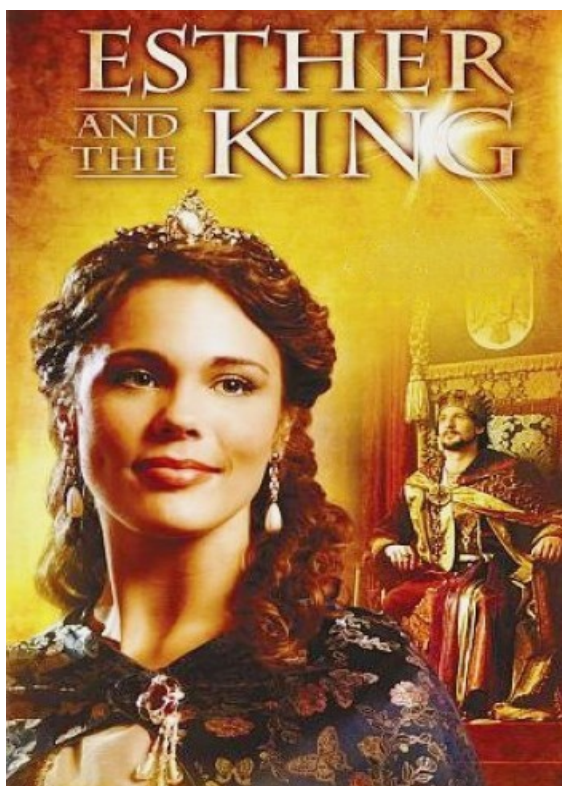

coming forth of the Messiah as her seed, Gen.3:15; Sarah, Abraham’s wife and mother of Isaac; Hagar, Sarah’s Egyptian housemaid and mother of Ishmael, Abraham’s first son; Rebecca, Isaac’s wife; Rachel and Leah, Jacob’s wives; Tamar, the wife of two of Judah’s sons; Rahab, the harlot of Jericho; Deborah, Israel’s female Judge; Ruth, the Moabitess, who married Rahab’s son Boaz, being King David’s great-grandmother; Hannah, mother of Samuel; Abigail, Ahinoam and Bathsheba, three of King David’s wives; the ‘daughter of Pharaoh’, King Solomon’s ‘great royal spouse’; Makeba, the Queen of Sheba (who according to legend gave birth to Solomon’s son ‘Menelik’) and about whom Jesus in Matt.12:42 speaks positively; Hadassah/Esther, that brave Jewish girl who became Queen of Media-Persia as the spouse of King Xerxes; and last but not least the many women of faith of the New Testament. The first three being Elisabeth, Mary and Mary Magdalene, to whom even a Gnostic gospel is devoted (one of the Nag-Hammadi codices, not scrolls, but the world's oldest books). Elisabeth was the mother of John the Baptist, and Mary as a virgin gave birth to the Messiah as prophesied by Isaiah – “Behold, a virgin (Hebr. ‘ha-almah’, i.e. ‘the damsel’, not necessarily a ‘virgin’, Hebr. ‘bethulah’) shall conceive and bear a son, and shall call his name Immanuel (Hebr. ‘God with us’)”, Is.7:14. In Matt.1:23 this prophecy is fulfilled as being a verbal citation – “Behold, a virgin (ἡ παρθένος – ‘*hei parthenos*’, ‘the virgin’) shall be with child and shall bring forth a son”, etc. This settles Mary as being the virgin, just as the

‘almah’ Rebecca was a ‘bethulah’ (Genesis 24:16,43, every bethulah is an almah, but not every almah is a bethulah). In the same way the Messiah’s earthly Bride Israel is the antitype of the bride in the Song of Solomon, whose ‘leading lady’ as said was "the daughter of Pharaoh" (according to ancient Jewish sources named 'Tashere', daughter of pharaoh Shishak I of the 21st dynasty), 1Kings 3:1,7:8, who resided in a house of “costly stones” within his temple complex (1Kings 7:8,9), forming part of the ‘City of David’, which is an archetype of the New Jerusalem. Solomon marrying an Egyptian princess as his first and foremost wife is unique in Egyptian history - and in biblical history as well - as pharaoh's never sent their daughters abroad to marry foreign kings (2), they often preferring to marry them themselves. Like Rameses II, who married his daughter Bint-Anat he had with his second wife Isisnofret, and have children with her. The philosophy behind that was that it was for political reasons, and that pharaoh's were considered as gods, the living Osiris or the living Horus. And which Egyptian princess didn't want to marry a god, also when it was her own father? From childhood they were educated in this (3). So that Shishak did agree in giving his daughter to him is proof of King Solomon's power, fame, wisdom and wealth given by Yahweh to him as a great type of the Messiah, the King of kings, the Husband of His (mainly gentile) heavenly Bride.

The desired Son – Now, a sub-constellation in the constellation of Virgo is ‘Coma’, which in Hebrew means ‘The Desired One’ as in Haggai 2:7 – “*The desire* (Hebr. ‘hemdath’, ‘the valuables’) *of all nations shall come*”, the valuables of the Messiah, the Septuagint reading ‘the Elect’ or ‘Chosen One’. On modern star maps it is ‘Coma Berenices’ (named after Berenice, the wife of Ptolemy III Euergetes, king of Egypt in the 3d century BC), which in Latin means ‘Hair of Berenice’. This however is a corruption as the Zodiac of Denderah shows us the original Coma – a young woman seated on a chair

with a standing babe ‘balancing’ on her stretched left hand, so depicting Isis with the young Horus as situated directly below Leo’s tail. The matching hieroglyph reads ‘*Shes-nu*’, meaning ‘*the desired son*’, so the desire of all nations, the Messiah. Virgo herself at Denderah is depicted directly to the left of Leo as a standing woman with a bundle of corn ears in her hand. This is in accordance with the significance of the brightest star in Virgo - Spica, or *Al Zimach*, Arabic for ‘*The Branch*’, as in Zech.3:8 – “Behold, I will bring forth My Servant the Branch (Hebr. ‘*zemach*’), so again the Messiah, about whom the priest Zachary prophesied following the birth of his son John (the Baptist) – “...Through the tender mercy of our God; whereby *the dayspring* (dawn rising or orient, Gr. ἀνατολή - ‘*anatolei*’, Hebr. ‘*zemach*’, so *Al Zimach* as the Branch) *from on high* (ἐξ ὕψους - ‘*ex hupsos*’) hath visited us, to give light to them that sit *in darkness and the shadow of death* (the ascending passageway in the Great Pyramid: the ‘Hall of Truth *in Darkness*’, also called ‘the Passage of *the Shadow*’ - Book of the Dead) to guide our feet into the way of peace”, Luke 1:78,79. Note how accurately Zachary cites the words of the Book of the Dead! As *Al Zimach* is a binary star, it is again symbolic for the Messiah and His heavenly Bride, as well as of the female ovary and the Seed of the Woman, the Messiah, the Branch, just as in Egypt Sirius was the astral womb of Isis as well as her son Horus (4). So the star depicts Virgo’s fertility. Though a woman is depicted, it is her Seed, the Messiah, which is the subject of prophecy.

The zodiacal nodal point - Dr. Bullinger afore-mentioned, in ‘The Witness of the Stars’ writes that the Sphinx according to its name and as a hybrid *is Leo and Virgo at the same time*, the word ‘Sphinx’ being derived from the Greek verb ‘*sphingoo*’, meaning ‘*to connect, to join*’, the same stated in Appendix 12 of the Companion Bible. By which is denoted that since Creation the constellations Leo and Virgo in the Zodiac are partners, just as Orion and Sirius are and the Messiah and his heavenly

Bride will be in the Last Time. Bullinger concluded he in the Zodiac-circle had to ‘begin’ with Virgo (as typified by Eve and Mary) and to ‘end’ with Leo (as typified by the Messiah) if the sequence of the 12 constellations would be in chronological harmony with the Messianic events and prophecies of the Bible, something the ancients were already familiar with. Therefore, in the Zodiac on the colonnade of the temple of Esnah we see a sphinx placed between Virgo and Leo, thus in effect functioning as the ‘zodiacal nodal point’. This is exactly the Great Sphinx with her name is trying to tell us – ‘Connect me with Leo, tie us up in matrimony, begin with me and end up with Him, for I’m already waiting for Him for half a precession-cycle, as I know He now will come quickly’ (Rev.3:11, 22:7,12,20).

So the zodiacal nodal point is situated precisely between Virgo and Leo. In the sky this is depicted by a star forming part of the constellation of Leo named ‘Sarcam’, Hebrew for ‘The Sovereign who

As the rulers in their kingdom of the First Time, Osiris and his bride Isis can be seen as typifying the Messiah and His heavenly Bride as the rulers of His Kingdom of the Last Time.

connects’, so by which is denoted where in the sky the nodal point of the Zodiac-circle is to be found. Hence already for thousands of years the Sphinx’s clear-sighted gaze is pointed at due East, the vernal equinox, as she knows the Lion of Judah, her Husband when He comes, *shall come from due East*. How does she know? Because He already 2000 years ago has said – “*Just as the lightning comes from the east and shines unto the west, so shall the coming of the Son of man be*”, Matt.24:27. Because just like she in the First Time of Zep Tepi (she by several scholars is considered that old) (5) saw her cosmic counterpart Leo rising above the horizon at the vernal point due East, so the ‘wintertime’ of the great cosmic year, she now at the beginning of the ‘summer’ in the Last Time *each year is sighting Aquarius rising at the vernal point due East*, as the celestial sphere since has turned 180 degrees. What’s more, because the constellations now are in their upper culmination points for the first time in 26,000 years, *she currently each night is viewing her Divine husband ‘Orion, the Messiah, He Who comes forth as Light, rising above the horizon due East’* (and setting due West, Orion’s Belt being at

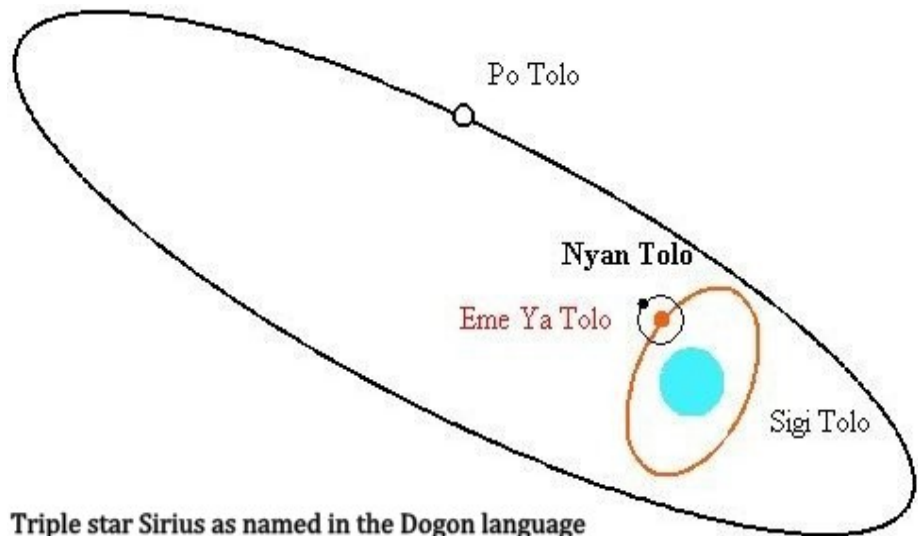

the celestial equator while ‘following’ it) and more northerly than due East Orion will never come. This means that she, the Bride, knows his Second Coming is at hand, because now in the Last Time the Age of Aquarius and the ‘sabbatical millennium’ of Chronology have dawned, and the ‘summertime’ of the great cosmic year, the Day of the Lord, His Millennial Kingdom is near and she will marry Him, just as Isis and Osiris did in their kingdom of the First Time... Therefore God’s Prophetic Instrument at Giza as the terrestrial reflection of the heavenly Jerusalem, will be rebuilt to completeness by receiving its Benben at last and be reactivated in the future to depict all this...

Conclusion - All summed up, it appears that the awe-inspiring, sacred architecture of the Plateau of Giza, the City of Enoch, in its prophetic-astronomical symbolism is *the centre* of God’s ‘astronomical Plan of Salvation’ for the earth and its mankind, thus conveying a multiple Messianic message of great

significance and of the utmost importance. Therefore it is situated literally *in the centre of the earth* – at the intersection of the longest land-contact parallel with the true prime meridian (and not the one at Greenwich, UK), the only meridian that divides both the Great Pyramid and the landmasses of the earth in two equal parts. Is it because of all these amazing things that God Almighty in Isaiah 19:25 is blessing Egypt with the words – “Blessed be *Egypt My people*, and Assyria the work of My hands, and *Israel Mine inheritance*”?

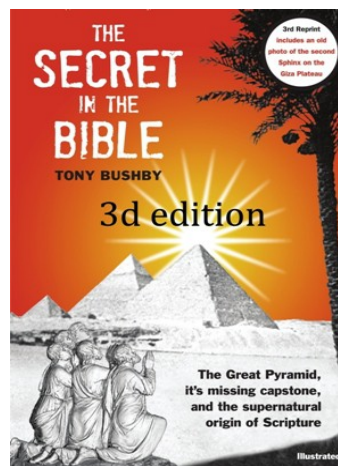

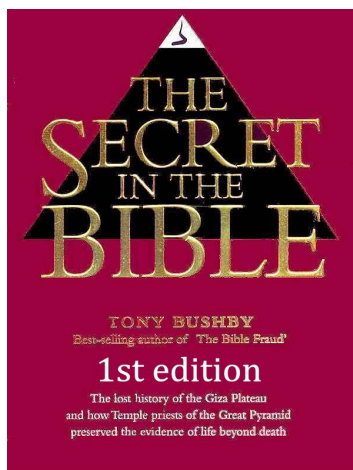

- (1) Like Nefertiti, the widow of Amenophis IV (Akhenaton) and Cleopatra VII as the last one.
- (2) The only other occasion in the Bible of a daughter of Pharaoh marrying a Hebrew is 1 Chronicles 4:18, where it reads - "And these were the sons of Bithiah the daughter of Pharaoh, whom Mered took". Mered was of the lineage of Judah, a descendant of Caleb (vs.15), one of the 12 spies mentioned in Numbers 13, and friend of Joshua, the successor of Moses. The Hebrew spelling of 'Bithiah' is 'Bithyah', literally meaning 'daughter of Yahweh', so obviously not her original Egyptian name, but the name she received after her conversion to faith in Yahweh.
- (3) Which is also evident by the names of 8 Ptolemaic Egyptian princesses named 'Cleopatra'. The full name of the most famous one was 'Cleopatra VII Thea Philopatoor', Greek for 'She who is the glory of her father, the goddess who loves her father'. This included sexual love, as she had (superficial) sex with him when a teenager, from early pre-teen age for many years always sitting on his lap. She for a short time was married with her two much younger brothers for political reasons and was much loved by her people; they considering her as the 'living Isis'. She was 18 when marrying her 10 years old brother Ptolemy XIII. When 21, she became the mistress of 52 years old Roman general Julius Caesar, after having seduced him by popping out of a big carpet naked, carried into his office in Alexandria. 9 months later she bore him a son, Caesarion. Following Caesar's assassination in 44 BC, she married Roman general Marc Anthony, with whom she got 3 children, among whom Cleopatra VIII Selene.
- (4) The ancient Egyptians and the Dogon tribe in Mali (Africa) and even the stone-age Aborigines in Australia knew already for ages that Sirius is a triple star, though it is not visible by the naked eye...How? It must have been told them by the fallen angels of Genesis 6, as described in the First Book of Enoch.
- (5) Several scholars derive the enormous age of the Sphinx of many thousands of years from the fact that its limestone body (its head originally being that of a lioness) exhibits the typical wear and tear caused by prolonged torrential rains during the biblical Flood, as well as frequent floods of the river Nile in prehistory caused by the melting of the icecaps of the last Ice Age, as in the course of millennia the climate on Earth became warmer, eventually resulting in the forming of deserts like the Sahara.

12. APPENDIX - THE RAINBOW SERPENT

In chapter 10 we wrote about the origin and biblical significance of the Benben, the missing capstone of the Great Pyramid, as a symbol of the Lord Jesus Christ as the 'headstone of the corner', Psalm 118:22, and the 'chief cornerstone', Eph.2:20. Now, there's a different story in existence, supported by ancient documents, about the Great Pyramid's Benben, as first described by the Australian author Tony Bushby in his book 'The Secret in the Bible'. Though very different, this story can easily be integrated into the biblical accounts of the Great Pyramid and its missing capstone we have described. Bushby writes - "Without the Great Pyramid and the mysterious Book of Thoth, there would be no Bible today, simply because the very essence of the hidden information evolved at the Great Pyramid. In church dictionaries, that statement is not corroborated, but the result of this work shows the entire primary function of the Great Pyramid was directly responsible for the coming into being of both *Old* and *New Testaments* of the Bible" (page 27).

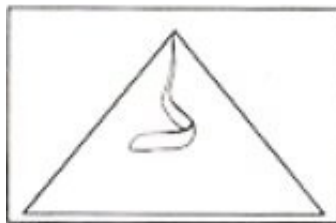

This is said by an author who sort of contradicts himself by *not* believing in the whole Bible as the divinely inspired Book of books. Who believes that the Gospels and the New Testament are forgeries (1), so that he does *not* believe in the Lord Jesus Christ as the Son of God (only as a Jewish Rabbi who 'stole' the original Torah Scroll and had a twin brother Judas Khrestus), so is *not* a Christian. That only the five Books of the Torah are divinely inspired and 'holy' (but 'unhistorical'), not written by Moses he says (cause he 'never existed'), but 'in secrecy' by Ezra as a high initiate of the Egyptian priestly 'Order of the Panthera' (panther). And that original Babylon was built at what now is Cairo (including its Tower), from where Ezra and his 5 scribes while writing the original Torah Scroll in only 40 days, could view the Great Pyramid and the 'Panther Sphinx'...All this non-sense you come to know when reading his bestsellers 'The Bible Fraud', 'The Secret in the Bible' and 'The Crucifixion of the Truth'. It reveals that he, when not a high initiate of Freemasonry or a Rosicrucian himself (he had to comply with not revealing their 'most secret secrets', page 5, and at the head of each chapter you see the two pillars 'Jachin and Boaz' of Solomon's temple and every Masonic Lodge), is a Gnostic (2) and sympathizer of these secret societies as the main bodies of the Illuminati, who via their principal god Lucifer (i.e. 'Light-bearer', by us mentioned 'Satan'), rule the world of today. Maybe the reason why he is granted access to the rarest manuscripts, like the Rare Manuscripts departments of the Libraries of Alexandria and the University of Oxford (a secret societies stronghold), including (underground) areas of the Giza Plateau only accessible to him (he lives in tumultuous Cairo), not to other researchers.

Nevertheless, let's see what he has to say about the Great Pyramid's missing capstone, the Benben, "the very essence of the hidden information", of which he says that the Benben's location already for many centuries is within the black Ka'aba stone structure in Mecca (which then seems to have been specially built for housing the Benben).

Quote – **“Inside the Benben** - It can be confidently said that something of a non-ordinary nature is constantly happening within a Benben-type pyramidal space, and that claim is supportable with physical evidence. When a light is shone down into the apex of a glass or crystal pyramid of any size, but built to the same angles and ratio as the Great Pyramid, something remarkable occurs. Rising out of the area that would be the location of the Queen's Chamber and moving up through the King's Chamber area, a spectacular spiral or swirl of light resembling a serpent standing upright upon its tail is seen. That beautifully proportioned form is created in the seven rainbow colours, and its highest-most point disappears out of the top centre of the pyramid in an ever-decreasing spiral. Some have known for thousands of years of the existence of that marvelous occurrence and it holds untold ramifications for the spiritual development of mankind.

Because of its form and colour, the phenomena shall now be called '*The Rainbow Serpent*' because that is exactly what it looks like when viewed through any or all four sides of a miniature clear model of the Great Pyramid. In its original form, it was visible in the large Benben, and ancient Egyptian priests called the vertical spiral of light Khepra. To them it was God", (page 251).

“With the penetration of the sun's rays down into the Benben, the upraised serpent in the component colours of the light spectrum was visible from all sides of the Great Pyramid and its crystalline cap glowed with the vertical spiral of light. The Bible said God's presence was seen on top of the mountain (Ex.34:2), that being the 'mountain of stone' now called the Great Pyramid. God's presence was Khepra, the Rainbow Serpent spiraling in the Luminous Crown.

With the Benben in place, the Great Pyramid became a living ark of mysterious force. 'A fiery halo was often seen to glow around the apex and strange deep rumbling sounds arose around the structure' ('On the Mysteries', Iamblichus, fourth century). That was one reason why the Great Pyramid was held with fear. With the sun shining down upon it, 'a serpent was seen lighted on top of the House of God' (ibid.), and that Serpent could clearly be seen standing, as it were, upright in the middle of the Benben. That was what numerous ancient records documented, and Moses' 'bronze serpent' (Numb.21:8,9) was a physical reconstruction of it" (but he denies Moses' existence...gkm).

“The Book of the Dead provides a clear description of the Rainbow Serpent and its specially constructed location. Stone lasts forever and inscribed in it are these remarkable words: 'Hail, shining one, above the Temple of the Gods in visible form...swirling above the white Temple in the sand'. Moreover, what was being described in the Book of Enoch in this extraordinary collection of words?

“...and he drew nigh to a large structure which was built of crystal...and containing tongs of flame... and the aslant walls of the structure were covered with a tessellated flow of crystal...and its base was of crystal”. (Chapter and verse(s) in the Book of Enoch are not given, gkm).

Later in the Book of Enoch that ‘structure’ is referred to as “the holy radiating jewel”, an exquisite description that supports Tibetan tradition of the Benben being ‘surrounded by a radiance, and flowing with rivers of light’, (how came the Tibetans to know about it?, gkm).

Earlier chapters mentioned the ‘old book’ found by Hilkiah around 400 BC (2Kings 22:8). Written on a peculiar fabric, that mysterious document was called the *Book of God* and carried within it coloured illustrations or depictions and precisely described the Rainbow Serpent. Look again at what was said:

“One of its illustrations represents the Divine Essence...like a luminous serpent proceeding up to form a circle, and then having attained the highest point of its circumference, the ineffable Glory bends back down again”.

That ancient description suggested the Rainbow Serpent was created from a force acting directly down and then shadowing up again (a twisted double helix format; like a DNA strand), creating an intertwined radial spiral of vertical light with a mirror-type reflection (a twin, so to speak)”, (pages 252-254).

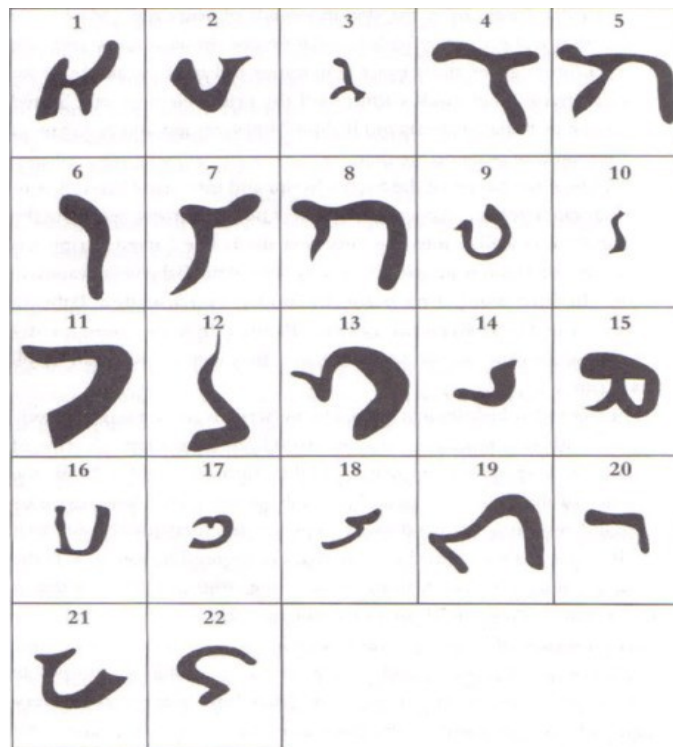

“...The ancients looked upon the spiral image in the Benben as ‘a serpent occupied by a god’ and they called it Khepra. The oldest writings known to mankind today make constant references to its existence and thousands of people over many centuries were recorded to have eye-witnessed the phenomena. However, there is more to that fascinating spiral of coloured light than is imagined and its visual presence on top of the Great Pyramid was only its earthly (exoteric) garment. There was also an esoteric nature to Khepra and that aspect raises the fundamental nature of the Bible to a stunning new level”.

“The only Holy Book - For thousands of years, spiritual teachers of Jewish traditions claimed that the five major Hebrew texts making up the Torah were 'holy', of special significance, and of supernatural origin...and they were right. By producing an exact copy of the spiral shape of the Rainbow Serpent from plastic, brass, a strip of metal or a similar solid substance, its significance becomes apparent, and that item could be best described as 'light descended into matter'. It is the primary element of both the Book of Thoth and the Secret in the Bible and the precise twisty shape of the Rainbow Serpent provides the necessary form to physically demonstrate a major part of the Secret. When the plastic or metal reproduction of the Rainbow Serpent is slowly revolved, 22 different shaped shadows are cast from that one element, and those shapes directly make up the 22 separate letters of the alphabet that the Torah was written in. Put in simplest terms, the alphabet in which the Torah of the Bible was originally and secretly written was one composed of a series of 22 cosmic glyphs that emanated with 'splendour and power in the form of a serpent' from a vertical spiral of light in the Benben on top of the Great Pyramid in Egypt. Evidence of that knowledge points directly at the undeniable input of a higher intelligence, a superior mind source.

It does not matter therefore, what the words of Ezra’s Torah Scroll say or how inaccurate they are. It is irrelevant if they are fictitious...what matters is the knowledge that every word of the Torah Scroll was written in a Sacred Script...a Divine Language. The Torah is composed of a series of supernatural

letters sourced from the shape and design of the Rainbow Serpent inside the Benben that ‘came from the sky’ thousands of years ago. Maybe the Great Pyramid was purposely built to such precise dimensions to preserve in stone for future generations, exact dimensions and angles of an object we now call a pyramid that holds within itself the prime element of a Sacred Secret known by initiated priests and Rabbis 2400 years ago, and by Egyptian priests thousands of years before that.

...The sole individual element of the Divine Script is composed exclusively from the 22 different positions a shadow would cast from a reproduction of the Rainbow Serpent (or Serpent of Light). Initiated Rabbis knew the significance of the Sacred Script and jealously preserved the knowledge by writing and rewriting by hand every copy of the Torah using only that Script. It is not the words in the Bible that are inspired by God...it is the shape of the letters in which those words were originally written that is divine...The shape of the Rainbow Serpent is the very substance of every element of the Sacred Script, for it is the same spiral element in a different position in every word of the true Torah Scroll. The Torah, far from having to do with historical narration, is solely concerned with the concentration of Divine letters, in that the words were written from 22 individual elements woven out of one particular spiral form and developed into words that made up the narratives. Thus, the Torah is a structure, the whole of which was built on one fundamental principle, namely a Divine Language or Sacred Script.

...Ezra ensured that that knowledge was known, for he wrote, ‘thou shalt not add thereto, nor diminish from it’ (Deut.4:2). That approach was well able to explain the contradictions, the stylistic discrepancies and the serious chronological problems found in the Torah. It is made up of part narrative, part laws of life, commandments, part poetry, part raw statistics and major areas of unashamed fiction...Behind the different problems and styles stands the mystic unity of the Divine Language, the Letters of God, not the words of God...From the outset, the Torah possessed two

aspects; a literal or surface reading or meaning which in most cases, particularly the supernatural narratives, are unhistorical and irrelevant; and a profound mystical understanding of immense depth.

...The Benben and its Rainbow Serpent however, had a much deeper meaning than just letters of the biblical alphabet. The symbols were preserved in the Book of Thoth and directly responsible for the coming into being of the Book of the Dead (as originating from *the Adamic civilization*, gkm). That in turn led subsequently to the creation of the Torah. Ezra in his wisdom gave mankind the correct sequence for the use of the Divine Language in 22 consecutive verses of Psalm 119. The Rainbow Serpent was also directly responsible for the construction of the Great Pyramid that was built, in part, specifically to be a place of certain trials, temptations and difficulties that a person had to meet and overcome as he progressed from knowledge to knowledge (so the gnosis of the Gnostics, gkm) (2) before being given access to the greatest of all Secrets...and the Rainbow Serpent provided the mechanism”, (pages 256-260). - Unquote.

Our comment – The God of the Bible can only be known by words, *His words, the Word of God, the Bible*. Not by letters alone, not even by sacred letters alone. Bushby himself speaks of the ‘Divine Language’, but a language must be composed of words forming sentences (otherwise it’s no ‘language’ at all), which are composed of sacred letters, *telling a historical narrative of God’s great deeds*. We believe the Divine Language of the original sacred Hebrew of the Torah is the language spoken in Heaven. And each of the 22 letters of that Sacred Script has its own numeric value; that what is called ‘Gematria’, which is also divinely inspired (and about which Bushby is silent). Here’s the evidence -

— Isaiah 19: 19-20 —

ביום ההוא יהיה מזבח ליהוה בתוך ארץ מצרים ומצבה
 אצל-גבולה ליהוה : והיה לאות ולעד ליהוה צבאות
 בארץ מצרים כי-יצעקו אל-יהוה מפני לחצים וישלח
 להם מושיע ורב והצילם :

This Great Pyramid Text of Scripture, in the original Hebrew, contains 30 words. In Hebrew the letters of the alphabet were employed as arithmetical figures, consequently every word is also a row of figures and thus all Hebrew writing has numeric value. The above Hebrew Text as numbers is as shown below—the value of every letter is given and each line represents a word. **The total value is 5,449.**

Height of the Great Pyramid in Pyramid inches = 5,449
 (to the original Summit Platform)

Those 5449 pyramid inches was the height of the Great Pyramid without its capstone, when that was rejected by the builders (Ps.118:22). Today the height of the Pyramid is 5388 pyramid inches (449 feet), i.e. about 1.52 meters less. This is due to the ravages of time, including earthquakes.

The story below about the Benben is extracted from the ‘Stygian Port’ website (with our comments between brackets) and also deals with the contents of Bushby’s book ‘The Secret in the Bible’. See

Quote – “The Egyptians revered the pyramidal shaped Benben stone which was made of ‘star’ material, and ‘came from the heavens’. The Benben was housed at the Temple of the Benben at Heliopolis

(already in prehistory, gkm) and was associated with the Bennu bird, or Phoenix, (which at the end of every fixed, long time-cycle landed, they believed, on top of the Benben, gkm). Great mystery surrounded the interior of the stone, which may not have been a stone at all, since people could apparently see into it. A relief carving at Abu Sir shows workers dragging an illuminated Benben into place, with the words 'pure light' or 'white light' or 'white gold' under it. At some points in time the Benben sat in its temple, sitting on a square base, thus making it not only the first pyramid, but the first obelisk as well. The Sumerians had great plans for stealing it and even constructed a very expensive temple to house it. The Sumerian king Gudea (2100 BC) was told by his god to make his temple as strong as the 'House of the Serpent', an old mystery school name for the Great Pyramid (so not made of brick stone but of natural stone from the country of 'Aratta'?, see pages 73-78 of Peter Goodgame's 'The Second Coming of the Antichrist', gkm). The Benben eventually made its way back to Egypt 1350 years after it was stolen and Pharaoh Pi-Ankhi goes to view it in its temple at Heliopolis – The king Pi-Ankhi mounted the stairs toward the large window, in order to view the god Ra within the Benben. The king standing up, and being all alone, personally pushed apart the bolt and opened the two door-leaves. Then he viewed his father Ra in the splendid sanctuary of 'Het-Benben'. From the eyewitness accounts of the Benben, it would appear that it was a see-through crystal, in the shape of a miniature pyramid, and it became illuminated by the sun – revealing the 7 colors seen in a rainbow or crystal when light is refracted. The colors formed a twisty band of light, starting at about mid-point in the Benben and ending at the top. This spiral of color was known as the *Rainbow Serpent*, and was remembered by Australian Aboriginal people by a wooden staff (as described by Bushby, gkm) with two multi-colored serpents, called the Sky-Serpent, twisting around it, like the brazen staff of Moses. The aboriginal people of New Zealand (the Maori's) maintain in their oral traditions that their ancestors were the people who built the pyramids” - Unquote.

When visiting the website of Rex and Heather Gilroy, Australian archeologists who in their homeland unearthed many Egyptian and Phoenician artifacts, one is inclined to believe the Aboriginals and Maori's knew very well about the Benben and Great Pyramid:

Stealing the Benben - Then that strange but apparently historical event in Bushby's book about the jealous Sumerian king Gudea (2100 BC), who with his army let his son, prince Ninagel, after an 800 kilometers long journey through the desert, invade Egypt and steal the crystal Benben *from atop the Great Pyramid*...How could that have been possible? The Pyramid, as finished with its smoothly polished white casing glittering in the sun, must have been totally *un-surmountable*. But even when they managed to surmount it, how could they have removed that heavy solid block of crystal? They must have been totally blinded by it, so they most probably stole it at night...After having defeated the Egyptians in battle, prince Ninagel spent three days exploring the interior of the Giza complex, including that of the Great Pyramid. Some time later he and his men seemed to have reached the Benben from the *inside* of the Pyramid, via secret uppermost 'Chambers of the Seven Zones', one above the other situated just below the Benben, as depicted on Masonic plans. These chambers appeared to be at the same levels as the 'seven bands of color' – so the seven colors of the Rainbow (Serpent) - that were once painted around that area. Anyhow, after having managed in one way or another to 'unlock' the Benben from its platform, prince Ninagel summoned everybody outside the

Pyramid to stand back and distance themselves, whereupon his men sent the Benben sliding down the smoothly polished western slope to the desert sand...

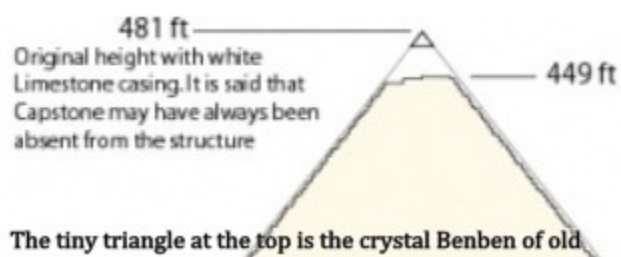

Writes Bushby: Quote - "The Great Pyramid was now, in effect, 'switched off'. The loss of the energy cap over the crown charka removed it of its power. The story proved not only the wide prevalence and mysteriousness of the Great Pyramid and its enigmatic Benben, but also the awe in which it was held. Prince Ninagel and his men hauled the Benben back to Mesopotamia to finalize his father's new temple now nearing completion and, whether they knew it or not, they had stolen the very nucleus of the 'religion' of the Egyptians. With the placement of the Benben on the new temple, the project was finished. 'The dream', wrote King Gudea on cylinder seals, 'was fulfilled...and so magnificent and marvelous was it, they were altogether seized with admiration'. It stood 'like a bright mass, a radiant brightness of its facing covering every-thing; like a mountain which glows, it joyfully rises'. They had built a showpiece, a reproduction of the Great Pyramid of Giza, complete with the original Benben", (page 233). – Unquote.

The story goes on by telling that 1350 years later a pharaoh had recaptured it, 'making its way back to Egypt', no longer on top of the Great Pyramid (3), but again in its temple in Heliopolis where pharaoh Pi-Ankhi (750 BC) was eager to admire it. Then, after the downfall of the Egyptian Empire, Bushby writes that a Berber tribe of North Africa after some 14 months of overland travel had brought it to Saudi Arabia around 487 BC. There they built a settlement with the name 'Akka', after the original name of the Benben, that later became M'akka, the birthplace of Mohammed, where it seems to rest in the Ka'aba in present day Mecca. Moslems believe the Ka'aba contains the 'Celestial Chamber of God', the same term as used in the Pyramid Texts to describe the Benben.

Our comments – We believe that the above stories about the crystal Benben, as supported by ancient records, are mainly correct, especially because the Book of Enoch also speaks of it; so that it has existed, and probably is still hidden somewhere. This means that the crystal Benben must have been much smaller than the capstone that in the future will descend on top of the rebuilt Great Pyramid. The Pyramid's current height with the capstone missing is 449 feet = 5388 pyramid inches, but when having

received its Benben, the height will be 484.4 feet (= 5813 p-inches, because the Pyramid's 4 slopes, including those of the installed Benben, meet each other at that apex point when rebuilt "to the measure of the stature of the fulness of Christ", Eph.4:13, to comply with the number of Pi). We saw that the height of the summit platform when the capstone was rejected by its builders was 5449 p-inches, so the height of the future Benben will be $5813 - 5449 = 364$ p-inches. One p-inch = 2.54 centimeters. So this Benben will be $364 \times 2.54 = 924.56$ cm's, or practically 9.25 meters high. While the perimeter of its base will be 8×286.1 pyramid inches (see chapt.10) = 2289 p-inches = about 58.14 meters. Then each base-side of the capstone will be $58.14 / 4 =$ about 14.54 meters. Thus the future Benben of the rebuilt Great Pyramid will be 9.25 meters high and more than 14.5 meters wide. Made of solid material, its weight will be more than a hundred tons, so impossible to (re)move. The Rainbow Serpent Benben was also solid, consisting of one pyramidal shaped block of pure cosmic crystal, yet it was moved, because it originally was put on its 'pillar of Atum' in the Temple of the Phoenix (or Benben) in Heliopolis already in pre-dynastic times. So it was not *that* heavy because it was some 3.5 meters high and about 4.5 meters wide. When the Great Pyramid was built and its man-made capstone (itself consisting of many stones) was rejected by the builders (Psalm 118:22), Noah, the great-grandson of Enoch and the supervisor of building, apparently intended the crystal Benben to become its capstone, for the time being. So it was moved again and placed on top of it, after first having increased the Pyramid's height to the point where the crystal Benben would smoothly fit on its (now much smaller) platform. The structure with which the Pyramid was heightened to fit the crystal Benben, must have contained those (little) 'secret chambers of the Seven Zones' directly beneath the Benben that Bushby is writing about. But since the theft by prince Ninagel, that same structure containing those 'secret chambers', in course of time had to disappear again as shown in the figure below, either by human demolition or by the ravages of time, or both, since the height of the Pyramid without capstone had to be brought back to the original 5449 p-inches to comply with the Gematria of the words of Isaiah 19:19, 20...

Because the much bigger 'chief corner stone' (as made of natural stone) of Psalm 118:22 was rejected by the builders, we believe that Noah secretly let them build the Pyramid too small for it, so that it didn't fit. He then as a replacement for the time being let them put the much smaller crystal Benben on top of it, to show the people its magnificent phenomenon of the Rainbow Serpent as the image of the Glory of the only true God. In this way it most certainly complied with the words of God to Job in chapter 38:19 and 24 (Dutch NBG Bible): "Where is the way to *the dwelling of light?*...*Where is the way to the place where light is divided?*" The Companion Bible has a parallel, more poetical rendering of the Book of Job, and there it says: "Where is the way that leads to *Light's abode?*...*The Light, by what way do its rays break up?*" Well, the people of the time only had to view the Rainbow Serpent to know the answer to these questions, but misinterpreted it as 'Khepra' or 'Ra', not as the only true God,

the Most High, thus still being kept in pagan darkness, and the people of today's darkness only have to view the rainbow (Gen.9:12-17). "God is Light and in Him is no darkness at all", 1John 1:5.

In the future, during the building phase of the Messianic Kingdom, that rejected pyramidion will be replaced by a new one and then shall exhibit a much bigger Rainbow Serpent, as it will 'come down from the heavens' too as a single block of pure crystal. Then, as a pre-fulfilment of Revelation 21, it will miraculously descend on top of the rebuilt Pyramid to show mankind the power, beauty and majesty of the returned Phoenix, the Messiah, the Son of God, their Saviour, "fairer than the sons of men" (Ps.45:3). Then the words of God to Job will come to their glorious fulfilment. Hence the verses 22-24 of Psalm 118 say that it "*has become the chief cornerstone ('Rosh Pina', in NT-Greek 'akrogoniaios' and 'kephalei goonias')*. *This is the Lord's doing, it is marvelous in our eyes. This is the day the Lord has made; we will rejoice and be glad in it*". Just as that much later in time the 'Pyramid of the Apocalypse', the New Jerusalem as made of crystal, diamond and precious stones, will descend out of Heaven unto the new Earth. It shows that just like the New Jerusalem is "not made with hands" (Hebr.9:11), neither the crystal Benben of the past, nor the crystal Benben of the future was/will be made with hands, but that it is God Himself who is their Maker, be it in Heaven, be it in the Cosmos by the stars He created. Simply because He will not allow sinful humans to make such images of His Divinity and revere them as idols (Ex.20:4, Lev.26:1, Deut.5:8). One of the very reasons why the man-made chief cornerstone had to be rejected because, as typifying His only begotten Son, the 'Seed from Heaven', God wanted it to be rejected. Noah replacing it by the crystal Benben 'not made with hands'. Thus, both Benbens had/have to be of celestial/heavenly origin. Hence Isaiah 28:16 speaks of it as a "precious cornerstone" as symbolic for the Messiah, who as Orion will 'come forth as Light'. Therefore, as "not made with hands", it is certain the future capstone of the rebuilt Great Pyramid again will depict the Rainbow Serpent. All the more so, as by the rules of Gematria, the value of 2320 of the Greek words in 1Pet.2:7 - "the stone which the builders rejected", is the same as the numerical value of the words of God in Genesis 1:3 in Hebrew - "*Let there be light*", namely 232, says American bible scholar Bonnie Gaunt in her book 'Stonehenge and the Great Pyramid: Window on the Universe'.

The Stone cut out without hands - In Daniel chapter 2 there is talk of a dream king Nebuchadnezzar of Babylon had and Daniel's explanation of it. The king in his dream saw an image of a giant statue, of which Daniel explains: "This image's head was of fine gold, its chest and arms of silver, its belly and thighs of bronze, its legs of iron, its feet partly of iron and partly of clay", vs.32, 33. In verse 38 Daniel says to the king - "You are this head of gold", i.e. Nebuchadnezzar represents this 'kingdom of gold' of Babylon (Figure of Metaphor). After Babylon came Medo-Persia - the chest and arms of silver; then came the Greek empire of Alexander the Great - the belly and thighs of bronze; next came the Roman empire represented by the legs of iron and, after a gap of some 1500 years of prophetic silence, currently it is the *fifth* world empire as represented by the United Nations - that of the feet partly of iron and partly of clay. This means partly dictatorial and partly democratic, not forming a real unity but divided (Hebr. 'palag'), politically, genetically and geographically - the *two* feet with *ten* toes consisting of *two* different materials, vs.41,43. These 5 empires are only mentioned insofar they were/are in possession of Jerusalem. Is the UN in possession of Jerusalem? For sure! Note that the most precious metal with the highest specific gravity is at the top, decreasing with its descent - gold = 19.3; silver = 10.5; bronze = 8.5; iron = 7.6; clay = 1.9. The later in history, the more inferior the governments of these kingdoms would become (vs.39). So this statue of the world empires is top-heavy and therefore

totally unstable! Then Daniel says - "You watched while *a stone was cut out without hands*, which struck the image on its feet of iron and clay, and broke them in pieces (Chaldean 'de'kak'). Then the iron, the clay, the bronze, the silver and the gold (note the reverse order to distinguish the 5 different materials) were *crushed together*, and became like chaff from the summer threshing floors; the wind ('ruach') carried them away so that no trace of them was found. And *the stone that struck the image became a great mountain and filled the whole earth*", vs.34,35. That the 5 materials of the image by the stone were crushed *together*, that is, *at the same time*, means that in the time of the end of the current world order, the *whole* statue comprising those 5 empires *will be there for the first time*, thus forming *the sixth world empire - the empire of the New World Order of 'the Beast' (Rev.13), the Antichrist*.

And what exactly is that stone cut out *without hands*?, emphasizing the absence of all human influence and the act of God alone? The margin of the Companion Bible directly refers to that stone as mentioned in Psalm 118:22 - the stone that was rejected by the pyramid-builders because it was too large to fit the top-platform of the pyramid-body. So this stone is nobody else than again the Messiah, the Lord Jesus Christ, the chief cornerstone of the rebuilt Great Pyramid, symbolically 'the great mountain that fills the whole earth'. To the capstone of which the Lord refers as having in view Himself while saying - "...And whoever falls on this stone will be broken; but on whomever it falls, *it will grind him to powder*".

Exactly *this* will happen with the Beast and his New World Order as being the *whole* end-time image of Nebuchadnezzar's dream, he in his sleep watching the utter destruction of the Beast and his world-empire, Matt.21:42,44; Luke 20:17,18. So *from power to powder*...Then, finally, Daniel says - "And in the days of these kings (ten kings, Rev.17:12,13, be they kings or heads of state like presidents, are the 10 toes at the end of the *fifth* kingdom because they give their power to the Beast 666, who then founds the *sixth* and final human empire) the God of heaven will set up a kingdom which shall never be destroyed; and the kingdom shall not be left to other people; it shall break in pieces and consume all these kingdoms, and *it shall stand forever* (Chaldean 'in the alamim', Hebr. 'in the olamim', the 2 future final 'hidden ages' of God's Plan of the Ages, see chapter 6)...*The dream is certain, and its interpretation is sure*", vs.44,45. So what Daniel is talking about here is *the arrival of the Messiah and His Messianic Kingdom*, thus marking the *seventh* kingdom - that of *the Lord Jesus Christ* - in the *seventh, sabbatical* millennium since Adam and the *seventh, sabbatical* month of the great cosmic year - 777...Writes ex-Illuminati member, turned born-again Christian 'Svali' (pseudonym) in her internet article of 15 November 2001 - "The Illuminati and other groups that are organizing to create a world order based on the occult are hoping that this won't happen. But we now know the end of the Illuminati. They are already defeated: we know who the winner is! There is only one rule, one kingdom that will last forever, and that is the reign of Jesus" - Amen, hallelujah!

(1) As the evidence that Bushby is wrong in his statement that the Gospels and de rest of the New Testament are 'forgeries', we hereby give the so-called 'structure' of the Gospel of John. Such a structure is a *symmetrical exhibition* of the Sacred Text, not only of John's Gospel, but of *all* Bible books, and is one of the most important evidences of the Divine Inspiration of the Bible from cover to cover. Not only have all Bible books such a symmetrical structure, also the paragraphs of each book, even the verses and sentences. These symmetries are caused by the *repetition of subjects* which reappear, either in alternation or introversion, or a combination of both in many diverse manners. The structures constitute a remarkable phenomenon peculiar to Divine Revelation only, and are not found outside the Bible in any other form of known literature, (just as the symmetrical exhibition of the Great Pyramid structure is Divine, and is not found in the same way in any other form of known architecture; God loves symmetry!). Therefore they are not a mere *analysis* evolved from the Text by human ingenuity. It shows that while the works of God are great and perfect, the *Word of God* is the greatest of His works and is 'perfect' also (Psalm 19:7). The structures are only included in the Companion Bible.

(2) In Eph.4:13 Paul writes about the ἐπιγνώσις – ‘epignosis’, literally meaning ‘above-knowledge’, the spiritual knowledge that comes from ‘above’, i.e. “the knowledge of the Son of God”, Coloss.2:3. So not the (occult) knowledge coming from 'below', from man (as originating from Satan), including the ‘gnosis’ of the Gnostics. Hence Paul says in 1Cor.3:19 that “the wisdom (Gr.σοφία – ‘sophia’, revered by the Gnostics as the ‘goddess of wisdom’) of this world is foolishness with God”. He warning us in Coloss.2:8,9 (NKJV): "Beware lest anyone cheat you through philosophy (φιλοσοφία - 'philosophia' = 'loving the wisdom of humans') and empty deceit, according to the tradition of men, according to the basic principles of the world (στοιχειᾶ τοῦ κόσμου - 'stoicheia tou kosmou'), and not according to Christ. For *in Him dwells all the fullness of the Godhead bodily* (ἐν αὐτῷ κατοικεῖ πᾶν τὸ πλήρωμα τῆς θεότητος σωματικῶς – 'en autoo katoikei pan to pleirooma teis theoteitos soomatikoos)". Hence also God commanded Adam and Eve not to ‘eat’ from the ‘tree of the knowledge of good and evil’ (Gen.2:9,17, 3:22), as symbolic for Satan himself. From the ‘tree of life’ in the midst of the garden (Gen.2:9, Rev.2:7) as symbolic for the Angel of the Lord (Gen.16:7, etc.), the second Person of the Divine Trinity, the Lord Jesus Christ, they could ‘eat’ freely.

(3) Because God wanted the Pyramid missing its capstone for spiritual reasons (see chapt.10).
